Rural Poverty In Asia Priority Issues And Policy Options:

Rural Poverty in Asia Muhammad Ghulam Quibria,1993 This collection of economic essays is the outcome of an Asian Development Bank study on rural poverty in selected Asian countries Reducing Poverty in Asia Christopher M. Edmonds,Asian Development Bank,2003-01-01 In this book a group of distinguished authors addresses three broad questions what broad strategies and macroeconomic policies best support poverty reduction efforts in Asia what role should targeted antipoverty interventions play and how should such interventions be designed and how is poverty measured what new approaches are needed and how does measurement affect our understanding of poverty Each of these three broad themes is also considered together in chapters examining the poverty situations in a number of countries in Asia and the Pacific

The Elgar Companion to the Asian Development Bank M. G. Quibria,Albab Akanda,2024-02-12 Providing an authoritative yet accessible introduction to the Asian Development Bank ADB this comprehensive Companion offers a detailed examination of the ADB s objectives policies development outcomes strengths and weaknesses areas for reform and challenges going forward *Poverty and Policy* Michael Lipton,Martin Ravallion,1993 *Poverty and Inequality among Chinese Minorities* Ajit S. Bhalla,Shufang Qiu,2024-11-01 The number of poor people in China is huge despite recent economic advances The minorities in China constitute less than ten per cent of the entire population yet they represent forty to fifty per cent of the absolute poor This compelling book investigates the problem of poverty and inequality in and among Chinese ethnic minorities focusing in particular on two important questions Have the minorities shared the fruits of spectacular economic growth in China during the past two decades Is their backwardness due to ethnic and cultural factors or to extremely low incomes The authors examine the different factors explaining poverty the relationship between poverty and ethnicity poverty indicators that permit a comparison between minorities and non minorities or the Han majority economic and demographic characteristics of minorities and their educational occupational and gender profiles They consider whether special measures in favour of minorities introduced by the Chinese government have contributed to an improvement in their standard of living *Poverty and Inequality among Chinese Minorities* gives original research findings and new thinking on a highly topical issue in Chinese development economics and fills a gap in the existing economic literature

Handbook of Regional and Urban Economics Peter Nijkamp,E.S. Mills,P.C. Cheshire,1986 Fifteen essays in this handbook are divided into four parts Part I surveys basic spatial and spatially related research Part II surveys literature on specific urban markets Part III is devoted to studies of urban development and problems in developing countries Part IV contains papers on specific urban problems and sectors *Framework for Establishing Priorities in a Country Poverty Reduction Strategy* Ron Duncan,2008-05 This paper reviews the history progress of understanding development theory over the past 50 years Development thinking has evolved from an early paradigm that focused on savings capital investment to subsequent arguments favoring the inclusion of human capital policy technical change finally to the inclusion of the role of institutions

good governance Secure property rights in the broadest sense which are applicable to all resources not just land are particularly important to realize investment yield This evolution of development thought describes a conceptual framework that can guide development practitioners in prioritizing sequencing characterizing all interventions aimed at reducing poverty Labor Market Distortions, Rural-Urban Inequality, and the Opening of the People's Republic of China Economy Thomas Hertel,2008-05 Evaluates the impact of some key factor market reforms on rural urban inequality income distribution using a household disaggregated recursive dynamic computable general equilibrium model of the People s Republic of China It also explores how these factor market reforms interact with product market reforms currently under way as part of the country s World Trade Org WTO accession process The simulation results show that reforms in the rural land rental market hukou system as well as increasing off farm labor mobility would reduce the urban rural income ratio dramatically Furthermore the combination of WTO accession factor market reforms improves both efficiency equality significantly Charts tables graphs ERD Working Paper Series ,2002 **Priorities and Strategies in Rural Poverty**

Reduction Diana Alarcón González,2004 **Poverty, Growth and Institutions in Developing Asia** E. Pernia,A. Deolalikar,2003-10-07 The theme of this book is that economic growth is key but institutions and other national and subnational attributes matter as well They are critical to explaining differences in social development and poverty reduction across countries and subnational areas that cannot be accounted for by growth alone The book concludes that a more complete strategy needs to consider various institutional factors at the national and subnational levels to achieve rapid and sustained poverty reduction Indeed paying attention to these factors will benefit both growth and poverty reduction

Poverty Alleviation in the Third World Sita Ram Singh,2005 With particular reference to India Practices of Poverty Measurement and Poverty Profile of Nepal Devendra Chhetry,2009-03 Reviews the poverty measuring practices available measures of poverty and economic growth figures of Nepal The poverty rates for FY 1976 77 1984 85 and 1995 96 are found to be not comparable due to change in methodology over time The three poverty rates average 40% Nepal has experienced high economic growth during the 7th 1985 86 to 1989 90 and 8th 1992 93 to 1996 97 Plan periods with no strong evidences of poverty reduction This incompatible result is partially explained by comparing growth of the agricultural sector with the role of the sector in providing employment and income generation at the household level and by comparing social indicators particularly literacy rate with the growth of the nonagricultural sector Tables **Handbook of Agricultural Economics** Robert E. Evenson,Prabhu Pingali,2007-06-28 Volume 3 of this series of the Handbooks in Economics follows on from the previous two volumes by focusing on the fundamental concepts of agricultural economics The first part of the volume examines the developments in human resources and technology mastery The second part follows on by considering the processes and impact of invention and innovation in this field The effects of market forces are examined in the third part and the volume concludes by analysing the economics of our changing natural resources including the past effects of climate

change Overall this volume forms a comprehensive and accessible survey of the field of agricultural economics and is recommended reading for anyone with an interest either academic or professional in this area Part of the renowned Handbooks in Economics series Contributors are leaders of their areas International in scope and comprehensive in coverage
