Rumis World The Life And Work Of The Great Sufi Poet:

Rumi's World Annemarie Schimmel,2001-05-22 This book previously published as *I Am Wind You Are Fire* celebrates the extraordinary career of Persia's great mystical poet Rumi 1207-1273 through the story of his life along with an enlightening examination of his ecstatic verse. Rumi lived the quiet life of a religious teacher in Anatolia until the age of thirty-seven when he came under the influence of a whirling dervish Shams Tabriz and was moved to a state of mystical ecstasy. One of the results of this ecstasy was a prodigious output of poems about the search for the lost Divine Beloved whom Rumi identified with Shams. To symbolize this search, Rumi also invented the famous whirling dance of the Melevi dervishes which are performed accompanied by the chanting of Rumi's poems. Professor Schimmel illuminates the symbolism and significance of Rumi's vast output and offers her own translations of some of his most famous poems. **I Am Wind, You are Fire**

Rumi Annemarie Schimmel,2015-02-19 Jalaluddin Rumi 1207-1273 can only be described through superlatives. For Rumi is the best known and arguably the greatest exponent of the mystical tradition in Islam. The *Masnavi*, Rumi's longest and most fully realised poetic work, remains in the eastern lands of Islam the most extensively read and revered text after the *Qur'an*. Perhaps more surprisingly at least to those still unfamiliar with his writings, Rumi is also often cited as the most widely read poet today in the United States. The richness of his language and his penetrating spiritual insights about the divine mean that Rumi has an enduring capacity to transport readers from within any culture. Islamic or otherwise. Annemarie Schimmel was for many years one of Rumi's most sensitive western interpreters. Her masterfully concise and readable book, now published for the first time in English, discusses the religious and cultural background of Rumi's Sufism and the dominant strands of his imagery. Schimmel shows how Rumi's work, while timeless and with enduring cross-cultural appeal, must finally be understood as part of a wider Islamic mystical tradition, albeit an expression of that tradition which remains unsurpassed for its beauty and profundity. *The Sufi Doctrine of Rumi* William C. Chittick,2005-06-16 There are almost no authoritative books readily available for the general reader that provide in clear and accessible language an introduction to the spiritual perspective illuminating Rumi's magical poetry. In this beautifully illustrated work, William C. Chittick, a leading scholar of Sufism, and Rumi opens doors that give us access to the inner sanctum of Rumi's thought. Nine-Headed Dragon River Peter

Matthiessen,1998-04-28 In August 1968, naturalist explorer Peter Matthiessen returned from Africa to his home in Sagaponack, Long Island, to find three Zen masters in his driveway, guests of his wife, a new student of Zen. Thirteen years later, Matthiessen was ordained a Buddhist monk. Written in the same format as his best-selling *The Snow Leopard*, *Nine-Headed Dragon River* reveals Matthiessen's most daring adventure of all: the quest for his spiritual roots. **Design**

Shayegh,2020-03-09 The rhetoric of cultural identity generally goes in two potential directions One a universal line that insists on an overall pattern of integration and harmony among all peoples regardless of their differences and the other a line which suggests that various cultures are so specific and different that they will eventually enter into clash violence and war Drawing upon Derrida s concept of differance I will point out that such rhetoric as examples of current political discourses fail to open the concept of cultural identity through redefining its relationship with otherness This will be accompanied by poetry of Rumi and Whitman to suggest that their literary language through its non dialectic characteristics is familiar with the problematic of identity and has the ability to form a cross cultural dialogue Sufism And Transcendentalism envisages the possibility of dialogue against the background of political conflict The Buddhist I Ching Chih-hsu Ou-i,2001-06-12 For centuries the I Ching has been used as a basic map of conscious development containing the underlying principles of all religions and highly prized by followers of Buddhism Chih hsu Ou i uses the concepts of Tianti Buddhism to elucidate the I Ching concentration and insight calmness and wisdom and various levels of realization Skillfully translated by Thomas Cleary this work presents the complete text of the I Ching plus the only Buddhist interpretation of the oracle **Abu Al-Hasan Al-Shushtarī** 'Alī ibn 'Abd Allāh Shushtarī,2009 Mystic and poet Ab al Hasan al Shushtar 1212 1269 remains a towering figure in North African Sufism His verses are still well loved and often recited and his songs are arguably the most vibrant element of Islamic Spain s cultural legacy He is crucial to an understanding of the history of mysticism in Islamic Spain and North Africa Yet he is overlooked by Western scholars and few of his poems have been translated This book seeks to correct this deficit by 1 setting Shushtar and his work in the political and intellectual contexts of his time 2 introducing his thought to an English speaking audience through a presentation of his poetry Each of the chapters that presents the poetry starts with a thematic introduction that explores the symbolic poetic and doctrinal import of the material that follows Sensuous and spiritual erotic and ethereal this selection of works will delight everyone whether or not they are devotees of Islamic literature Ecotheology and Love Bahar Davary,2022-06-01 In Ecotheology and Love The Converging Poetics of Sohrab Sepehri and James Baldwin Bahar Davary points to the interrelation of religion poetry and ecology from a comparative perspective with an emphasis on decoloniality This work shows how authors Sohrab Sepehri and James Baldwin sought social justice by building their work on love and an authentic way of knowing the world based on an interconnected knowledge of the self The layers of depth in Sepehri and Baldwin s works and their immediacy for our time has yet to be fully understood but through Ecotheology and Love Davary takes a significant step towards achieving such a fuller understanding

Hospitality and Islam Mona Siddiqui,2015-10-15 Considering its prominent role in many faith traditions surprisingly little has been written about hospitality within the context of religion particularly Islam In her new book Mona Siddiqui a well known media commentator makes the first major contribution to the understanding of hospitality both within Islam and beyond She explores and compares teachings within the various Muslim traditions over the centuries while also drawing on

materials as diverse as Islamic belles lettres Christian reflections on almsgiving and charity and Islamic and Western feminist writings on gender issues Applying a more theological approach to the idea of mercy as a fundamental basis for human relationships this book will appeal to a wide audience particularly readers interested in Islam ethics and religious studies

Toward a True Kinship of Faiths Dalai Lama, 2011-09-06 A must read The Huffington Post May the effort of this book be of benefit to the emergence of a genuine understanding between the world's great religions and may it foster in us deep reverence toward each other The Dalai Lama In perhaps his most important book the Dalai Lama shares his hopeful yet realistic views on how humanity must step into the future In our daily lives today no one is untouched by what happens in the rest of the world New technology environmental problems economic gain and loss nuclear weapons and instant communication have all created unprecedented familiarity among the world's many cultures With this historic development the Dalai Lama understands that the essential task of humanity in the twenty first century is to cultivate peaceful coexistence Many believe in the inevitability of an escalating clash of civilizations Peaceful coexistence has long been problematic between religions and while previous conflicts over religious differences may have been significant and regrettable they did not threaten the very survival of humanity Now when extremists can persuade followers with the immense emotional power of faith and have access to powerful technological resources a single spark could ignite a powder keg of frightening proportions Yet the Dalai Lama shows how the challenges of globalization can also move us in another direction to a deeper plane where nations cultures and individuals connect through their shared human nature All major religions confront the same perennial questions each have distinct forms of expression But this marvelous diversity of insight has the potential for inspiring dialogue which can enrich everyone's pursuit of wisdom In *Toward a True Kinship of Faiths* the Dalai Lama also explores where differences between religions can be genuinely appreciated instead of becoming sources of conflict Creating genuine harmony does not depend on accepting that all religions are fundamentally the same or that they lead to the same place Many fear that recognizing the value of another faith is incompatible with having devotion to the truth of one's own Nevertheless the Dalai Lama shows how a sincere believer can with integrity be a pluralist in relation to other religions without compromising commitment to the essence of the doctrinal teachings of their own faith An issue of central importance for the Dalai Lama personally and for the entire world in general *Toward a True Kinship of Faiths* offers a hopeful yet realistic look at how humanity must step into the future

Writing in Red Nergis Ertürk, 2024-05-21 The republic of Turkey and the Soviet Union both emerged from the wreckage of empires surrounding World War I and pathways of literary exchange soon opened between the two revolutionary states Even as the Turkish government pursued a friendly relationship with the USSR it began to persecute communist writers Whether going through official channels or fleeing repression many Turkish writers traveled to the Soviet Union during the 1920s and 1930s publishing original work editing prominent literary journals and translating both Russian classics and Soviet literature into Turkish Writing in Red traces the literary and exilic itineraries of Turkish communist and former communist writers examining revolutionary aesthetics and politics across Turkey and the Soviet Union from the mid 1920s through the 1960s Nergis Ertürk considers a wide range of texts spanning genres such as erotic comedy historical fiction and film and socialist realist novels and theater by writers including Nazım Hikmet Vahide Nureddin Nizamettin Nazif Suat Dervi and Abidin Dino She argues that these works belong simultaneously to modern Turkish literature a transnational Soviet republic of letters and the global literary archive of world revolution alongside those of other writers who made the magic pilgrimage to Moscow Exploring how Turkish communist writers on the run produced a remarkable transnational literature of dissent Writing in Red offers a new account of global revolutionary literary culture

Shari`a in the Secular State Russell Powell, 2016-06-10 Words in both law and religion can shape power relationships and are often highly disputed Shari`a lies within the overlap of these two spheres and provides a unique subject for the study of meaning in that liminal space This book contributes important insights related to Islamic jurisprudence and secularism in the Turkish context and regarding the role of language in contested legal and religious

contexts The study begins by providing a historical framework for the ideas and terms covered including concepts of religion in general Shari'a in particular and secularism in the Turkish state It goes on to examine empirical research to describe and analyze contemporary Turkish understandings of religion and Shari'a The author's research indicates that there is often a disconnect between supporting the adoption of Shari'a and supporting the regulation of everyday behavior through civil codes Thus Shari'a seems to have taken on new meanings as groups have sought either to appropriate or criticize it It is a quintessential example of fractured and contextual meaning at the center of both religious and legal traditions This book is essential reading for both academics and those interested in law linguistics history political science anthropology sociology religious studies or Near Eastern studies
