**Politics of Ethnic Classification in Vietnam** Masako Itō, 2013 Officially the Socialist Republic of Vietnam has a total of 54 ethnic groups including the majority Kinh and 53 ethnic minority groups This book examines the history of the ethnic group determination process highlighting some of the challenges the official policies pose to both the state and the affected peoples Vietnam has proudly embraced its multiethnic identity seeking the equality of all ethnic groups in the

interests of national unity Yet among other things it appears that the total number of ethnic categories was rather arbitrarily determined initially and then fiercely defended by influential politicians and academics Furthermore the extensive field surveys reveal that ethnic policies are frequently manipulated at the regional and local levels in pursuit of economic interests and not infrequently to the detriment of those they were intended to benefit Series Kyoto Area Studies on Asia Vol 23 Professor Ito has succeeded admirably in juxtaposing her study of official documents interviews with officials and academics and the results of her own excellent first hand field work to demonstrate why ethnic classification in Vietnam has been far more a political than a scientific project Her book deserves to be read not only by those interested in Vietnam but also by others interested in the politics of ethnicity more generally Pacific Affairs Vol 87 No 4 December 2014 **Learn to speak and write Vietnamese in 30 days** YouGuide Ltd, *Proceedings of the Third International Conference on Advances in Computing Research (ACR'25)* Kevin Daimi, Abeer Al Sadoon, 2025-05-17 This book concentrates on advances in research in the areas of computational intelligence cybersecurity engineering data analytics engineering network and communications cloud and mobile computing software engineering and robotics and automation The Third International Conference on Advances in Computing Research ACR 25 July 7 9 2025 Nice France brings together a diverse group of researchers from all over the world with the intent of fostering collaboration and dissemination of the advances in computing technologies The conference is aptly segmented into six tracks to promote a birds of the same feather congregation and maximize participation It introduces the concepts techniques methods approaches and trends needed by researchers graduate students specialists and educators for keeping current and enhancing their research and knowledge in these areas Technical Educational Facilities in North Vietnam United States.
