Gender and Political Psychology Zoe Oxley, 2017-10-02 This book showcases new work done by gender politics scholars and political psychologists covering a variety of political psychology topics. These include stereotyping and prejudice, intergroup conflict, social identity, attitude formation, group affinity, group decision making, anxiety, contextual effects on individual behaviour, and the evolutionary roots of political behaviour. Political psychological insights are applied to address topics of longstanding concern within the field of gender and politics. Among the citizenry, gender differences in political ideology, responses to partisan conflict, Hispanic identity formation, and symbolic racism are explored. Other chapters pose the following questions relating to female candidates: What have been the effects of state parties' gender inclusive policies? Who is most likely to gender stereotype candidates? Are general attitudes toward women in political office related to vote choice in specific contests? What are the implications of politicized motherhood? Finally, a set of essays engage a variety of themes related to gender decision making, rules and authority in small deliberative bodies. This book was originally published as a special issue of *Politics, Groups and Identities*.

Gendering Politics Hanna Herzog, 2010-05-25 What are the cultural and structural mechanisms that exclude women from politics in general and from local politics in particular? What meaning is ascribed to women's political activity? *Gendering Politics* explores the place of women in democratic politics by means of a detailed study of women in Israeli politics who were elected to municipal councils from 1950 to 1989. Drawing from a variety of sources including questionnaires, interviews, newspaper coverage, and existing statistical data, as well as examinations of studies of the role of women in politics in other democracies, Herzog analyzes the extent of success and failure of women in Israeli elections. She then explores reasons why female participation in Israeli politics has been relatively slight despite historical precedents and social circumstances that would indicate otherwise. The author examines the gendered bias of the power structure as it is shaped by basic cultural organizing principles. She exposes hidden assumptions and notes the overt assumptions which by definition exclude women from politics. The author also looks at the structure of opportunities within the prevailing political system, uncovering the relevant blocking and facilitating elements. *Gendering Politics* will be of interest to students and scholars of women's studies, Israeli studies, political sociology, and political science. Hanna Herzog is Associate Professor of Sociology, Tel Aviv University.

He Runs, She Runs Deborah Jordan Brooks,2013-07-21 While there are far more women in public office today than in previous eras women are still vastly underrepresented in this area relative to men Conventional wisdom suggests that a key reason is because female candidates start out at a disadvantage with the public compared to male candidates and then face higher standards for their behavior and qualifications as they campaign He Runs She Runs is the first comprehensive study of these dynamics and demonstrates that the conventional wisdom is wrong With rich contextual background and a wealth of findings Deborah Jordan Brooks examines whether various behaviors such as crying acting tough displays of anger or knowledge gaffes by male and female political candidates are regarded differently by the public Refuting the idea of double standards in campaigns Brooks s overall analysis indicates that female candidates do not get penalized disproportionately for various behaviors nor do they face any double bind regarding femininity and toughness Brooks also reveals that before campaigning begins women do not start out at a disadvantage due to gender stereotypes In fact Brooks shows that people only make gendered assumptions about candidates who are new to politics and those stereotypes benefit rather than hurt women candidates Proving that it is no more challenging for female political candidates today to win over the public than it is for their male counterparts He Runs She Runs makes clear that we need to look beyond public attitudes to understand why more women are not in office
