James Moltz

Myths Of Empire Domestic Politics And International Ambition:

Myths of Empire Jack Snyder, 2013-05-15 Overextension is the common pitfall of empires Why does it occur What are the forces that cause the great powers of the industrial era to pursue aggressive foreign policies Jack Snyder identifies recurrent myths of empire describes the varieties of overextension to which they lead and criticizes the traditional explanations offered by historians and political scientists He tests three competing theories realism misperception and domestic coalition politics against five detailed case studies early twentieth century Germany Japan in the interwar period Great Britain in the Victorian era the Soviet Union after World War II and the United States during the Cold War The resulting insights run counter to much that has been written about these apparently familiar instances of empire building

What Moves Man Annette Freyberg-Inan, 2012-02-01 The realist theory of international relations is based on a particularly gloomy set of assumptions about universal human motives Believing people to be essentially asocial selfish and untrustworthy realism counsels a politics of distrust and competition in the international arena What Moves Man subjects realism to a broad and deep critique Freyberg Inan argues first that realist psychology is incomplete and suffers from a pessimistic bias Second she explains how this bias systematically undermines both realist scholarship and efforts to promote international cooperation and peace Third she argues that realism's bias has a tendency to function as a self fulfilling prophecy it nurtures and promotes the very behaviors it assumes predominate human nature Freyberg Inan concludes by suggesting how a broader and more complex view of human motivation would deliver more complete explanations of international behavior reduce the risk of bias and better promote practical progress in the conduct of international affairs

Wars of Revelation Rebecca Lissner, 2021-10-26 As American foreign policy experts anticipate a new Cold War with China there is no better time to reflect on the evolution of the United States grand strategy during its decades long contest with Russia Lissner shows that military interventions in Korea Vietnam and Iraq were crucibles for American foreign policy in the latter half of the 20th century testing strategic axioms on the battlefield and compelling adjustments to Washington's conception of its global role In each case these wars of revelation provided searing insights into the capabilities and intentions of America's most dangerous international adversaries as well as the potential and limits of its own national power By centering her narrative of post World War II American foreign relations on these pivotal episodes Lissner provides an historically rich and theoretically compelling narrative that will interest readers keen to understand the past present and future of US grand strategy

Reluctant Crusaders Colin Dueck, 2008-03-17 In *Reluctant Crusaders* Colin Dueck examines patterns of change and continuity in American foreign policy strategy by looking at four major turning points the periods following World War I World War II the Cold War and the 9/11 terrorist attacks He shows how American cultural assumptions regarding liberal foreign policy goals together with international pressures have acted to push and pull US policy in competing directions over time The result is a book that combines an appreciation for the role of both power and culture in international affairs The centerpiece of Dueck's

book is his discussion of America's grand strategy the identification and promotion of national goals overseas in the face of limited resources and potential resistance One of the common criticisms of the Bush administration's grand strategy is that it has turned its back on a long standing tradition of liberal internationalism in foreign affairs But Dueck argues that these criticisms misinterpret America's liberal internationalist tradition In reality Bush's grand strategy since 9/11 has been heavily influenced by traditional American foreign policy assumptions While liberal internationalists argue that the United States should promote an international system characterized by democratic governments and open markets Dueck contends these same internationalists tend to define American interests in broad expansive and idealistic terms without always admitting the necessary costs and risks of such a grand vision The outcome is often sweeping goals pursued by disproportionately limited means

The Oxford Handbook of Political Science Robert E. Goodin, 2009-06-18 Drawing on the rich resources of the ten volume series of The Oxford Handbooks of Political Science this one volume distillation provides a comprehensive overview of all the main branches of contemporary political science political theory political institutions political behavior comparative politics international relations political economy law and politics public policy contextual political analysis and political methodology Sixty seven of the top political scientists worldwide survey recent developments in those fields and provide penetrating introductions to exciting new fields of study Following in the footsteps of the New Handbook of Political Science edited by Robert Goodin and Hans Dieter Klingemann a decade before this Oxford Handbook will become an indispensable guide to the scope and methods of political science as a whole It will serve as the reference book of record for political scientists and for those following their work for years to come

The Domestic Bases of Grand Strategy Richard Rosecrance, Arthur A. Stein, 2023-08-15 This book explores the idea of grand strategy and offers a full blown critique both theoretical and empirical of the gaps and inconsistencies that weaken modern realist theory Grand strategy the authors maintain is determined as much by domestic politics as by international pressures

Regional Co-operation and Its Enemies in Northeast Asia Edward Friedman, Sung Chull Kim, 2007-01-24 Examining the prospects for building a regional community in Northeast Asia this book considers the foreign policies of the individual states as well as the impact of domestic politics on the regionalist agenda It outlines the emerging Northeast Asian community and the domestic requisites for its evolution and realization and puts it in context by comparing the emerging community with Southeast Asia The book investigates the attitudes of the key powers including China Japan South Korea North Korea Russia and the US towards the ideal of greater regional cooperation with particular emphasis on the implications of domestic factors in each country for regional dynamics It explores the North Korean nuclear crisis the continuing tensions over the Taiwan Straits the impact of Sino Japanese rivalry the shift in stance of South Korea towards North Korea since 2001 and its implications for its relationship with the US and Putin's attempts to strengthen Russian influence in the region It concludes by identifying the foremost dangers that risk obstructing greater regional cooperation particularly the China Japan rivalry nationalist sentiments territorial disputes and

energy competition **Rebranding China** Xiaoyu Pu, 2019-01-08 China is intensely conscious of its status both at home and abroad This concern is often interpreted as an undivided desire for higher standing as a global leader Yet Chinese political elites heatedly debate the nation's role as it becomes an increasingly important player in international affairs At times China positions itself not as a nascent global power but as a fragile developing country Contradictory posturing makes decoding China's foreign policy a challenge generating anxiety and uncertainty in many parts of the world Using the metaphor of rebranding to understand China's varying displays of status Xiaoyu Pu analyzes a rising China's challenges and dilemmas on the global stage As competing pressures mount across domestic regional and international audiences China must pivot between different representational tactics Rebranding China demystifies how the state represents its global position by analyzing recent military transformations regional diplomacy and international financial negotiations Drawing on a sweeping body of research including original Chinese sources and interdisciplinary ideas from sociology psychology and international relations this book puts forward an innovative framework for interpreting China's foreign policy **The Insiders' Game** Elizabeth N. Saunders, 2024-03-26 How elites shape the use of force in American foreign policy One of the most widely held views of democratic leaders is that they are cautious about using military force because voters can hold them accountable ultimately making democracies more peaceful How then are leaders able to wage war in the face of popular opposition or end conflicts when the public still supports them The Insiders Game sheds light on this enduring puzzle arguing that the primary constraints on decisions about war and peace come from elites not the public Elizabeth Saunders focuses on three groups of elites presidential advisers legislators and military officials to show how the dynamics of this insiders game are key to understanding the use of force in American foreign policy She explores how elite preferences differ from those of ordinary voters and how leaders must bargain with elites to secure their support for war Saunders provides insights into why leaders start and prolong conflicts the public does not want but also demonstrates how elites can force leaders to change course and end wars Tracing presidential decisions about the use of force from the Cold War through the wars in Iraq and Afghanistan Saunders reveals how the elite politics of war are a central feature of democracy The Insiders Game shifts the focus of democratic accountability from the voting booth to the halls of power *The Democratic Politics of Military Interventions* Wolfgang Wagner, 2020-07-09 According to a widely shared notion foreign affairs are exempted from democratic politics i.e party political divisions are overcome and should be overcome for the sake of a common national interest This book shows that this is not the case Examining votes in the US Congress and several European parliaments the book demonstrates that contestation over foreign affairs is barely different from contestation over domestic politics Analyses of a new collection of deployment votes of party manifestos and of expert survey data show that political parties differ systematically over foreign policy and military interventions in particular The left-right divide is the best guide to the pattern of party political contestation support is weakest at the far left of the spectrum and increases as one moves along the left-right axis to green

social democratic liberal and conservative parties amongst parties of the far right support is again weaker than amongst parties of the centre An analysis of parliamentary debates in Canada Germany and the United Kingdom about the interventions in Afghanistan and against Daesh in Iraq and Syria shows that political parties also differ systematically in how they frame the use of force abroad For example parties on the right tend to frame their country's participation in the US led missions in terms of national security and national interests whereas parties on the left tend to engage in spiral model thinking i.e. they critically reflect on the unintended consequences of the use of force in fuelling the conflicts with the Taliban and Daesh

The Origins of World War Two Robert Boyce, Joseph A. Maiolo, 2017-03-14 No issue in modern history has been more intensively studied or subject to wider interpretation than the origins of the Second World War A conflict involving three arguably four major aggressor Powers operating simultaneously but largely separately on two continents inevitably raises complex theories and debates Each participating power has its own history and each one must take account of various influences upon the behaviour of its soldiers and statesmen His wide ranging collection of original essays each by an international expert in their field covers all aspects of the subject and highlights the controversy that continues to characterise current thinking on the origins of the war Going beyond the usual Eurocentric approach Part I examines the roles of all seven of the Great Powers including Japan and the USA as well as the parts played by several of the lesser Powers such as Czechoslovakia Poland and China Part II contains chapters which explore key themes that cannot be fully understood within the context of any single country These themes include the role of ideology propaganda intelligence armaments economics diplomacy the neutral states peace movements and the social science approach to war Written in clear jargon free prose together these essays provide a comprehensive single volume text for students and teachers and are essential reading for all with an interest in the debates surrounding the causes of World War Two

The Power of Power Politics John A. Vasquez, 1998 In this new and much expanded edition of his classic study John Vasquez examines the power of the power politics perspective to dominate inquiry and evaluates its ability to provide accurate explanations of the fundamental forces underlying world politics

How Wars Are Won and Lost John A. Gentry, 2011-11-10 This provocative book seeks to answer a most crucial and embarrassing question concerning the U.S. military why the United States is so often stymied in military confrontations with seemingly weaker opponents despite its superpower status This fascinating book examines a question that continues to puzzle soldiers statesmen and scholars why do major powers including the ostensible superpower United States repeatedly perform poorly against seemingly overmatched adversaries And what can they and the United States do to better achieve their military objectives *How Wars are Won and Lost* Vulnerability and Military Power argues that beyond relying solely on overwhelming military might the United States needs to focus more on exploiting weaknesses in their adversaries such as national will resource mobilization and strategic miscues just as opposing forces have done to gain advantage over our military efforts The author tests the vulnerability theory by revisiting six conflicts from the Philippine

War of 1899 1902 to the ongoing actions in Iraq and Afghanistan showing again and again that victory often depends more on outthinking the enemy than outmuscling them

Explaining the History of American Foreign Relations Frank Costigliola, Michael J. Hogan, 2016-03-07 A longtime classic in its first and second editions *Explaining the History of American Foreign Relations* 3rd edition presents substantially revised and new essays on traditional themes such as national security corporatism borderlands history and international relations theory The book also highlights such innovative conceptual approaches and analytical methods as computational analysis symbolic borders modernization and technopolitics nationalism non state actors domestic politics exceptionalism legal history nation branding gender race political economy memory psychology emotions and the senses Each chapter is written by a highly respected scholar in the field many of whom have risen to prominence since the second edition's publication This collection is an indispensable volume for teachers and students in foreign relations history international relations history and political science The essays are written in accessible jargon free prose thus also making the book appropriate for general readers seeking an introduction to history and political science

Balancing Risks Jeffrey W. Taliaferro, 2004 Great powers often initiate risky military and diplomatic inventions in far off peripheral regions that pose no direct threat to them risking direct confrontation with rivals in strategically inconsequential places Why do powerful countries behave in a way that leads to entrapment in prolonged expensive and self defeating conflicts Jeffrey W Taliaferro suggests that such interventions are driven by the refusal of senior officials to accept losses in their state's relative power international status or prestige Instead of cutting their losses leaders often continue to invest blood and money in failed excursions into the periphery Their policies may seem to be driven by rational concerns about power and security but Taliaferro deems them to be at odds with the master explanation of political realism Taliaferro constructs a balance of risk theory of foreign policy that draws on defensive realism in international relations and prospect theory in psychology He illustrates the power of this new theory in several case narratives Germany's initiation and escalation of the 1905 and 1911 Moroccan crises the United States involvement in the Korean War in 1950 52 and Japan's entanglement in the second Sino Japanese war in 1937 40 and its decisions for war with the U S in 1940 41

The Politics of Space Security James Moltz, 2011-06-29 The past five decades have witnessed often fierce international rivalry in space but also surprising military restraint Now with an increasing number of countries capable of harming U S space assets experts and officials have renewed a long standing debate over the best route to space security Some argue that space defenses will be needed to protect critical military and civilian satellites Others argue that space should be a sanctuary from deployed weapons and military conflict particularly given the worsening threat posed by orbital space debris Moltz puts this debate into historical context by explaining the main trends in military space developments since Sputnik their underlying causes and the factors that are likely to influence their future course This new edition provides analysis of the Obama administration's space policy and the rise of new actors including China India and Iran His conclusion offers a unique perspective on the

mutual risks militaries face in space and the need for all countries to commit to interdependent environmentally focused space security

The Politics of Space Security James Clay Moltz, 2023-05-25 Updated third edition An excellent work This history may be the best space summary currently in publication Journal of Military and Strategic Studies For more than sixty years countries have conducted military and civilian activities in space often for competitive purposes But they have not yet fought in this environment This book examines the international politics of the space age from 1957 to the present the reasons why strategic restraint emerged among the major military powers and how recent trends toward weaponization may challenge prior norms of conflict avoidance James Clay Moltz analyzes the competing demands of national interests in space against the shared interests of all spacefarers in preserving the safe use of space in the face of emerging threats such as man made orbital debris This new edition offers analysis of the 2011 to 2018 period including the second term of President Obama and the beginning of the Trump administration Focusing on great power competition and cooperation as well as questions related to the sustainability of current and future national space policies The Politics of Space Security is an authoritative history of the space age Praise for previous editions Most of this well written study is blessedly free from jargon a particularly valuable contribution to the space security debate given both the wide range of the historical dimensions and the incisive quality of its analysis Issues in Science and Technology An impressive and timely contribution to security studies it is difficult to find fault with this thoughtful and comprehensive volume Review of Policy Research

The Manchurian Myth Rana Mitter, 2000-12-02 A powerful element in twentieth century Chinese politics has been the myth of Chinese resistance to Japan s seizure of Manchuria in 1931 Investigating the shifting alliances of key players in that event Rana Mitter traces the development of the narrative of resistance to the occupation and shows how it became part of China s political consciousness enduring even today After Japan s September 1931 military strike leading to a takeover of the Northeast the Chinese responded in three major ways collaboration resistance in exile and resistance on the ground What motives prompted some Chinese to collaborate others to resist What were conditions like under the Japanese Through careful reading of Chinese and Japanese sources particularly local government records newspapers and journals published both inside and outside occupied Manchuria Mitter sheds important new light on these questions

Regional Orders David A. Lake, Patrick M. Morgan, 2010-11 Conflict among nations for forty five years after World War II was dominated by the major bipolar struggle between the United States and the Soviet Union With the end of the Cold War states in differing legions of the world are taking their affairs more into their own hands and working out new arrangements for security that best suit their needs This trend toward new regional orders is the subject of this book which seeks both to document the emergence and strengthening of these new regional arrangements and to show how international relations theory needs to be modified to take adequate account of their salience in the world today Rather than treat international politics as everywhere the same or each region as unique this book adopts a comparative approach It recognizes that while regions vary widely in their characteristics

comparative analysis requires a common typology and set of causal variables. It presents theories of regional order that both generalize about regions and predict different patterns of conflict and cooperation from their individual traits. The editors conclude that in the new world of regional orders the quest for universal principles of foreign policy by great powers like the United States is chimerical and dangerous. Regional orders differ and policy artists accommodate these differences if it is to succeed. Contributors are Brian L. Job, Edmund J. Keller, Yuen Foong Khong, David A. Lake, Steven E. Lobell, David R. Mares, Patrick M. Nlotgan, Paul A. Papayoanou, David J. Pervin, Philip G. Roeder, Richard Rosecrance, and Peter Schott. Susan Shirk, Etel Solingen, and Arthur A. Stein. **Grand Strategy from Truman to Trump**. Benjamin Miller, Ziv Rubinovitz, 2020-11-10.

American foreign policy is the subject of extensive debate. Many look to domestic factors as the driving forces of bad policies. Benjamin Miller instead seeks to account for changes in US international strategy by developing a theory of grand strategy that captures the key security approaches available to US decision makers in times of war and peace. *Grand Strategy from Truman to Trump* makes a crucial contribution to our understanding of competing grand strategies that accounts for objectives and means of security policy. Miller puts forward a model that is widely applicable based on empirical evidence from post WWII to today and shows that external factors rather than internal concerns are the most determinative.

Immerse yourself in the artistry of words with Experience Art with its expressive creation, **Myths Of Empire Domestic Politics And International Ambition** . This ebook, presented in a PDF format (*), is a masterpiece that goes beyond conventional storytelling. Indulge your senses in prose, poetry, and knowledge. Myths Of Empire Domestic Politics And International Ambition Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Myths Of Empire Domestic Politics And International Ambition PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Myths Of Empire Domestic Politics And International Ambition PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual

property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Myths Of Empire Domestic Politics And International Ambition free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Myths Of Empire Domestic Politics And International Ambition Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Myths Of Empire Domestic Politics And International Ambition is one of the best book in our library for free trial. We provide copy of Myths Of Empire Domestic Politics And International Ambition in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Myths Of Empire Domestic Politics And International Ambition. Where to download Myths Of Empire Domestic Politics And International Ambition online for free? Are you looking for Myths Of Empire Domestic Politics And International Ambition PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Myths Of Empire Domestic Politics And International Ambition. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are

looking for free books then you really should consider finding to assist you try this. Several of Myths Of Empire Domestic Politics And International Ambition are for sale to free while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with Myths Of Empire Domestic Politics And International Ambition. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by having access to our ebook online or by storing it on your computer, you have convenient answers with Myths Of Empire Domestic Politics And International Ambition To get started finding Myths Of Empire Domestic Politics And International Ambition, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with Myths Of Empire Domestic Politics And International Ambition So depending on what exactly you are searching, you will be able to choose ebook to suit your own need. Thank you for reading Myths Of Empire Domestic Politics And International Ambition. Maybe you have knowledge that, people have search numerous times for their favorite readings like this Myths Of Empire Domestic Politics And International Ambition, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. Myths Of Empire Domestic Politics And International Ambition is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, Myths Of Empire Domestic Politics And International Ambition is universally compatible with any devices to read.
