Making Your Leadership Come Alive Jeremie Kubicek, 2012-07-03. LEADERSHIP IS ALIVE WHEN IT IS USED FOR OTHERS. IT DIES WHEN IT IS ALL ABOUT YOU. Anyone can make an impact through influence. It is the most potent professional asset on the planet. The problem is that influence is also the most underused asset on the planet. And the primary reason is that the enemy of influence is a universal human trait: self-preservation. If leaders are too concerned with protecting their status and reputation, they limit their opportunity to forge open and honest ties with others. *Making Your Leadership Come Alive* shows how leaders who are genuine, who give themselves away, have the greatest influence and are the most successful in their work. Truly, the more you give, the more you receive. With confidence and trust in company leadership at an all-time low, Jeremie Kubicek's tested and proven concepts will show readers how to restore faith through the importance of relationships and how to avoid the self-defeating and selfish approach commonly used by the leaders of today.

The Brand YU Life Hajj E. Flemings, 2006. Nonlinear Kevin G. Bethune, 2025-02-04. From the acclaimed designer and bestselling author of *Reimagining Design*, a nonlinear approach to navigating design's nuances in pursuit of meaningful innovation. In *Nonlinear*, Kevin Bethune shows us that we can reject trodden paths of digital or physical product creation by taking advantage of a nonlinear approach. To unlock meaningful innovation that breeds new and novel outcomes, he writes, teams need to embark on a journey into the proverbial forest of ambiguity, the result of a rapidly converging dynamic and exponentially changing landscape. The journey is less about getting it right or wrong and more about using the information we have at our disposal to understand our choices and unlock new learning. *Nonlinear* begins by taking the reader through Bethune's professional zigs and zags. The author explains that while his interdisciplinary leaps were rare at the time he took

them these varied experiences unlocked perspectives about design and innovation that uniquely prepared him for our present moment and for the future He then showcases the role of quantitative information to strategically frame and set boundary conditions for our creative exploration and he highlights the role of qualitative insights to provide the substance necessary to begin crafting solutions that address unmet needs The book also identifies accelerants or flywheels that will help readers as they reflect on their journey through the forest of ambiguity with a specific emphasis on diversity a key theme for Bethune a Black man who has navigated new horizons Readers will enjoy having the chance to customize the author s perspectives and make them their own at both an individual and a team level

Reimagining Design Kevin G. Bethune, 2022-03-15 The power of transformative design multidisciplinary leaps and diversity lessons from a Black professional s journey through corporate America Design offers so much more than an aesthetically pleasing logo or banner a beautification add on after the heavy lifting In Reimagining Design Kevin Bethune shows how design provides a unique angle on problem solving how it can be leveraged strategically to cultivate innovation and anchor multidisciplinary teamwork As he does so he describes his journey as a Black professional through corporate America revealing the power of transformative design multidisciplinary leaps and diversity Bethune who began as an engineer at Westinghouse moved on to Nike where he designed Air Jordans and now works as a sought after consultant on design and innovation shows how design can transform both individual lives and organizations In Bethune s account diversity equity and inclusion emerge as a recurring theme He shows how as we leverage design for innovation we also need to consider the broader ecological implications of our decisions and acknowledge the threads of systemic injustice in order to realize positive change His book is for anyone who has felt like the other and also for allies who want to encourage anti racist anti sexist and anti ageist behaviors in the workplace Design transformation takes leadership leaders who do not act as gatekeepers but with agility and nimbleness build teams that mirror the marketplace Design in harmony with other disciplines can be incredibly powerful multidisciplinary team collaboration is the foundation of future innovation With insight and compassion Bethune provides a framework for bringing this about
