Mathew And Margins:

Matthew and the Margins Warren Carter, 2000 This verse by verse commentary presents the Gospel of Matthew as a counter narrative that shapes the group of Jesus followers as an alternative community able to resist the dominant authorities both in Rome and in the synagogue The Gospel anticipates the time when Jesus will return and establish God's reign over all including the powers in Rome Breaking Matthew into five narrative blocks Carter carefully considers historical literary cultural and ecclesial factors as he explores the themes of marginality and power A masterful introduction outlines these approaches and surveys other studies on Matthew *God Will Judge Each One According to Works* Kyoung-Shik Kim, 2011 This monograph provides a fresh perspective on judgment according to works by challenging both the majority scholarly view and the new perspective advocated by E P Sanders James D G Dunn and N T Wright Employing intertextuality and early Jewish mediation of scripture this study examines the idea of judgment according to works with reference to Psalm 62 13 in early Jewish literature and the New Testament The originality of this study is to highlight the significance of Psalm 62 13 in the context of judgment according to works and to argue that the texts dealing with judgment according to works in the New Testament are to be understood as interpretations of Psalm 62 13 and its broad context **The Ocean Basins and Margins** Alan E.M. Nairn, Francis G. Stehli, Seiya Uyeda, 2013-04-17 **Mathews' Quarterly Journal of Rectal and Gastro-intestinal Diseases**, 1894 Regulating Pharmaceutical Prices in India Ajay Bhaskarabhatla, 2018-08-01 This book presents an extensive study on the effectiveness of recent regulations on pharmaceutical prices in India exploring the weaknesses in the design and implementation of pharmaceutical price controls and investigating what can be done to fix the broken system In addition it examines the extent to which essential medicines are actually made affordable by price controls The book argues that companies make the pharmaceutical price control regime largely ineffective by coordinating to increase pre regulation prices by diversifying horizontally away from the regulated markets and increasing prices in the unregulated markets by manipulating trade margins and by refusing to comply with the regulation because the penalties remains negligible The book draws on extensive empirical research involving India's 2013 Drug Price Control Order and widely used medicines such as paracetamol and metformin to illustrate how firms have weakened regulation It argues that the regulatory regime can be strengthened by using systematic analysis of product and region level data in the Indian pharmaceutical industry and by screening for the strategies that firms currently employ to circumvent regulation In closing it discusses recent efforts to strengthen the implementation of price controls in India and expanding the scope of price controls to medical devices Active Continental Margins — Present and Past Geologische Vereinigung, 2013-12-01 *Journal of the Royal Horticultural Society of London* Royal Horticultural Society (Great Britain), 1926 Vols for 1869 1952 include Extracts from the proceedings of the Royal Horticultural Society The European Garden Flora Flowering Plants James Cullen, Sabina Knees, H. Imperial Powers and Humanitarian

Interventions Raphaël Cheriau, 2021-05-03 In the second half of the nineteenth century the Zanzibar Sultanate became the focal point of European imperial and humanitarian policies most notably Britain France and Germany In fact the Sultanate was one of the few places in the world where humanitarianism and imperialism met in the most obvious fashion This crucial encounter was perfectly embodied by the iconic meeting of Dr Livingstone and Henry Morton Stanley in 1871 This book challenges the common presumption that those humanitarian concerns only served to conceal vile colonial interests It brings the repression of the East African slave trade at sea and the expansion of empires into a new light in comparing French and British archives for the first time Raphaël Cheriau argues that the brutal power politics of recent humanitarian interventions have shaped historians perspectives on earlier interventions but that he is able to escape these present day sensibilities in his approach to British and French interventions in nineteenth century eastern Africa While I might challenge that suggestion nonetheless he offers historians a valuable book that explores in detail the way imperialists of the nineteenth century did and did not use humanitarianism as a justification for their work in eastern Africa Elisabeth MacMahon The English Historical Review The author weaves together a rich trove of primary documents from both British and French archives some of these have been fruitfully exploited by previous historians others reflect Cheriau's energetic digging to go beyond the obvious He also draws upon an equally dense corpus of published primary sources in both languages as well as several contemporary newspapers while his mastery of the secondary literature is impressive Edward Alpers Australian Institute of International Affairs
