Assessing Demograph Impact Dev A. S. Oberai, 2003-09-02 First published in 1991 Routledge is an imprint of Taylor Francis an informa company **Assessing the Demographic Impact of Development Projects** A. S. Oberai, 2022-08-30 First published in 1992 Assessing the Demographic Impact of Development Projects based on studies in developing countries focuses on conceptual methodological and policy issues related to development projects It considers whether demographic effects can be assessed and why development planners should be interested in such an assessment A S Oberai examines the extent to which economic and social changes generated by specific development interventions have influenced demographic behaviour in a particular context He suggests how desired effects can be enhanced and undesired effects minimized by policy makers and planners in developing countries in order to deal with problems of population growth and its distribution The major shortcomings of existing methodologies are identified and the author indicates the future direction which research might take in order to be more scientifically valid and useful to policy makers This book is a must read for scholars and researchers of development studies political economy and labour economy *Perspectives on Development and Population Growth in the Third World* O.G. Simmons, 2012-12-06 Until the early to mid 1970s social scientists in the fields of population and development were largely going their own ways Demographers relied almost exclusively on demographic transition theory as their para digm for understanding the role of development in population change and fertility decline Conversely most development economists and other specialists were certainly aware of the constraints placed upon development objectives by population growth However the main de velopment theories paid little attention to population and the implica tions of population growth for development Indeed it was not until after the World Population Conference in Bucharest in 1974 that the interaction of population and development became a serious and pur posive theme for social scientific study Accordingly since about the mid 1970s an extensive literature in the field of population and develop ment has been generated And in 1975 under the auspices of The Popu lation Council the journal Population and Development Review was found ed a journal which in the past decade has developed into the premier publication in the world for work in this area But our understanding of development as it refers to change in Third World countries remained fragmented Moreover our understanding of the linkages and interac tions between population and development was very limited It is in this regard that Ozzie Simmons s *Perspectives on Development and Population Growth in the Third World* will certainly have an impact *Human Fertility in India* David G. Mandelbaum, 2022-08-19 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship

accessible once again using print on demand technology This title was originally published in 1974 **Female Labour Market Behaviour and Fertility** Jacques J. Siegers, Jenny de Jong-Gierveld, Evert van Imhoff, 2012-12-06 Since 1987 the investigation of the relationship between female labour market behaviour and fertility which forms part of the research programme of the Economic Institute Centre for Interdisciplinary Research on Labour Market and Distribution Issues CIAV of Utrecht University also became a part of the research programme of the Netherlands Interdisciplinary Demographic Institute NIDI Since then I have been entrusted with research on this topic In this context I acted on a suggestion made by Frans Willekens to organize an international workshop with the help of other members of the NIDI staff and with the administrative and organizational support of the NIDI This resulted in the workshop Female Labour Market Behaviour and Fertility Preferences Restrictions Behaviour held at the Netherlands Interdisciplinary Demographic Institute in The Hague April 20-22 1989 under the auspices of the European Association for Population Studies EAPS In this workshop demographers econometricians economists psychologists and sociologists discussed the paths to a truly interdisciplinary approach to the relationship between female labour market behaviour and fertility Such an interdisciplinary approach requires a common theoretical framework The rational choice framework was considered to be best suited to this purpose As a consequence the workshop was not only structured by what was studied but also by how it was studied This volume consists of the papers presented at the above mentioned workshop as revised by the authors in collaboration with the editors

Culture, Environment and Health in the Yucatan Peninsula Hugo Azcorra, Federico Dickinson, 2019-12-11 This book adopts a human ecology approach to present an overview of the biological responses to social political economic cultural and environmental changes that affected human populations in the Yucatan Peninsula Mexico since the Classic Maya Period Human bodies express social relations and we can read these relations by analyzing biological tissues or systems and by measuring certain phenotypical traits at the population level Departing from this theoretical premise the contributors to this volume analyze the interactions between ecosystems sociocultural systems and human biology in a specific geographic region to show how changes in sociocultural and natural environment affect the health of a population over time This edited volume brings together contributions from a range of different scientific disciplines such as biological anthropology bioarchaeology human biology nutrition epidemiology ecotoxicology political economy sociology and ecology that analyze the interactions between culture environment and health in different domains of human life such as The political ecology of food nutrition and health Impacts of social and economic changes in children's diet and women's fertility Biological consequences of social vulnerability in urban areas Impacts of toxic contamination of natural resources on human health Ecological and sociocultural determinants of infectious diseases *Culture Environment and Health in the Yucatan Peninsula A Human Ecology Perspective* will be of interest to researchers from the social health and life sciences dedicated to the study of the interactions between natural environments human biology health and social issues especially in fields such as biological and

sociocultural anthropology health promotion and environmental health It will also be a useful tool to health professionals and public agents responsible for designing and applying public health policies in contexts of social vulnerability

Gender and the Life Course Alice Rossi, 2018-01-16 *Gender and the Life Course* is an interdisciplinary collection of essays on the lives of women and men as they are affected by history culture demography economic and political stratification and the biopsychological processes that attend maturation and aging The book covers three major topics Part I which examines gender and the life course in broad historical perspective includes a summary of recent work in biological ecology and primatology and an analysis of the persistence of cultural and gender differences in role organization in societies undergoing the transition from agrarianism to industrialism Other essays trace the changes in sources of household income of industrial workers over the life span and review temporal and gender differences in life span transitions Part II examines gender differentiation in a variety of contexts psychological psychobiological and sociological Alice Rossi's ASA Presidential Address reviews recent work on fathering and mothering and argues that sociological explanations of such gender differences need supplementation by concepts from evolutionary theory and the neurosciences Three essays deal with gender and economy one shows how gender stratification took hold in the early stages of industrialization in France another demonstrates the persistence of gender stratification in modern economies the third focuses on ideology in relation to gender and political power Part III examines various aspects of the aged in contemporary society including an argument for an interpretive social science that uses diverse methods to improve our ability to describe and interpret many facets of the lives of elderly men and women a review of the methodology used to study changes in the aged population over time and an overview of existing data sets that permit further cohort and longitudinal analyses of the aged The final essays review social policies as they affect the elderly with particular attention to the fact that most very old people are women and the impact of the greatly expanded life course for family and kin relations *Gender and the Life Course* is a state of the art assessment of the best work currently being done on gender and age as maturational factors and is essential reading for anyone interested in adult development and gender roles

Population, Economic Growth and Agriculture in Less Developed Countries Nadia Cuffaro, 2003-08-29 In 1950 the world population was 2.5 billion fifty years later there are over 6 billion people The demographic of this explosion has essentially occurred in the developing areas of the world The key to understanding many contemporary development problems that have arisen from this rapid growth is in understanding the relationships between population and the economy This book offers an analysis of such relationships encompassing a review of the major positions in the academic debate *Population Economic Growth and Agriculture in Less Developed Countries* will serve as a useful introduction and reference tool for students academics and all with an interest in the population debate and economics

Fertility Transitions, Family Structure, And Population Policy Calvin Goldscheider, 2019-04-11 Focuses on fertility and family transitions in selected Third World countries exploring critical aspects of the relationship between population and development The essays

examine population processes as they unfold and develop over time highlighting the need to go beyond economic explanations and identifying the priorities among social structures
