Rural Development In Central America Markets Livelihoods And Local Governance:

Rural Development in Central America Ruerd Ruben, 2000 The contributions address the performance of agrarian commodity markets the structure of rural land and financial markets and the dynamics of rural labor markets *OECD Territorial Reviews: The Mesoamerican Region 2006 Southeastern Mexico and Central America* OECD, 2006-03-08 Examines how the Mesoamerican region can realise its economic potential through regional policies that exploit its many comparative advantages and better governance at mesoregional national and local levels **Towards Sustainable Development in Central America and the Caribbean** A. Danielson, A. Dijkstra, 2001-08-21 Since the economic decline in the early 1980s most countries in Central America and the Caribbean have returned to positive growth rates The recovery often coincided with or followed extensive neoliberal reforms The contributors to this book address the crucial question of whether these growth rates are sustainable Several aspects of sustainability are assessed in particular macroeconomic social and ecological aspects The book includes both comparative analyses focusing on one of these aspects of sustainability and country case studies The conclusion is that these countries have not yet arrived at a sustainable growth path due to for example high levels of foreign and domestic debt worrisome trade gaps a lack of social integration and irresponsible exploitation of natural resources In sum the analysis points to serious weaknesses in the current neoliberal model the implications of which go far beyond this particular region *Latin America Transformed* Robert N Gwynne, Kay Cristobal, 2014-04-23 Restructured to offer a more thematic approach Designed to be more student friendly with new features including chapter summaries a glossary of Spanish phrases and acronyms All the chapters have been substantially revised and a new chapter on livelihoods and place as well as a concluding chapter have been added All the chapters have been substantially revised and a new chapter on livelihoods and place as well as a concluding chapter have been added *Andre Gunder Frank and Global Development* Patrick Manning, Barry K. Gills, 2013-07-03 Containing previously unpublished material a review of the legacy and work of Andre Gunder Frank [Handbook on Tourism and Rural Community Development](#) Heather Mair, 2023-01-20 This Handbook brings together experts from around the world to reflect critically on the relationship between tourism and rural community development It first orients the reader in the important conceptual and epistemological foundations of the topic before moving to consider key concepts and the most significant and salient theoretical and methodological developments in the field *Business, Politics and Public Policy* J. Marques, P. Utting, 2010-05-13 This is the second volume on the changing nature of state business relations This book examines how the dynamics of business have influenced public policy in the context of economic liberalization and democratization It identifies the circumstances under which business might support progressive policies in developing countries **Agroecological Innovations** Norman Uphoff, 2013-06-17 The world's food supply needs to rise significantly yet both arable and water supplies per capita are decreasing Not only are modern agricultural methods beyond the reach of those suffering the greatest food insecurity but they are also ecologically

damaging relying upon fossil energy and chemical inputs This volume offers a collection of innovative and diverse approaches to agricultural development Documented in 12 case studies these approaches are reliant upon greater knowledge skill and labour input rather than larger capital expenditure They are shown to increase yield substantially sometimes doubling or tripling output This volume presents the concepts and operational means for reorienting agricultural efforts towards these more environmentally friendly and socially desirable approaches in the developed as well as developing world

Innovation for inclusive value-chain development Devaux, André, Torero, Maximo, Donovan, Jason, Horton, Douglas E., 2016-10-21 Governments nongovernmental organizations donors and the private sector have increasingly embraced value chain development VCD for stimulating economic growth and combating rural poverty Innovation for Inclusive Value Chain Development Successes and Challenges helps to fill the current gap in systematic knowledge about how well VCD has performed related trade offs or undesired effects and which combinations of VCD elements are most likely to reduce poverty and deliver on overall development goals This book uses case studies to examine a range of VCD experiences Approaching the subject from various angles it looks at new linkages to markets and the role of farmer organizations and contract farming in raising productivity and access to markets the minimum assets requirement to participate in VCD the role of multi stakeholder platforms in VCD and how to measure and identify successful VCD interventions The book also explores the challenges livestock dependent people face how urbanization and advancing technologies affect linkages ways to increase gender inclusion and economic growth and the different roles various types of platforms play in VCD

Market-Led Agrarian Reform Saturnino Borrás Jr., Cristóbal Kay, Edward Lahiff, 2013-09-13 Three fourths of the world's poor are rural poor Most of the rural poor remain dependent on land based livelihoods for their incomes and reproduction despite significant livelihood diversification in recent years Land issue remains critical to any development discourse today Market led agrarian reform MLAR has gained prominence since the early 1990s as an alternative to state led land reforms This neoliberal policy is based on the inversion of what its proponents see as the features of earlier approaches and calls for redistribution via privatized decentralized transactions between willing sellers and willing buyers Its proponents especially those associated with the World Bank have claimed success where the policy has been implemented but such claims have been contested by independent scholars as well as by peasant movements who are struggling to gain access to land This book presents three thematic papers and six country studies The thematic papers address issues of formalisation of property rights gendered land rights and neoliberal enclosure These studies demonstrate the pervasive influence of neoliberal ideas on property rights and rural development debates well beyond the core question of land redistribution The country cases bring together experiences from Brazil Guatemala El Salvador Philippines South Africa and Egypt Common findings include the success of landowners in minimising the impact of reform and a lack of post transfer support translating into marginal impact on poverty The limitations of the market led approach and the implications of the studies presented here for the

future of agrarian reform are considered in the editors introduction This book was a special issue of The Third World Quarterly Handbook of Latin American Studies, Vol. 61 Lawrence Boudon, 2006-04-01 The one source that sets reference collections on Latin American studies apart from all other geographic areas of the world The Handbook has provided scholars interested in Latin America with a bibliographical source of a quality unavailable to scholars in most other branches of area studies Latin American Research Review Beginning with volume 41 1979 the University of Texas Press became the publisher of the Handbook of Latin American Studies the most comprehensive annual bibliography in the field Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 140 specialists in various disciplines the Handbook alternates from year to year between social sciences and humanities The Handbook annotates works on Mexico Central America the Caribbean and the Guianas Spanish South America and Brazil as well as materials covering Latin America as a whole Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas The Handbook of Latin American Studies is the oldest continuing reference work in the field Lawrence Boudon of the Library of Congress Hispanic Division has been the editor since 2000 and Katherine D McCann has been assistant editor since 1999 The subject categories for Volume 61 are as follows Anthropology Economics Geography Government and Politics Political Economy International Relations Sociology *Rural Development in Latin America* Alain De Janvry, 1989 *G.K. Hall Bibliographic Guide to Latin American Studies* Benson Latin American Collection, 1999 Rural Livelihoods and Poverty Reduction Policies Frank Ellis, H. Ade Freeman, 2004-08-02 This important new collection of contributions brings together current thinking on poverty reduction and rural livelihoods in developing countries As well as leading economists in the field such as Frank Ellis and Chris Barrett there are a number of contributors from developing countries themselves The book examines both macroeconomic and microeconomic phenomena and contains wide range of case studies Skilfully exposing the gap that exists between the rhetoric of poverty reduction strategies in capital cities and the practice of public sector delivery in rural areas this key text will be essential reading for advanced students and researchers in the fields of rural development rural livelihoods poverty reduction strategies and Sub Saharan Africa development as well as advisors and practitioners in international organizations *Current Contents. Arts & Humanities* Institute for Scientific Information, 2001 **Decentralized Development in Latin America** Paul Lindert, Otto Verkoren, 2010-03-02 Much of the scholarly and professional literature on development focuses either on the macro level of national policies and politics or on the micro level of development projects and household or community socio economic dynamics By contrast this collection pitches itself at the meso level with a comparative exploration of the ways in which local institutions municipalities local governments city authorities civil society networks and others have demanded and taken on a greater role in planning and managing development in the Latin American region The book's rich empirical studies reveal that local institutions have engaged upwards with central authorities to shape their policy and resource environments and in

turn been pressured from below by local actors contesting the ways in which the structures and processes of local governance are framed The examples covered in this volume range from global cities such as Mexico and Santiago to remote rural areas of the Bolivian and Brazilian Amazon As a result the book provides a deep understanding of the diversity and complexity of local governance and local development in Latin America while avoiding the stereotyped claims about the impact of globalisation or the potential benefits of decentralisation as frequently stated in less empirically grounded analysis

British Bulletin of Publications on Latin America, the Caribbean, Portugal, and Spain ,2000 Rural Planning in Developing Countries David Dent,Olivier Dubois,Barry Dalal-Clayton,2013-06-17 This book provides an international perspective on rural planning focused on developing countries It examines conventional development planning and innovative local planning approaches drawing together lessons from recent experience of rural planning and land use The authors examine past and current practice and ways that land use planning and management of natural resources can underpin sustainable local livelihoods They draw on case studies from Africa Asia and Latin America to present findings relevant throughout the developing world **Environmental Governance in Latin America** Fabio De Castro,Barbara Hogenboom,Michiel Baud,2016-03-24 This book is open access under a CC BY license The multiple purposes of nature livelihood for communities revenues for states commodities for companies and biodiversity for conservationists have turned environmental governance in Latin America into a highly contested arena In such a resource rich region unequal power relations conflicting priorities and trade offs among multiple goals have led to a myriad of contrasting initiatives that are reshaping social relations and rural territories This edited collection addresses these tensions by unpacking environmental governance as a complex process of formulating and contesting values procedures and practices shaping the access control and use of natural resources Contributors from various fields address the challenges limitations and possibilities for a more sustainable equal and fair development In this book environmental governance is seen as an overarching concept defining the dynamic and multi layered repertoire of society nature interactions where images of nature and discourses on the use of natural resources are mediated by contextual processes at multiple scales *Grassroots Struggles for Sustainability in Central America* Lynn Horton,2007 In recent years sustainable development has emerged as a central goal of the World Bank and grassroots activists alike In *Grassroots Struggles for Sustainability in Central America* Lynn R Horton explores the implications of this new often contested discourse and related policies for Central America s rural and indigenous poor Drawing on the testimony of leaders and residents of three communities in Nicaragua Costa Rica and Panama Horton explores grassroots assumptions values and practices of sustainable development and in particular the ways in which they overlap with or challenge international financial institutions discourse of sustainability With a comparative empirical approach Horton also analyzes dominant practices linked to sustainable development neoliberal reforms project interventions and environmental protection She reveals how these practices support or undermine economic cultural and political

opportunities for the rural and indigenous poor and impact these communities advancement of their own visions of sustainability Finally the author explores processes of empowerment that enable communities to articulate and put into practice local visions of sustainability which contribute toward broader social and structural transformations Grassroots Struggles for Sustainability in Central America will interest sociologists anthropologists and others who study the theory and practice of sustainable development
