Rudolf Steiner is one of the most controversially judged educational reformers of the twentieth century. Although he received little recognition within his field, his educational thought has had a sustained and profound influence not only in the development of the Waldorf Schools but also in healing, socially therapeutic work, psychosomatic medicine, biological dynamics, agriculture, corporate organisation, fine arts, and architecture. Heiner Ullrich paints a concise and well-grounded portrait of the creator of the anthroposophic doctrine and Waldorf pedagogy. The text describes a wide arc from the intellectual biography of Rudolf Steiner across his basic ideas on human development and education to include discussion of the organisation, curriculum, methods, and success of the Waldorf Schools.

[The Development of Anthroposophy since Rudolf Steiner's Death](#) T.H. Meyer, Paul V. O'Leary, 2014-11-01. This volume begins with Thomas Meyer's assessment of Anthroposophy's evolution since Rudolf Steiner's death and its future prospects. He offers an overview of the eighty-seven years of the development of the anthroposophic movement and the Anthroposophical Society, the worldwide organization headquartered in Dornach, Switzerland, since the death of its founder. The Society went through a very difficult and controversial period in the ten years following Steiner's death, which culminated at its Annual Meeting in 1935. The result was the expulsion from the Society of two members appointed by Rudolf Steiner to its Executive Board: Vorstand Ita Wegman and Elizabeth Vreede, as well as the British and Dutch branches of the Society, and many important anthroposophists who opposed the expulsions. Meyer, whose many books include *Rudolf Steiner's Core Mission*, reveals the extraordinary concordance of four November 17 dates highly significant in the development of Anthroposophy. On November 17, 1901, the anniversary of the founding of the Theosophical Society in 1875, Marie von Sivers asked Rudolf Steiner to create an esoteric path suited to the Western mind, which set Steiner on his mission. On November 17, 1923, Ita Wegman urged Steiner to establish a new Society, with Steiner himself joining as both a member and its president. Twelve years later, on November 17, 1935, the remaining three individuals of the Executive Board wrote to Adolf Hitler to plead for the Society's continued existence in Germany after being banned in Germany by the Nazi regime. Profound connections underlie these events. Four appendices supplement the present volume. Appendix 1 presents a Chronology that denotes by year and day significant episodes in Steiner's life and in the development of Anthroposophy. The remaining appendices feature for the first time in English, in one volume, significant documents pertinent to the Anthroposophical Society's Easter 1935 Annual Meeting. Appendix 2 contains the Memorandum written by supporters of Marie Steiner setting forth a list of grievances in support of the expulsion motions adopted at the

1935 Annual Meeting Appendix 3 records Ludwig Polzer Hoditz's address in response to the 1935 Annual Meeting counseling against the expulsion measures Appendix 4 contains the letter in English and German written by the Society's Executive Board to Adolf Hitler This important book offers profound insights into the struggles for individual freedom and voice during the early years of the Anthroposophical Society Seeing the dynamics of that struggle can help us today to overcome differences to work toward common purpose both in the context of our everyday lives and within a spiritually oriented community *Rudolf Steiner*, 1986 *Rudolf Steiner* Johannes Hemleben, 1965 **Goethe's Faust and Cultural Memory** Lorna Fitzsimmons, 2012-08-17 This book is an interdisciplinary collection of essays examining Goethe's Faust and its derivatives in European North American and South American cultural contexts Topics include the authority of the word in Faust and Dr Faustus cultural memory of Herder the Eternal Feminine Coleridge's responses to Faust Argentinean adaptations performances by Peter Stein and the Goetheanum Canadian reception of Faust Werner Fritsch's multimedia project Faust Sonnengesang and the relevance of Faust for models of artificial intelligence **The Entourage of Kaiser Wilhelm II, 1888-1918** Isabel V. From Cosmology to Ecology Eric Paul Jacobsen, 2005 This book traces the development of the monist world view in Germany from the Age of Goethe to the 1920s Originally a core idea in the philosophy of Spinoza monism the idea of a universe of one substance that is both mind and matter inspired many German thinkers from Goethe to Fechner especially the infamous social Darwinist Ernst Haeckel This study contrasts Haeckel's monism with the more benign monist world views of his predecessors and of his socialist and left liberal contemporaries and followers above all Bruno Wille and Wilhelm Blosche
