El-Awa,2016-07-06 This book addresses the issue of privacy and confidentiality in the broader context of the Egyptian legal system The volume opens with an overview of the major approaches to confidentiality adopted in various jurisdictions It goes on to examine the duties of confidentiality and privacy in arbitration law and practice on the basis of interviews with 30 law professors and practitioners who often act as arbitrators or counsel for parties in arbitral disputes together with the relevant Egyptian arbitration law provisions The book takes into account the relevant provisions in

the arbitration laws of Syria Saudi Arabia and Yemen It moves on to explore the relation between arbitration and the judicial system and the extent to which the former should borrow its rules from the latter with regard to publicity and the rule of public trial Finally this book looks at the right to privacy as a constitutional right as a potential basis for a legal duty of confidentiality in arbitration and the duties stemming from this constitutional right in the various laws of Egypt as well as the constraints imposed on the right to privacy in particular those stemming from the constitutional principles of freedom of speech and freedom of the press The main conclusion is that confidentiality does indeed exist in arbitration However its legal basis is not the law on arbitration or the arbitration agreement It is in fact a corollary of the fundamental right to privacy granted in the Egyptian legal system to both natural and legal persons

Obligations of Non-State Actors Andrew Clapham,2006-03-02 The threats to human rights posed by non state actors are of increasing concern Human rights activists increasingly address the activity of multinational corporations the policies of international organizations such as the World Bank and the World Trade Organization and international crimes committed by entities such as armed opposition groups and terrorists This book presents an approach to human rights that goes beyond the traditional focus on states and outlines the human rights obligations of non state actors Furthermore it addresses some of the ways in which these entities can be held legally accountable for their actions in various jurisdictions The political debate concerning the appropriateness of expanding human rights scrutiny to non state actors is discussed and dissected For some extending human rights into these spheres trivializes human rights and allows abusive governments to distract us from ongoing violations For others such an extension is essential if human rights are properly to address the current concerns of women and workers The main focus of the book however is on the legal obligations of non state actors The book discusses how developments in the fields of international responsibility and international criminal law have implications for building a framework for the human rights obligations of non state actors in international law In turn these international developments have drawn on the changing ways in which human rights are implemented in national law A selection of national jurisdictions including the United States South Africa and the United Kingdom are examined with regard to the application of human rights law to non state actors The book s final part includes suggestions with regard to understanding the parameters of the human rights obligations of non state actors Key to understanding the legal obligations of non state actors are concepts such as dignity and democracy While neither concept can unravel the dilemmas involved in the application of human rights law to non state actors a better understanding of the tensions surrounding these concepts can help us to understand what is at stake The Economics of International Integration, Second Edition Miroslav N. Jovanović,2015-05-29 The dissipating

multilateral trading system and splintering in a number of trading blocs and arrangements has been one of the most important issues in international economics particularly after the establishment of the World Trade Organisation in 1995
