**The Appearance of Print in Eighteenth-Century Fiction** Christopher Flint, 2011-09-08 Eighteenth century fiction holds an unusual place in the history of modern print culture The novel gained prominence largely because of advances in publishing but as a popular genre it also helped shape those very developments Authors in the period manipulated the appearance of the page and print technology more deliberately than has been supposed prompting new forms of reception among readers Christopher Flint's book explores works by both obscure scribblers and canonical figures such as Swift Haywood Defoe Richardson Sterne and Austen that interrogated the complex interactions between the book's material aspects and its producers and consumers Flint links historical shifts in how authors addressed their profession to

how books were manufactured and how readers consumed texts He argues that writers exploited typographic media to augment other crucial developments in prose fiction from formal realism and free indirect discourse to accounts of how the novel defined itself as a genre     Reading the Scottish Enlightenment Mark Towsey,2010-09-24 It has become commonplace in recent decades for scholars to identify in the books of the Scottish Enlightenment the intellectual origins of the modern world but little attention has yet been paid to its impact on contemporary readers Drawing on a range of innovative methodologies associated with the burgeoning interdisciplinary field of the history of reading this book explores the reception of books by David Hume Adam Smith William Robertson and Thomas Reid amongst many others assessing their impact on the lives beliefs and habits of mind of readers across the social scale In the process the book offers a fascinating new perspective on the fundamental importance of personal reading experiences to the social history of the Enlightenment

**Encountering Ephemera 1500-1800** Joshua B. Fisher,Rebecca Steinberger,2014-07-24 This volume addresses two key questions 1 How can ephemera be understood as a critical category of literary and historical inquiry and 2 How can ephemera serve pedagogical purposes in the classroom Each of the essays in *Encountering Ephemera 1550 1800* Scholarship Performance Classroom addresses these questions by exploring a diverse range of materials as well as periods The essays collectively work to define ephemera as a complex and multi faceted critical category in terms of its literary cultural and historical significance Each contributor works to complicate the traditional binary opposition between the ephemeral transitory and the canonical enduring in part by recognizing how attending to the material processes of textual production

transmission and dissemination highlights the potential instability and mutability of texts and textual relationships whether discussing broadside ballads or coterie poetry By shifting the focus to the processes by which texts are constructed and construed the prospect of recognizing any text regardless of its canonical status as a static and fixed entity becomes difficult and in turn the ephemeral qualities that define and constitute the text's materiality come more sharply into focus Along these lines the ephemeral spaces across and between discourses what might be called the ephemera of cultural poetics play a key role in shaping literary texts Thus early modern and eighteenth century ephemera constitute both the material texts not intended to last or designed for limited cultural life and the process fleeting and transitory aspects of cultural production Whether discussing the circulation of cheap print the performative traces of music and gesture in Shakespeare's plays or the diffuse cultural influences that both surround and pervade literary texts attending to ephemeral matters underscores the dynamic unfixedness of early modern and eighteenth century cultural practices

*Sentimental Memorials* Melissa Sodeman, 2014-11-12 During the later eighteenth century changes in the meaning and status of literature left popular sentimental novels stranded on the margins of literary history While critics no longer dismiss or ignore these works recent reassessments have emphasized their interventions in various political and cultural debates rather than their literary significance *Sentimental Memorials* by contrast argues that sentimental novels gave the women who wrote them a means of clarifying protesting and finally memorializing the historical conditions under which they wrote As women writers successfully navigated the professional marketplace but struggled to position their works among more lasting literary monuments their novels reflect on what the elevation of literature would mean for women's literary reputations Drawing together the history of the novel women's literary history and book history Melissa Sodeman revisits the critical frameworks through which we have understood the history of literature Novels by Sophia Lee Ann Radcliffe Charlotte Smith and Mary Robinson she argues offer ways of rethinking some of the signal literary developments of this period from emerging notions of genius and originality to the rise of an English canon And in Sodeman's analysis novels long seen as insufficiently literary acquire formal and self-historicizing importance

portraiture and authorial self representation Further Guo approaches anew the concept of woman oriented perspective and argues that this perspective conceptualizes a narrative framework in which the heroine s are endowed with mobility to exercise their talent and power as social beings as men s equals Such a woman oriented perspective redefines normalized gender roles with an eye to exposing women s potentialities to transform historical and social customs in order to engender a world with better prospects for women This work will be a significant contribution to scholarship Chinese women s tanci novels in late imperial Qing and early twentieth century China are numerous in collections however their scholarly studies are still insufficient This book covers some understudied tanci texts and sheds new insights in the studied area It also brings in association study with other Chinese writing genres during the late Qing period as well as comparative perspective within the world culture when possible Qingyun Wu California State University Los Angeles

Home in British Working-Class Fiction Nicola Wilson, 2016-03-09 Home in British Working Class Fiction offers a fresh take on British working class writing that turns away from a masculinist work based understanding of class in favour of home, gender, domestic labour and the family kitchen As Nicola Wilson shows the history of the British working classes has often been written from the outside with observers looking into the world of the inhabitants Here Wilson engages with the long cultural history of this gaze and asks how home is represented in the writing of authors who come from a working class

background Her book explores the depiction of home as a key emotional and material site in working class writing from the Edwardian period through to the early 1990s Wilson presents new readings of classic texts including *The Ragged Trousered Philanthropists* *Love on the Dole* and *Saturday Night and Sunday Morning* analyzing them alongside works by authors including James Hanley Walter Brierley Lewis Grassie Gibbon Buchi Emecheta Pat Barker James Kelman and the rediscovered ex mill girl novelist Ethel Carnie Holdsworth Wilson's broad understanding of working class writing allows her to incorporate figures typically ignored in this context as she demonstrates the importance of home's role in the making and expression of class feeling and identity
