Regulatory Reforms In Italy A Case Study In Europeanisation:

Regulatory Reforms in Italy Dieter Kerwer, 2018-01-18 This title was first published in 2001 The question this thesis attempts to answer is summarized as follows what accounts for the amazing stability of Italian transport policy in the face of European challenges given the fact that as most national and European policy makers readily believe it is not capable of addressing the problem of the sector This study analyzes the transport policy in Italy from the 1990s into the 21st century It looks at how the two sub sectors of surface transport road haulage and railways have been managed by the public and private actors involved In both sectors the policy appears to have failed either by not offering a remedy to problems or by aggravating them further The author believes that studying transport policy in Italy will shed light on the wider question of how national policy making patterns are influenced by developments in the international environment in this case looking closely at the influence of the European Union

The Politics of Europeanization Kevin Featherstone, Claudio M. Radaelli, 2003-06-05 The Politics of Europeanization looks at the political aspects of European integration from the point of view of domestic politics In doing so it goes beyond the classic analysis of how policies are made in Brussels and raises instead the question what is the power of Europe in national contexts The questions at the heart of this volume are crucial both for our understanding of European integration and for their policy implications What does Europeanization really mean How can it be measured How is the European Union affecting domestic politics and policies in member states and candidate countries Is Europeanization an irreversible process Does it mean convergence across Europe How and why do differences remain The contributors explain and question the power of Europe by providing theoretical and empirical perspectives on domestic politics and institutions government and administration public policies political actors and business groups The volume contains a new research agenda for the nascent literature on Europeanization

The Europeanization of Central and Eastern Europe Frank Schimmelfennig, Ulrich Sedelmeier, 2005 This book demonstrates the importance of the credibility and the costs of accession conditionality for the adoption of EU rules in Central and Eastern Europe

Labour Market Deregulation in Japan and Italy Hiroaki Richard Watanabe, 2014-11-13 Japan and Italy encountered severe economic problems in the early 1990s and the governments had to deal with those issues effectively under the increasing neoliberal pressures of globalisation In this context labour market deregulation was considered an effective tool to cope with those economic problems However the forms and degrees of labour market deregulation in the two countries were quite different This book seeks to explain the differences in labour market deregulation policies between Japan and Italy despite the fact that the two countries shared a number of similar political social and labour market if not cultural characteristics Uniquely it takes a political rather than economic or sociological perspective to provide a theoretical and empirical analysis of the processes of labour market deregulation in the two countries The precarious working conditions of an increasing number of non regular workers has become a prominent social issue in many industrialised countries including Japan and

Italy but the level of the protection for these workers depends on a country's labour market policies which are affected by the power resources of labour unions and labour policy making structures This book provides a useful perspective for understanding the root causes of this phenomenon such as the diffusion of neoliberal ideas aimed at promoting labour market flexibility under globalisation and demonstrates that there is still room for politics to decide the extent of deregulation and maintain worker protection from management offensives even in an era of globalisation Labour Market Deregulation in Japan and Italy Worker Protection under Neoliberal Globalisation will appeal to students and scholars of Japanese politics Italian politics political economy and comparative politics **Europeanization and Domestic Policy**

Change Paolo Graziano, 2013 This book examines the impact of Europeanization on the domestic politics of EU member states focussing on agricultural policy cohesion policy and employment policy with a detailed comparative case study on Italy Though a founding member Italy has often had an uneasy relationship with the EU and found it difficult to be influential in EU politics and to comply effectively with EU policies and institutional pressures The main focus of this book is the analysis of Italy EU relationship from a policy based perspective adopting the conceptual lenses developed by Europeanization research By looking at the evolution of agricultural regional cohesion and employment policy the book shows how the politics of adaptation have brought Italy closer to Europe in the past twenty years and further highlights the impact of the EU Italy relationship on domestic institutions and politics The author explains that even though Italy has increasingly learned to respect EU membership requirements its influence over agenda setting within the EU remains limited Europeanization and Domestic Policy Change will be of interest to students and scholars of European Politics Europeanization comparative politics and Italian politics *The Will of Change* Eva-Maria Maggi, 2015-10-13 In this book Eva Maria Maggi argues that the

European Union EU had an impact on institutional reform processes in North Africa in cases where major domestic actors agreed She analyzes how political actors in Morocco used EU neighborhood policies to shape economic and environmental policy between 1995 and 2008 Maggi argues that it was not the design of the EU's neighborhood policies but rather the will of change of domestic actors in Morocco that determined the pace direction of reform and the extent to which the EU continues to play a role in them While Moroccan politics were indeed europeanized Maggi highlights the role of domestic actors who so effectively managed to put forth their own policy priorities and essentially moroccanized the ENP Theorien der europäischen Integration Hans-Jürgen Bieling, Marika Lerch, 2012-09-28 Ziel des Bandes ist es eine umfassende Einführung und berblicksdarstellung der theoretischen Ansätze in der europäischen Integrationsforschung zu bieten mit der Studierende an die Thematik herangeführt werden können Die unübersichtliche Theorielandschaft wird didaktischen Prinzipien folgend so präsentiert dass die wichtigsten Theoriestränge erkennbar und die Leser und Leserinnen befähigt werden sich kritisch mit den verschiedenen Perspektiven sowohl in der wissenschaftlichen Arbeit als auch in der politischen Debatte auseinander zu setzen **Staatsentwicklung und Policyforschung** Everhard Holtmann, 2013-07-02 Die im Band

versammelten Beiträge spiegeln den aktuellen Kenntnis und Forschungsstand der in der Policyforschung behandelten Fragen nach der Bedeutung des Wandels von Staatlichkeit und Staatstätigkeit wider

Governing Interests Wolfgang Streeck, Jürgen Grote, Volker Schneider, Jelle Visser, 2006-06-07 In the current period of globalization *Governing Interests* presents new research on the impact of internationalization on the organization and representation of business interests through trade and employer associations By exploring ongoing gradual but nevertheless profound changes in the structures and functions of business interest associations the book develops a precise understanding of the relationship between the national and the international Both conceptual and empirical some papers included in this significant volume adopt a bird's eye view of the topic whilst others concentrate on individual industries or countries and several through examination and analysis consider the effects on interest representation and the repercussions on effective governance Contributed to and edited by leading academics the diversity of research questions and methods used in this volume provide the reader with an excellent understanding of the subject and importantly caution against rash simplifications Comprehensive and scholarly this text will be of particular relevance to political scientists and sociologists

Europeanisation, Good Governance and Corruption in the Public Sector Digdem Soyaltin, 2017-07-06 When and to what extent external actors especially the EU contribute to induce legal and administrative changes and help domestic authorities address the disconnect between good governance standards and corrupt practices Comparing external promotion of anti corruption norms and provisions in civil administration public finance management and public procurement in Turkey this book identifies the domestic conditions under which external actors can affect real world outcomes Providing a comprehensive empirical account of Turkey s fight against corruption the book s cross sectoral analysis explores the power relations between major political actors and bureaucratic state elites and examines how structural administrative factors filter external pressure for anti corruption reforms and determine the prospects for institutional change in the Turkish public sector This welcome addition to literature on Europeanisation and external good governance promotion makes an important contribution to the academic and policy debate regarding the politics of anti corruption reforms in Turkey

Italy - A Contested Polity Martin Bull, Martin Rhodes, 2013-10-31 Despite the promise of the new Second Republic launched in the early 1990s Italy remains Europe s least well governed country Fifteen years ago politicians on the take and mafiosi on the make were supposedly pushed aside by a new generation of reformers and crusading magistrates However in this new book a team of leading experts on Italy uncovers little real progress Badly needed reforms have foundered on bickering between the parties and their ego centric leaders Both left and right wing coalitions have been guilty of impeding the anti corruption revolution Little has been done to improve the quality of public expenditure infrastructure and education systems remain shambolic and decades of periodic devaluation and deficit spending have left the economy structurally weakened Italy s politicians are not just masters of trasformismo an ability to reinvent and present themselves anew to voters but of stratificazione or layering the introduction of new policies and institutions without replacing those that preceded them The result is a damaging mix of obsolete and contradictory legislation the product of bargaining over reform by chronically weak governments in a veto ridden polity The outcome immobilismo is a system in which all parties and democratic government itself are steadily losing legitimacy This book was published as a special issue of *West European Politics*

order to promote full understanding of the challenges the country is facing and the ways it could best tackle them Despite the misconception that Italy is a water scarce country is in fact quite rich in water resources Such resources however are unevenly distributed over the Italian territory Italy s northern regions rely on quite an abundant quantity of freshwater whereas in the southern area water endowment is limited Moreover climatic differences between North and South contribute to widen the divide This disparity has notable consequences of socio economic character some of which in turn feed back into the environmental conditions of Italian regions pollution floods landslides and droughts are among the problems affecting the country There are numerous features of water use and consumption that distinguish Italy from other comparable countries such as the significant role played by agriculture a water intensive activity a lead position in the consumption of bottled water lower than average prices of water and a far from optimal efficiency of waterworks All such aspects and many others make Italy an essential case study
