**Elizabeth Sinkler Coxe's Tales from the Grand Tour, 1890-1910** Anne Sinkler Whaley LeClercq, 2012-11-26 The international adventures of a southern widow turned patron of historical discovery Elizabeth Sinkler Coxe's *Tales from the Grand Tour 1890-1910* is a travelogue of captivating episodes in exotic lands as experienced by an intrepid American aristocrat and her son at the dawn of the twentieth century A member of the prominent Sinkler family of Charleston and Philadelphia Elizabeth Lizzie Sinkler married into Philadelphia's wealthy Coxe family in 1870 Widowed just three years later she dedicated herself to a lifelong pursuit of philanthropy intellectual endeavor and extensive travel Heeding the call of their dauntless adventuresome spirits Lizzie and her son Eckley set sail in 1890 on a series of odysseys that took them from the United States to Cairo Luxor Khartoum Algiers Istanbul Naples Vichy and Athens The Coxes not only visited the sites and monuments of ancient civilizations but also participated in digs funded entire expeditions and ultimately subsidized the creation of the Coxe Wing of Ancient History at the University of Pennsylvania Museum A prolific correspondent Lizzie conscientiously recorded her adventures abroad in lively prose that captures the surreal exhilarations and harsh realities of traversing the known and barely known worlds of Africa and the Middle East She journeyed through foreign lands with various nieces in tow to expose them to the educational and social benefits of the Grand Tour Her letters and recollections are complemented by numerous photographs and several original watercolor paintings      *The Common Law in Colonial America* William E. Nelson, 2012-12-01 William E Nelson's first volume of the four volume *The Common Law of Colonial America* 2008 established a new benchmark for study of colonial era legal history Drawing from both a rich archival base and existing scholarship on the topic the first volume demonstrated how the legal systems of Britain's thirteen North American colonies each of which had unique economies political structures and religious institutions slowly converged into a common law order that differed substantially from English common law The first volume focused on how the legal systems of the Chesapeake colonies Virginia and Maryland contrasted with those of the New England colonies and traced these dissimilarities from the initial settlement of America until approximately 1660 In this new volume Nelson brings the discussion forward covering the years from 1660 which saw the Restoration of the British monarchy to 1730 In particular he analyzes the impact that an increasingly powerful British government had on the evolution of the common law in the New World As the reach of the Crown extended Britain imposed far more restrictions than before on the new colonies it had chartered in the Carolinas and the middle Atlantic region The government's intent was to ensure that colonies laws would align more tightly with British law Nelson examines how the newfound coherence in British colonial policy led these new colonies to develop common law systems that corresponded more closely with one another eliminating much of the variation that socio economic differences had created in the earliest colonies As this volume reveals these trends in governance

ultimately resulted in a tension between top down pressures from Britain for a more uniform system of laws and bottom up pressures from colonists to develop their own common law norms and preserve their own distinctive societies

Authoritative and deeply researched the volumes in *The Common Law of Colonial America* will become the foundational resource for anyone interested the history of American law before the Revolution American Reference Books Annual Bohdan S. Downes, 2021-12-15 In *Catastrophic Success* Alexander B Downes compiles all instances of regime change around the world over the past two centuries Drawing on this impressive data set Downes shows that regime change increases the likelihood of civil war and violent leader removal in target states and fails to reduce the probability of conflict between intervening states and their targets As Downes demonstrates when a state confronts an obstinate or dangerous adversary the lure of toppling its government and establishing a friendly administration is strong The historical record however shows that foreign imposed regime change is in the long term neither cheap easy nor consistently successful The strategic impulse to forcibly oust antagonistic or non compliant regimes overlooks two key facts First the act of overthrowing a foreign government sometimes causes its military to disintegrate sending thousands of armed men into the countryside where they often wage an insurgency against the intervener Second externally imposed leaders face a domestic audience in addition to an external one and the two typically want different things These divergent preferences place imposed leaders in a quandary taking actions that please one invariably alienates the other Regime change thus drives a wedge between external patrons and their domestic protégés or between protégés and their people *Catastrophic Success* provides sober counsel for leaders and diplomats Regime change may appear an expeditious solution but states are usually better off relying on other tools of influence such as diplomacy Regime change Downes urges should be reserved for exceptional cases Interveners must recognize that absent a rare set of promising preconditions regime change often instigates a new period of uncertainty and conflict that impedes their interests from being realized *The British National Bibliography* Arthur James Wells, 1998 *Best Reference Books, 1970-1980* Susan Holte, Bohdan S.
