Simut, 2010-09-27 This book is concerned with the presentation and analysis of certain dogmatic issues such as christology ecclesiology pastoral work anthropology faith and bioethics among many others all meant to illustrate how Christian thought stands between traditionalism and radicalism It is both a dogmatic study and a historical overview of the topic

Hair, Headwear, and Orthodox Jewish Women Amy K. Milligan, 2014-09-24 *Hair Headwear and Orthodox Jewish Women* comments on hair covering based on an ethnographic study of the lives of Orthodox Jewish women in a small non metropolitan synagogue It brings the often overlooked stories of these women to the forefront and probes questions as to how their location in a small

community affects their behavioral choices particularly regarding the folk practice of hair covering A kallah or bride makes the decision as to whether or not she will cover her hair after marriage In doing so she externally announces her religious affiliation in particular her commitment to maintaining an Orthodox Jewish home Hair covering practices are also unique to women s traditions and point out the importance of examining the women especially because their cultural roles may be marginalized in studies as a result of their lack of a central role in worship This study questions their contribution to Orthodoxy as well as their concept of Jewish identity and the ways in which they negotiate this identity with ritualized and traditional behavior ultimately bringing into question the meaning of tradition in a modern world

of evidence based practice research presented by the leading experts in the field As such it is essential reading for mental health professionals who work with these groups as well as trainees in social work counseling and clinical psychology

Beyond the Systems Paradigm Luciano L'Abate, 2013-05-30 This monograph owes its origins to the decades old proposal by David Bakan 1968 about the duality of human experience He proposed that community and agency would be two necessary and sufficient constructs to classify and to encompass most human relationships This dichotomy has been found to be valid by a variety of contributions over the last half a century L Abate 2009 L Abate Cusinato Maino Colesso Scilletta 2010 Additionally the purpose of this book is to argue and assert that two important fields of psychology family and personality psychologies if not already dead are conceptually empirically and practically moribund They are being superseded respectively by perhaps more appropriate perhaps more specific and more likely verifiable concepts and constructs such as intimacy and identity The traditional family still conceived as composed by two parents and two children of different gender is responsible for only one fourth of all domiciles in USA Singles same sex couples and completely different family organization complete the remaining 100% Difficulties in defining what is personality require a change in perspective and advance toward a comprehensive theory of human relationships that can and should fulfill requirements necessary to achieve an undoubtedly grandiose and ambitious universal status *Organisations and Management in Social Work* Mark

Hughes, Michael Wearing, 2016-10-29 Providing a comprehensive and critical examination of the complex issues involved in the management and organisational contexts of social work practice this book will help readers to Critically evaluate organisational theory managerial techniques and organisational structures Develop strategies for ethical and reflective organisational practice Understand how to plan and manage change in learning organisations Unpick important themes such as leadership supervision risk decision making and accountability Explore the potential for increasing service user and worker participation in organisations **The Oxford Handbook of Relationship Science and Couple Interventions**

Kieran Terese Sullivan, Erika Lawrence, 2016 The Oxford Handbook of Relationship Science and Couple Interventions showcases cutting edge research in relationship science including couple functioning relationship education and couple therapy Beyond Common Sense Fred Wulczyn, Richard P. Barth, Ying-Ying T. Yuan, Brenda Jones Harden, John

Landsverk, 2017-07-28 Helping vulnerable children develop their full potential is an attractive idea with broad common sense appeal However child well being is a broad concept and the legislative mandate for addressing well being in the context of the current child welfare system is not particularly clear This volume asserts that finding a place for well being on the list of outcomes established to manage the child welfare system is not as easy as it first appears The overall thrust of this argument is that policy should be evidence based and the available evidence is a primary focus of the book Because policymakers have to make decisions that allocate resources a basic understanding of incidence in the public health tradition is important as is evidence that speaks to the question of what works clinically The rest of the book addresses the evidence Chapter 2

integrates bio ecological and public health perspectives to give the evidence base coherence Chapters 3 and 4 combine evidence from the National Child Abuse and Neglect Data System the Multistate Foster Care Data Archive and the National Survey of Child and Adolescent Well Being to offer an unprecedented profile of children as they enter the child welfare system Chapters 5 and 6 address the broad question of what works A concluding chapter focuses on policy and future directions suggesting that children starting out children starting school and children starting adolescence are high risk populations for which explicit strategies have to be formed This timely volume offers useful insights into the child welfare system and will be of particular interest to policymakers academics with an interest in Child Welfare Policy Social Work educators and Child Advocates
