Religion, Medicine and the Human Embryo in Tibet Frances Garrett, 2008-04-24 This book explores the cultural history of embryology in Tibet in culture religion art and literature and what this reveals about its medicine and religion Filling a significant gap in the literature this is the first in depth exploration of Tibetan medical history in the English language It reveals the prevalence of descriptions of the development of the human body from conception to birth found in all forms of Tibetan religious literature as well as in medical texts and in art By analysing stories of embryology Frances Garrett explores questions of cultural transmission and adaptation How did Tibetan writers adapt ideas inherited from India and China for their own purposes What original views did they develop on the body on gender on creation and on life itself The transformations of embryological narratives over several centuries illuminate key turning points in Tibetan medical history and its relationship with religious doctrine and practice Embryology was a site for both religious and medical theorists to contemplate profound questions of being and becoming where topics such as pharmacology and nosology were left to shape secular medicine The author argues that in terms of religion stories of human development comment on embodiment gender socio political hierarchy religious ontology and spiritual progress Through the lens of embryology this book examines how these concerns shift as Tibetan history moves through the formative renaissance period of the twelfth through to the seventeenth centuries

Bakhtin and the

Human Sciences Michael Bell, Michael E Gardiner, 1998-08-28 Bakhtin and the Human Sciences demonstrates the abundance of ideas Bakhtin's thought offers to the human sciences and reconsiders him as a social thinker not just a literary theorist. The contributors hail from many disciplines and their essays' implications extend into other fields in the human sciences. The volume emphasizes Bakhtin's work on dialogue, carnival, ethics, and everyday life, as well as the relationship between Bakhtin's ideas and those of other important social theorists. In a lively introduction, Gardiner and Bell discuss Bakhtin's significance as a major intellectual figure and situate his ideas within current trends and developments in social theory.

Cultural, Ethnic, and Political Nationalism in Contemporary Taiwan J. Makeham, A. Hsiau, 2005-08-19 This volume analyzes what is arguably the single most important aspect of cultural and political change in Taiwan over the past quarter century: the trend toward indigenization. Focusing on the indigenization of politics and culture and its close connection with the identity politics of ethnicity and nationalism, this volume is an attempt to map prominent contours of the indigenization paradigm as it has unfolded in Taiwan. The opening chapters concern the origin and nature of the trend toward indigenization with its roots in the unique historical trajectory of politics and culture in Taiwan. Subsequent chapters deal with responses and reactions to indigenization in a variety of social, cultural, and intellectual domains.

[The Social Licence for Financial Markets](#) David Rouch, 2020-07-13 This book is about what Mark Carney has called the social licence for financial markets and how it can point us towards a more sustainable future. Author David Rouch argues that what it reveals contrasts sharply with the usual portrayals of markets as places of unrestrained financial self-interest. Drawing attention to a more complex reality and the presence of justice-focused aspirations in finance can positively impact individual, institutional, and systemic behaviour change not imposed by regulators but emerging from the very substance of market relationships. The finance sector should have a key role in addressing humanity's increasingly pressing sustainability challenges. Yet the relationship between finance and society has not recovered from the 2008 crisis and the scandals and austerity that followed. The Covid-19 pandemic and its economic fallout is sharpening some of the issues and creating new ones. Recognising that financial markets operate subject to a social licence has the potential to galvanise market participants in tackling these challenges, strengthening social solidarity on which markets also depend, and to provide coordinates for navigating a way through the post-pandemic social, political, and economic landscape.

[Biblical Narrative Learning](#) Tung Chiew Ha, 2015-10-02 Biblical narrative learning is a non-critical educational approach for Christian communities with diverse learning backgrounds involving three sets of movement: inquire and invent, interpret and imagine, inspire and imitate, and impart. It is grounded in humankind's universal capacity to teach and learn through stories and built on practices in narrative learning along with biblical narratives. The Gospel of John provides a model for this interpretive process that continues the teaching of living in a loving relationship with God and one another. John uses many literary devices to enhance an affective and reflective learning. The literary devices create the familiar-strange effect. John's narrative fosters remembrance of the

The Heart of Judgment Leslie Paul Thiele, 2006-09-04 *The Heart of Judgment* explores the nature, historical significance and continuing relevance of practical wisdom. Primarily a work in moral and political thought, it also relies extensively on research in cognitive neuroscience to confirm and extend our understanding of the faculty of judgment. Ever since the ancient Greeks first discussed practical wisdom, the faculty of judgment has been an important topic for philosophers and political theorists. It remains one of the virtues most demanded of our public officials. The greater the liberties and responsibilities accorded to citizens in democratic regimes, the more the health and welfare of society rest upon their exercise of good judgment. While giving full credit to the roles played by reason and deliberation in good judgment, the book underlines the central importance of intuition, emotion and worldly experience.

Identity Tug of War Paul W. Lucas, 2025-07-10 What defines your church? What would your church answer to the question, who are we? Answers would likely include a wide variety of sources from tradition, theological distinctives, visions, origin stories and more. Church identity exists across various groups within a particular church, and these identities will shift over time. Church leadership may define a church's identity in a way that may or may not match the congregational identity. This book looks at exploring this complex issue using the tools of social psychology alongside practical theology in developing tools for church leadership to operate in awareness of the multifaceted identity of the church. This was explored through narrative inquiry into several churches which helped to explore the efficacy of these tools in the work of church leadership's understanding of congregational identity.
