Exhibitions and the Development of Modern Planning Culture Robert Freestone, Marco Amati, 2016-12-05 The evolution of city planning theory and practice in the first half of the twentieth century was captured

and driven by a range of exhibitionary practices in a variety of settings globally from international expos to local public halls. The agendas of the promoters varied but exhibitions generally drew their social legitimacy from their status as appropriate educational agencies of citizenship. Bringing together a range of international case studies, this volume explores the highly visual genre of public planning exhibitions worldwide. In doing so, it provides a unique lens on the development of modern urban planning and design from the late 19th century to the present day. Focussing mainly on the first half of the 20th century, it looks in particular at historic exhibitions which sought to transform urban society's understanding of the possibilities of planning as a force for social betterment. The visibility of presentation, contemporary reactions and outcomes for the planning profession and the community are explored to make for a unique, innovative and attractive approach to the history of planning ideas. The five major themes are the visual representation of ideas and ideologies, institutions and individuals involved, the broader context of display and the impacts and implications for the development of planning culture. With contributors including Karl Fischer, John Gold, Carola Hein, Peter Larkham, Javier Monclus and Mark Tewdwr Jones, the dominant intellectual paradigm further unifying the collection is planning history.

The Quote Verifier Ralph Keyes, 2007-04-01. Our language is full of hundreds of quotations that are often cited but seldom confirmed. Ralph Keyes's *The Quote Verifier* considers not only classic misquotes such as "Nice guys finish last" and "Play it again, Sam," but more surprising ones such as "Ain't I a woman" and "Golf is a good walk spoiled," as well as the origins of popular sayings such as "The opera ain't over till the fat lady sings," "No one washes a rented car," and "Make my day." Keyes's in-depth research routinely confounds widespread assumptions about who said what, where and when. Organized in easy-to-access dictionary form, *The Quote Verifier* also contains special sections highlighting commonly misquoted people and genres such as Yogi Berra and Oscar Wilde, famous last words and misremembered movie lines. An invaluable resource for not just those with a professional need to quote accurately but anyone at all who is interested in the roots of words and phrases, *The Quote Verifier* is not only a fascinating piece of literary sleuthing but also a great read.
