Reinventing The Feature Story Mythic Cycles In American Literary Journalism:

Reinventing the Feature Story Stephanie Shapiro, 2005 Although literary journalism is now widely accepted as an integral part of all American prose literature there has been scant examination of its underlying themes which have remained constant even as the literature itself has evolved By looking at literary journalism as narrative the artifact of myth its cultural power and history are revealed As a vehicle of myth literary journalism's growth corresponds to the progression of myth through its primary romantic and consummatory stages Each stage of literary journalism is a tool for converting readers through sensational example to the moral values and social obligations of a particular myth stage Each stage of myth creates the need for the subsequent stage in a continual literary cycle *Emotions and Virtues in Feature Writing* Jennifer Martin, 2021-03-22 This book provides an important and original way of understanding how journalists use emotion to communicate to readers posing the deceptively simple question how do journalists make us feel something when we read their work Martin uses case studies of award winning magazine style features to illuminate how some of the best writers of literary journalism give readers the gift of experiencing a range of perspectives and emotions in the telling of a single story Part One of this book discusses the origins and development of narrative journalism and introduces a new theoretical framework the Virtue Paradigm and a new textual analysis tool the Virtue Map Part Two includes three case studies of prize winning journalism demonstrating how the Virtue Paradigm and the Virtue Map provide fresh insight into narrative journalism and the ongoing conversation of what it means to live well together in community *The A to Z of Journalism* Ross Eaman, 2009-10-12 Journalism is the discipline of gathering writing and reporting news and it includes the process of editing and presenting news articles Journalism applies to various media including but not limited to newspapers magazines radio television and the internet The word journalist started to become common in the early 18th century to designate a new kind of writer about a century before journalism made its appearance to describe what those writers produced Though varying in form from one age and society to another it gradually distinguished itself from other forms of writing through its focus on the present its eye witness perspective and its reliance on everyday language The A to Z of Journalism relates how journalism has evolved over the centuries This is done through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on the different styles of journalism the different types of media and important writers and editors **Historical Dictionary of Journalism** Ross Eaman, 2009-03-02 Journalism is the discipline of gathering writing and reporting news and it includes the process of editing and presenting news articles Journalism applies to various media including but not limited to newspapers magazines radio television and the internet The word journalist started to become common in the early 18th century to designate a new kind of writer about a century before journalism made its appearance to describe what those writers produced Though varying in form from one age and society to another it gradually distinguished itself from other forms of writing through its focus on the present its eye witness

Model Immigrants and Undesirable Aliens Christina Gerken,2013-10-01 During 1995 and 1996 President Bill Clinton signed into law three bills that altered the rights and responsibilities of immigrants the Antiterrorism and Effective Death Penalty Act the Personal Responsibility Act and the Illegal Immigration Reform and Immigrant Responsibility Act *Model Immigrants and Undesirable Aliens* examines the changing debates around immigration that preceded and followed the passage of landmark legislation by the U S Congress in the mid 1990s arguing that it represented a new neoliberal way of thinking and talking about immigration Christina Gerken explores the content and the social implications of the deliberations that surrounded the development and passage of immigration reform analyzing a wide array of writings from congressional debates and committee reports to articles and human interest stories in mainstream newspapers The process she shows disguised its underlying racism by creating discursive strategies that shaped and upheld an image of desirable immigrants those who could demonstrate personal responsibility and an ability to contribute to the U S economy Gerken finds that politicians linked immigration to complex issues poverty welfare reform so called family values measures designed to combat terrorism and the spiraling costs of social welfare programs Although immigrants were often at the center of congressional debates politicians constructed an elaborate abstract terminology that appeared to be unrelated to race or gender Instead politicians promoted neoliberal policies as the avenue to a postracist postsexist world of opportunity for every rational consumer with an entrepreneurial spirit Still Gerken concludes that the passage of pathbreaking legislation was characterized by a useful tension between neoliberal assumptions and hidden anxieties about race class gender and sexuality
