Rainer Maria Rilke And Jugendstil Affinities Influences Adaptations:

Rainer Maria Rilke and Jugendstil Karl Eugene Webb, 2020-05-01 This study focuses on the striking relationship between one of the most important and enigmatic poets of the twentieth century and the art and artists of the Art Nouveau. The author explores the depth of the relationship itself, examines Rilke's activities as an art critic, and analyzes the profound influence of Art Nouveau upon the themes, motifs, and structure of the poet's early works. **Musical Ekphrasis in Rilke's Marien-Leben** Siglind Bruhn, 2000 In 1923 the twenty-seven-year-old Paul Hindemith published a composition for voice and piano entitled *Das Marienleben* based on Rainer Maria Rilke's poetic cycle of 1912. Twenty-five years later the composer presented a thoroughly revised, partially rewritten version. The outcome of this revision has been highly controversial. Ever since its first publication, musicologists have argued for or against the value of such a decisive rewriting. They do so both by comparing the two compositions on purely musical grounds and by attempting to assess whether the more strictly organized tonal layout and dynamic structuring of *Marienleben II* is more or less appropriate for the topic of a poetic cycle on the Life of Mary. This study is the first to analyze the messages conveyed in the two versions with an emphasis on their implicit aesthetic, philosophical, and spiritual significance. Acknowledging the compositions as examples of musical ekphrasis—a representation in one artistic medium of a message originally composed in another medium—the author argues in exhaustive detail that the young Hindemith of 1922–23 and the mature composer of 1941–48 can be seen as setting two somewhat different poetic cycles. This volume is of interest for musicologists and music lovers, scholars of German literature, and lovers of Rilke's poetry as well as for readers interested in the interartistic relationships of music and literature. **A Companion to the Works of Rainer Maria Rilke** Erika Alma Metzger, Michael M. Metzger, 2004 Illuminates the major aspects of the works of Germany's greatest 20th-century poet, Rainer Maria Rilke (1875–1926), the best-known German poet of his generation and widely appreciated today by readers in Europe, the United States, and worldwide. Because of the inventiveness and musicality of his poetic language and the visionary intuition of his thinking, Rilke's influence extends well beyond poetry to include religion, philosophy, the social sciences, and the arts. His works have been widely translated into English, and new renderings of such poem cycles as *The Duino Elegies* and *The Sonnets to Orpheus* appear frequently. Critics regard Rilke's *Notebooks of Malte Laurids Brigge* as a seminal modern novel. *The Companion to Rilke* provides essential up-to-date essays by top Rilke scholars on a wide range of the major aspects of Rilke's life and works. The volume follows the chronology of Rilke's career, emphasizing those works that have met with the greatest critical interest. Among the topics covered are Rilke's life and thought, the writings before 1902 (*Das Stunden-Buch* and *Das Buch der Bilder*), the *Neue Gedichte*, *The Cornet*, and other brief narratives. Malte Laurids Brigge, *The Duino Elegies*, *The Sonnets to Orpheus*, Rilke as a poet in French, Rilke and the visual arts. Erika and Michael Metzger, SUNY Buffalo, have written extensively on various aspects of German literature and have edited significant Baroque texts. **Selected Poems** Rainer Maria Rilke, 2011-04-14 Nowhere
