necessity of incorporating contestation appropriation repression and the return of the repressed subject into any account of the past that will be meaningful to the present Duara demonstrates how to write histories that resist being pressed into the service of the national subject in its progress or stalled progress toward modernity *New Critical Theory* William S. Wilkerson, Jeffrey Paris, 2001-11-19 *New Critical Theory* surveys contemporary leftist thought while introducing the tenets of this new form of critical theory Beginning with an exploration of the relationship between Marxism Habermas and the politics of identity William S Wilkerson and Jeffrey R Paris present a collection that critiques the globalization of capital The development of personality appears as subject to socialized standards in an age of global capitalism Only after scrutinizing the effects of such a system can liberation be found The essays within join Critical Theory with postmodern insights on language and subjectivity to provide a more comprehensive view of emancipatory social theory Through this and other reflections on critical race gender and queer theories Wilkerson and Paris emerge with an encompassing volume defining *New Critical Theory* **Toward a New Socialism** Anatole Anton, Richard Schmitt, 2007-01-01 *Toward a New Socialism* offers a critical analysis of capitalism's failings and the imminent need for socialism as an alternative form of government This book demonstrates that capitalism is destructive and limiting to the many ongoing campaigns to increase freedom equality and security Dr Richard Schmitt joins with Dr Anatole Anton to compile a volume of essays exploring the benefits and consequences of a socialist system as an avenue of increased human solidarity and ethical principle The essays offer a new definition of socialism by investigating the theories and principles of socialism its influence on social institutions and its role in work dynamics Raising important and unavoidable questions for contemporary society *Toward a New Socialism* is a vital resource for scholars of political theory and the globalization movement as well as a necessary read for every citizen under capitalism *Contemporary Political Agency* Bice Maiguashca, Raffaele Marchetti, 2013-08-21 This book explores and critically reflects on the theory and practice of political agency in contemporary global politics In light of the changing relationship between the state the market and the society it seeks to map both theoretically and empirically contemporary forms of global political agency This book reflects on the theory and practice of political agency in contemporary global politics More specifically it empirically analyses a range of different forms of political agency and explores their significance for understanding and enacting global politics Reflecting the efforts of scholars from a variety of disciplines from political theory and Sociology to Geography and International Relations it brings into conversation a wide spectrum of theoretical approaches including Marxism feminism post structuralism and historical institutionalism The contributors compare a range of forms of political agency exploring their significance for the theory and practice of global politics and reflect on the tensions and synergies generated by recent efforts to conceptualise them Demonstrating an innovative and interdisciplinary approach *Contemporary Political Agency* will be of interest to students and scholars of international relations sociology political economy and political theory *Globalization and Postmodern Politics* Roger Burbach, 2001-01-20 The book shows

how wealth and power are concentrated in the hands of a transnational elite while ever increasing numbers of people are being marginalised Institutions such as the World Trade Organisation and the International Monetary Fund are intent upon exercising a new hegemony over individuals as the role of the traditional nation state is transformed At the centre of this power shift is a group of high tech robber barons who dominate the Information Age and exploit the technologies of globalisation for their own narrow interests Roger Burbach explores the rise of the new grass roots oppositional movements around the world Manifest in such diverse struggles as the uprising of the Zapatistas in Mexico and the battle of Seattle against the World Trade Organisation this new postmodern politics is de centred and has little interest in the old ideologies that dominated much of the twentieth century The final section of the book contextualises postmodern politics by drawing on contemporary examples The authors discuss the demise of socialist and protosocialist experiments in Chile Grenada Nicaragua and Cuba and the emergence of postmodern movements in Latin America The final two chapters take a specific look at the Zapatista movement and its significance for revolutionary struggles around the world
