Regional Development Agencies And Business Change:

Regional Development Agencies and Business Change Gill Bentley, John Gibney, 2017-11-01 This title was first published in 2000 Providing an introduction to contemporary regional economic development issues this book analyzes whether the Regional Development Agencies ROAs have the organizational capacities to cope with complex business and economic development challenges Regional Development Agencies: The Next Generation? Nicola Bellini, Mike Danson, Henrik Halkier, 2012-09-10 Across Europe regional development agencies RDAs have become a central feature of regional policy both as innovative policy makers and as the implementers of programmes and initiatives originating from the national or European level By drawing on a combination of conceptual reflection surveys comparative research and systematic use of critical case studies this book provides a new point of reference by identifying key features of the current and indeed next generation of regionally based economic development organisations Regional Development Agencies and the Local Democracy, Economic Development and Construction Bill: Oral and written evidence Great Britain. Parliament. House of Commons. Business and Enterprise Committee, 2009 Regional Development Agencies and the Local Democracy Economic Development and Construction Bill Fourth Report of Session 2008 2009 *Regional Development Agencies in Europe* Charlotte Damborg, Mike Danson, Henrik Halkier, 2017-09-29 In the past decade Europe has seen much change and at the same time the importance of the regional perspectives has significantly increased Regional Development Agencies in Europe brings together experiences of Regional and Development Agencies throughout Europe to provide material for the first major comparative study of bottom up regional policy across the continent Using an analytical framework developed by editors the contributors evaluate the long term potential and limitations of the RDAs in terms of promoting regional and economic development Institutional and other preconditions for successful regional polices are identified and combined with a broad analytical and geographical coverage that includes Eastern Europe a clearer picture of the relevance of the RDAs emerges **Regional Development Agencies and the Local Democracy, Economic Development and Construction Bill: Report, together with formal minutes** Great Britain. Parliament. House of Commons. Business and Enterprise Committee, 2009 The Local Democracy Economic Development and Construction Bill proposes substantial changes to the way that economic development policies are delivered The four main proposals relating to economic development are merging the existing regional economic and spatial strategies into a single integrated regional strategy with local authorities and regional development agencies RDAs being jointly responsible for its drafting and agreement giving local authorities the duty to undertake an economic assessment of their areas devolving funding to local authorities to enable them rather than RDAs to deliver economic development policies and encouraging collaboration between local authorities in delivering these policies The Committee notes the strong support for a level of governance between central government and local authorities for the delivery of economic development policies and business support The Committee would have liked more evidence about the

effectiveness of RDAs and it is surprised the Government has proceeded with plans to restructure the way regional policy is made before the review of RDAs the Government has commissioned from PricewaterhouseCoopers is available The Committee expresses concern over some proposals contained in the Bill most importantly there needs to be a proper balance between RDAs business focus and the role of councillors in representing the views of their constituents The proposals in the Bill about the relationship between RDAs and local authorities place too much weight on the views of RDAs and business interests particularly during the drafting and agreement of the single integrated regional strategy The role of local authorities and of the communities they represent must be strengthened Many of the provisions of the Bill need clarifying

The New Governance of the English Regions M. Sandford,2005-11-22 English regions appeared to have been killed off by the massive no vote in the referendum in the North East on 4 November 2004 By contrast this book analyzes the many institutions and networks established at the English regional tier since 1997 It argues that a new form of governance is developing in the English regions characterized by processes rather than specific policy concerns strategic co ordination scrutiny and civic engagement

European Regional Development Fund Great Britain: Parliament: House of Commons: Communities and Local Government Committee,2012-07-13 The abolition of the Regional Development Agencies removed the main source of match funding for ERDF sponsored projects and the economic downturn has curbed alternative options for match funding even further There is a pressing need to spend each region s ERDF allocation before 2015 but unless ministers take urgent steps to deliver on the Government s promise to make it easier for projects to secure match funding through the Regional Growth Fund there is a significant risk that value for money will suffer and ERDF will not make the impact it could to help rebalance the UK s economy The Committee endorses a number of sensible rule changes that will govern the next ERDF round 2014 20 currently proposed and related proposals to give Member States the power to tailor the size of their Operational Programme areas which could permit Local Economic Partnerships in England to take responsibility for managing EU funds MPs also challenge the current allocation system where even the wealthiest Member States receive

some ERDF funding when a portion of what they pay in originally gets recycled back to them The cross party group of MPs calls for this circular money flow to end and for England to retain this portion of funding to deliver its own regional policy The Government would have to guarantee the same level of funding across the EU s 7 year funding cycle This change would not affect the Government s contribution to ERDF for the poorer Member States Lastly MPs challenge the Government to evaluate the value for money of ERDF funded projects

Reducing carbon emissions from UK business Great Britain: Parliament: House of Commons: Environmental Audit Committee,2008-03-10 The Climate Change Levy package is the second biggest element in the UK Climate Change Programme and savings appear to have been significant but were strongly front end loaded and have eased off since soon after its introduction The Levy will reduce annual UK CO2 emissions by 12.8 million tonnes by 2010 But these savings have come mainly from the effect its announcement had on raising awareness of the potential for energy savings and most of these savings were the result of actions taken before the tax actually came into operation The Levy itself has had relatively little effect on business emissions especially in the case of SMEs and large but non energy intensive organisations The Government believes that Climate Change Agreements CCAs will reduce annual CO2 emissions by an additional 7 million tonnes by 2010 Complying with CCAs has galvanised business interest in finding energy savings and that key to this has been the incentive of the tax discount they offer The exemptions on the Climate Change Levy for green electricity and combined heat and power have had minimal effect on the construction of new renewables and CHP capacity essentially because they are worth too little money The CCL package does not impose a damaging economic burden on UK business overall and is encouraging greater resource productivity and stimulating energy efficient industries The CCL has not worked quite as expected Instead of rationally seeking to reduce their costs through increased energy efficiency businesses appear to have needed an extra stimulus to change their approach to energy use This has profound implications for climate change policy more widely If even large companies require additional policies to drive behavioural change this must be all the more true for small businesses public bodies and private households

Regional Institutions and Governance in the European Union José Magone,2003-08-30 European integration has profoundly changed the relationship between national and subnational governments and has led to the emergence of the Europe of the Regions This edited volume highlights some of the problems involved in the integration of the three main levels of governance in the European Union the regional national and supranational level The contributors address recent developments in various regions and examine the way these regions

have adjusted to the growing importance of the European Union's multilevel governance system. Among the issues discussed are the emergence and institutionalization of new regional political systems such as those of Scotland, Wales, and Flanders; the channels available to the regions for influencing the EU policy process in relation to their constituencies; and horizontal projects of integration among regions which make the whole multilevel governance system more flexible as well as more complex.
