What If? Christy Clarke,2008-03 In What If Contemplations of an Undergrad author Christy Clarke has compiled several of her most passionate beliefs and contemplations Beginning with a bit of insight into the author s personality and reasons for writing this book Clarke then delves into the debate between science and religion and offers an explanation of her own personal ontology However the primary focus of this book is on animal rights consciousness and experimentation Arguments are made to provoke contemplation of what different areas of research have suggested about these controversial issues in hopes of arousing greater popular interest in them Among the controversial topics it explores are connecting animal cruelty to human slavery a consideration and response to the debate between science and religion and an investigation of what alternative health therapies contribute to the debate over nonhuman animal consciousness Significant research and thought has gone into each of the pages in this book and its enthusiastic arguments are sure to provoke reader contemplation whether one agrees or disagrees with the author s additional arguments and decision to acknowledge and embrace personal biases rather than try to work outside of them *Religion* Margaret Craddock Huff,Ann Kirkus Wetherilt,2004-09-01 An Introduction to Religious and Theological Studies, Second Edition Cyril Orji,2021-01-07 An Introduction to Religious and Theological Studies walks students through topical issues to be encountered in the study of the Abrahamic religions Judaism Christianity and Islam as these religions encounter other religions in the context of the wider ecumenism The text is written from a Christian point of view and aims at helping students understand that to be Christian is to be ecumenical African Traditional Religions ATRs has been included in this survey to provide background for the religious traditions and cultures of peoples of Africa as Christianity moves inexorably southward The book has been written with undergraduate general education students in mind including meeting the needs of those in seminaries and theological institutes Religion and Atheism in Dialogue Anthony Carroll,Richard Norman,2025-06-23 The divide in our societies between those who are religious and those who are not is becoming increasingly apparent in many areas of contemporary life This fascinating book based on conversations between religious and nonreligious participants asks if societies divided on such fundamental questions can nonetheless find some common ground A rich array of topics is explored including the linguistic complexities of using the concept of God the relation between science and religion the ethics of altruistic concern sexuality and gender roles and the possibility of shedding light on important positions often taken to be intractable or nonnegotiable In addition topics of a more reflective nature but also prone to polarise are also examined such as spiritual experience and practice mindfulness the arts and the nature of human consciousness Religion and Atheism in Dialogue will interest anyone who is concerned about the current tensions and even conflicts exhibited between religious and secular positions on a range of key issues and how it might be possible to move beyond them It will also be of interest to students of ethics philosophy of religion and religious studies and all those who are concerned to explore how better dialogue across differences might be possible Going

List of members in v 1 Problems of Religious Luck Guy Axtell, 2020-07-07 To speak of being religious lucky certainly sounds odd But then so does My faith holds value in God s plan while yours does not This book argues that these two concerns with the concept of religious luck and with asymmetric or sharply differential ascriptions of religious value are inextricably connected It argues that religious luck attributions can profitably be studied from a number of directions not just theological but also social scientific and philosophical There is a strong tendency among adherents of different faith traditions to invoke asymmetric explanations of the religious value or salvific status of the home religion vis vis all others Attributions of good bad religious luck and exclusivist dismissal of the significance of religious disagreement are the central phenomena that the book studies Part I lays out a taxonomy of kinds of religious luck a taxonomy that draws upon but extends work on moral and epistemic luck It asks What is going on when persons theologies or purported revelations ascribe various kinds of religiously relevant traits to insiders and outsiders of a faith tradition in sharply asymmetric fashion I am saved but you are lost My religion is holy but yours is idolatrous My faith tradition is true and valued by God but yours is false and valueless Part II further develops the theory introduced in Part I pushing forward both the descriptive explanatory and normative sides of what the author terms his inductive risk account Firstly the concept of inductive risk is shown to contribute to the needed field of comparative fundamentalism by suggesting new psychological markers of fundamentalist orientation The second side of what is termed an inductive risk account is concerned with the epistemology of religious belief but more especially with an account of the limits of reasonable religious disagreement Problems of inductively risky modes of belief formation problematize claims to religion specific knowledge But the inductive risk account does not aim to set religion apart or to challenge the reasonableness of religious belief tout court Rather the burden of the argument is to challenge the reasonableness of attitudes of religious exclusivism and to demotivate the polemical apologetics that exclusivists practice and hope to normalize **AFER.** ,2007 **Atheism and Agnosticism** Peter A. Huff, 2021-09-01 An overview essay and approximately 50 alphabetically arranged reference entries explore the background and significance of atheism and agnosticism in modern society This is the age of atheism and agnosticism The number of people living without religious belief and practice is quickly and dramatically rising Some experts call nonreligion after Christianity and Islam the third largest religion in the world today Understanding the origins history variations and impact of atheism and agnosticism is crucial to getting a grasp of the meaning of the present and gaining a glimpse of the future Exploring some of the most extraordinary people events and ideas of all time this book provides a fair comprehensive and engaging survey of all aspects of contemporary atheism and agnosticism An overview essay discusses the background and social and political contexts of unbelief while a timeline highlights key events Some 50 alphabetically arranged reference entries follow with each providing

fundamental objective information about particular topics along with cross references and suggestions for further reading The volume closes with an annotated bibliography of the most important resources on atheism and agnosticism

A Book of the Beginnings Gerald Massey,1881 *The Faith Between Us* Scott Korb,Peter Bebergal,2008-12-06 Scott Korb and Peter Bebergal two young progressives share a secret They believe in God One is a former wannabe Catholic priest the other a failed Jewish mystic and they formed a friendship that s shaped by their common belief In *The Faith Between Us* they engage in a dialogue that ranges widely from the mundane to the divine They discuss finding religious meaning in their secular worlds the moral implications of decisions both personal and political their different religious cultures and how their lives have been shaped by the pursuit of an authentic livable faith Both a spiritual memoir and an examination of contemporary religion as it s played out in unconventional ways *The Faith Between Us* offers an alternative vision of faith in America one that is equally irreverent and devout ironic and earnest For everyone interested in a modern take on keeping faith and in reclaiming religion from the fundamentalists and literalists who have co opted it for the right and those on the left who dismiss its redemptive power *The Faith Between Us* will be an engaging and thought provoking read

Reading from the Underside of Selfhood Lisa E. Dahill,2009-01-01 Dietrich Bonhoeffer s example of self sacrificing discipleship has for over fifty years inspired Christians around the world in both their resistance to evil and their devotion to Jesus Christ Yet for some readers particularly those who suffer trauma abuse and other forms of violence Bonhoeffer s insistence on self sacrifice on becoming a person for others may prove more harmful than liberating For those already socialized into self abnegation uncritical applications of Bonhoeffer s teachings may reinforce submission rather than resistance to evil This study explores Bonhoeffer s understandings of selfhood and spiritual formation both in his own experience and writings and in light of the role of gender in psycho spiritual development The central constructive chapter creates a mediated conversation between Bonhoeffer and these feminist psychologists on the spiritual formation of survivors of trauma and abuse including not only dimensions of his thinking to be critiqued from this perspective but also important resources he contributes toward a truly liberating Christian spirituality for those on the underside of selfhood The book concludes with suggestions regarding the broader relevance of this study and implications for ministry The insights for spiritual formation developed here provide powerful proof of Bonhoeffer s continuing and concretely contextualized relevance for readers across the full spectrum of human selfhood

Existential Togetherness DeWayne R. Stallworth,2019-08-13 The notion of community entails more than just shared space in the here and now moment For African Americans especially communal engagement is a sacred experience that stretches from the mundane to the spectacular in a cyclical historical pattern DeWayne R Stallworth illumines the broadness of this African American religious experience by looking back to the first shared experience of unbiased community that occurred during slavery He then explores the difficulties of maintaining such a unity under the threat of supremacy as experienced through systemic structures of both white and black privilege Most

important Stallworth unpacks how the black religious leader although caricatured as uncouth and ignorant remained the moral compass for community progression and uplift until the civil rights era This provocative book is essential reading for anyone with a desire to obtain a broader and deeper understanding of what it means to be black religious and American in the twenty first century United States Journey to Your Heart Richard Harrison Cutrer,2022-03-11 This book of biblical meditations will help former addicts rediscover the Christian church and all it provides As you read you ll discover how the Bible can help you accept your past and find a better future Learn how to develop an enhanced awareness of what it means to be a Christian recognize and avoid false solutions to problems absorb Scriptures more meaningfully through a maturing faith Shaking that nagging feeling that you don t belong can seem like an insurmountable hurdle for those wanting to find their way back to the church or join it for the first time But it does not have to be that way One of the keys to moving forward is to embrace the fact that Jesus Christ extends His mercy to all the Christian church provides Filled with insights from the author s forty six years of continuous sobriety let this book serve as your companion on a journey that leads to God What are They Saying about Fundamentalisms? Peter A. Huff,2008 This is the age of fundamentalism An axis of sacred rebellion cuts through modern experience challenging all who would accommodate religion to secular culture and a dictatorship of relativism Sometimes violent always militant fundamentalists have profoundly transformed the religious landscape of modern society This book offers a critical and empathetic survey of the world s major fundamentalist movements and the innovative scholars who study them Peter Huff an advocate for interfaith dialogue with fundamentalists covers the full range of the cross cultural fundamentalist phenomenon from the American Protestant prototype to muscular protest movements transfiguring every religion around the globe Examining the pioneers of interdisciplinary fundamentalism studies he provides an insider s view of the academic debates driving the rapidly expanding field Highlight The book explores fundamentalist trends within all major world religions Judaism Christianity Islam Hinduism Sikhism and Buddhism Forthcoming Books Rose Arny,2004 **Hope in Health** Alan Petersen,2015-05-27 Health professionals have shown a growing interest in the therapeutic value of hope in recent years However hope has been examined mainly from psychological and biomedical perspectives Importantly Hope in Health explores how hope manifests and is sustained in various arenas of health medicine and healthcare Making Moderate Islam Rosemary R. Corbett,2016-11-23 Drawing on a decade of research into the community that proposed the so called Ground Zero Mosque this book refutes the idea that current demands for Muslim moderation have primarily arisen in response to the events of 9 11 or to the violence often depicted in the media as unique to Muslims Instead it looks at a century of pressures on religious minorities to conform to dominant American frameworks for race gender and political economy These include the encouraging of community groups to provide social services to the dispossessed in compensation for the government s lack of welfare provisions in an aggressively capitalist environment Calls for Muslim moderation in particular are also colored by racist and orientalist stereotypes about the inherent pacifism of Sufis

with respect to other groups The first investigation of the assumptions behind moderate Islam in our country Making Moderate Islam is also the first to look closely at the history lives and ambitions of the those involved in Manhattan s contested project for an Islamic community center
