rich mythology of their own and while much of it was derived from their neighbors the Greeks it still defined the rich history of the Roman people as they eventually grew into an empire Myths are the reflection of the ancient s view of the world they often appear as simple stories filled with valiant heroes maidens in distress and a host of all powerful gods The gods of the Greeks and Romans were anthropomorphic exhibiting many human qualities such as love hate and jealousy and because of this the people of Rome and Greece were able to see themselves in these tales and understand their relationship to the rest of the world as well their connection to the gods The lesson often to be learned was that one must meet one s destiny with strength determination and nobility These myths enabled an individual to stand against the ills and hardships of an unforgiving universe In spite of their constant disagreements and battles the gods and humankind had to stand together against the monsters and giants of the world or more simply the forces of disorder and wanton destruction Myths whether Greek Roman were concerned with the relationship between the gods and humans are different in this regard from fairytales and folktales For all people in many ways myths made life bearable by providing security They should not be regarded as simple stories for in both Greece and Rome they dealt with important issues the creation of the world the nature of good and evil and even the afterlife And for this reason these tales have stood the test of time and become part of our present day culture One only needs look at the names of our planets to see this Mercury Venus Mars Jupiter Saturn Neptune Uranus and even poor little Pluto are all named for Roman gods The Book comprises 106 Greek and Roman mythology tales
