Congressional Record United States. Congress, 1995 **Christian Social Action**, 2001 Human Rights in Global Politics Timothy Dunne, Nicholas J. Wheeler, 1999-03-28 There is a stark contradiction between the theory of universal human rights and the everyday practice of human wrongs This timely volume investigates whether human rights abuses are a result of the failure of governments to live up to a universal human rights standard or whether the search for moral universals is a fundamentally flawed enterprise which distracts us from the task of developing rights in the context of particular ethical communities In the first part of the book chapters by Ken Booth Jack Donnelly Chris Brown Bhikhu Parekh and Mary Midgley explore the philosophical basis of claims to universal human rights In the second part Richard Falk Mary Kaldor Martin Shaw Gil Loescher Georgina Ashworth and Andrew Hurrell reflect on the role of the media global civil society states migration non governmental organisations capitalism and schools and universities in developing a global human rights culture **Oil and National Identity in the Kurdistan Region of Iraq** Alessandro Tinti, 2021-11-29 Examining the interplay between the oil economy and identity politics using the Kurdistan Region of Iraq as a case study this book tells the untold story of how extractivism in the Kurdish autonomous region is interwoven in a mosaic of territorial disputes simmering ethnic tensions dynastic rule party allegiances crony patronage and divergent visions about nature Since the ousting of Saddam Hussein the de facto borders of the Kurdistan Region of Iraq have repeatedly changed with energy interests playing a major role in such processes of territorialisation However relatively little research exists on the topic This book provides a timely empirical analysis of the intersections between extractive industries oil imaginaries and identity formation in one of the most coveted energy frontiers worldwide It shines a light on relations between the global production networks of petro capitalism and extractive localities Besides the strained federal relationship with the Iraqi central government the transformative effects the petroleum industry has had on Kurdish society are also explored in depth Moreover the book fills a gap in the literature on Kurdish Studies which has devoted scant attention to energy related issues in the re imagination of Kurdish self determination This book will be of great interest to students and scholars of the extractive industries energy studies conflict studies Middle Eastern politics and political ecology A Podium on the Pavement Jaya Jaitly, 2004 Articles predominantly on the socio political conditions of India post 1977 Politics of the Modern Arab World Laleh Khalili, 2009 Covers the Arab world from Morocco to the borders of Iran with the focus primarily on the 20th Century By choosing a wide array of authors many of whom are from the region or from the non Anglophone world the full breadth of worldwide scholarship on the modern Arab world is on display *Iraq- Primus Inter Pariahs* G.
