covering slavery to the Civil Rights era Beginning in the mid nineteenth century in America childhood became synonymous with innocence a reversal of the previously dominant Calvinist belief that children were depraved sinful creatures As the idea of childhood innocence took hold it became racialized popular culture constructed white children as innocent and vulnerable while excluding black youth from these qualities Actors writers and visual artists then began pairing white children with African American adults and children thus transferring the quality of innocence to a variety of racial political projects a dynamic that Robin Bernstein calls racial innocence This phenomenon informed racial formation from the mid nineteenth century through the early twentieth Racial Innocence takes up a rich archive including books toys theatrical props and domestic knickknacks which Bernstein analyzes as scriptive things that invite or prompt historically located practices while allowing for resistance and social improvisation Integrating performance studies with literary and visual analysis Bernstein offers singular readings of theatrical productions from blackface minstrelsy to Uncle Tom s Cabin to The Wonderful Wizard of Oz literary works by Joel Chandler Harris Harriet Wilson and Frances Hodgson Burnett material culture including Topsy pincushions Uncle Tom and Little Eva handkerchiefs and Raggedy Ann dolls and visual texts ranging from fine portraiture to advertisements for lard substitute Throughout Bernstein shows how innocence gradually became the exclusive province of white children until the Civil Rights Movement succeeded not only in legally desegregating public spaces but in culturally desegregating the concept of childhood itself
