

REGIONAL DYNAMICS

The Basis of Electoral
Support in Britain

WILLIAM FIELD

Foreword by
Vernon Bogdanor

Regional Dynamics The Basis Of Electoral Support In Britain

Hugh Berrington

Regional Dynamics The Basis Of Electoral Support In Britain:

Regional Dynamics William Field, 2013-01-11 There is a perceived North South divide in British politics In this study William Field points out that this divide marks the resurgence of a core periphery cleavage which was also dominant in British politics in the years before 1914 Other similarities are pointed out British Elections and Parties Review David Denver, Justin Fisher, Steve Ludlam, Charles Pattie, 2013-10-18 This volume features key political issues for 1990s Britain the reform of the Labour party the use of opinion polls the impact of the media European integration Scotland and regional trends and the bases of party support British Elections & Parties Review Philip Cowley, David Denver, Justin Fisher, Andrew Russell, 2014-05-12 The British Elections and Parties series publishes research on parties elections and voting behaviour in Britain providing analyses of current and historical developments It is produced under the auspices of the Political Studies Association's Election Public Opinion and Parties study group Volume 9 includes research based around four themes electoral reform partisanship and voting parliamentary behaviour and the attitudes of the young It provides a source of data on public opinion polls a summary of local election results UK referendums key economic indicators political parties and a chronology of major political events in 1998 Critical Elections Geoffrey Evans, Pippa Norris, 1999-04-28 Did Labour's landslide victory in 1997 mark a critical watershed in British party politics Did the radical break with 18 years of Conservative rule reflect a fundamental change in the social and ideological basis of British voting behaviour Critical Elections brings together leading scholars of parties elections and voting behaviour to provide the first systematic overview of long term change in British electoral politics **Elections and Voters in Britain** David Denver, Christopher Carman, Robert Johns, 2017-07-04 How do voters in Britain decide which party to vote for in elections Why do smaller parties get more support than they used to How do the mass media influence political opinions The authors examine these and other questions in the third edition of this popular text They trace the evolution of the British electorate over the post war period and focus in particular on recent elections from Labour's victories in the 2000s through to the hung parliament of 2010 As well as examining and explaining theories of party choice including the view that voters' evaluations of government performance and party leaders are now the key determinants of election outcomes the authors also devote separate chapters to turnout trends and patterns electoral systems and the geography of party support Campaigning opinion polls and the mass media are also considered Fully revised the text incorporates the latest research on elections and voting behaviour and includes analysis of recent trends and developments including how new media are affecting election campaigning *Britain in the Nineties* Hugh Berrington, 2014-06-11 This volume looks at the changes in British politics and government since the accession of Mrs Thatcher in 1979 and in particular at the 1990s Its aim is to explore some of these changes and to emphasize the recurring paradoxes in political developments **British General Elections Since 1964** David Denver, Mark Garnett, 2014-02 The first book to look at a succession of British general elections in significant detail By

starting the survey in 1964 rather than the traditional date of 1945 it can also focus more rigorously on the changes which began in the 1960s and still affect general elections today The Social Context of Economic Change in Britain Terrence Casey,2002 This book examines a period of dramatic economic change in Britain during the Thatcher era *Popular Conservatism in Imperial London, 1868-1906* Alex Windscheffel,2007 First detailed investigation into the popular dimensions of late Victorian London Conservatism **Cheshire and the Tudor State 1480-1560** Tim Thornton,2000 The palatinate of Chester survives Tudor centralisation **The Modern British Party System** Paul Webb,Tim Bale,2021-09-28 The new edition of this successful book provides a comprehensive and up to date overview and account of the changing nature of party politics in Britain today Webb and Bale draw on models of comparative politics in conducting a wealth of new empirical analysis to map and explain the ways in which the party system has evolved and the parties have adapted to a changing political environment Themes covered include the nature and extent of party competition the internal life and organizational development of parties the varieties of party system found across the UK and the roles played by parties within the wider political system The book also addresses the crisis of popular legitimacy confronting the parties as well as assessing the scope for potential reform While parties remain central to the functioning of Britain's democracy public disaffection with them is as high as it has ever been reform of the system of representation and party funding is warranted but there are unlikely to be any panaceas **The Modern British Party System** Paul Webb,2000-09-22 Providing a complete up to date overview of the changing nature of contemporary party politics in Britain this book draws on models of comparative politics and the latest empirical analysis to explain the capacity of British parties to adapt to a changing political environment A number of broad themes include the nature and extent of party competition the internal life and organizational development of parties the variety of evolving party systems in the United Kingdom and the links between parties and the wider political system The current weaknesses of party performance are addressed and the scope of reform explained and examined Contrary to claims of decline however the book demonstrates that party politic State and Nation in the United Kingdom Michael Keating,2021-04-08 The United Kingdom has often been seen as a unitary nation state This book argues that it should be understood as a plurinational union in which the key elements of demos telos and ethos are contested Except in the mid twentieth century its territorial boundaries have been contested and the matter of sovereignty has never definitely been settled Since the end of the twentieth century devolution to Scotland Wales and Northern Ireland has made this more apparent With the weakening of the British national project tensions between the centre and the peripheral nations have grown greatly exacerbated by Brexit Eurosceptics have long argued that membership of the European Union is inconsistent with the sovereignty of the British people and Parliament On another reading however both the UK and the EU are plurinational unions and highly compatible The EU indeed served as an important external support system for the devolution settlement Brexit destabilizes it Unionism historically served as a doctrine and a set of practices seeking to reconcile a

unitary state with a plurinational reality Since devolution it has struggled to come to terms with the new constitutional reality or embrace the idea of shared sovereignty The Union is under increasing strain but there is no simple way of resolving these strains either by secession of the component nations or a return to the unitary state The peoples of these islands need to find new constitutional concepts for living together in a world in which traditional ideas of national sovereignty have lost their relevance

Britain Votes 1997 Hansard Society for Parliamentary Government,1997 In Britain Votes a prestigious array of writers provide a detailed appraisal of the 1997 British government election Fifteen incisively written and well integrated articles carefully analyse the party campaigns the media and the results In depth assessment of developments in each of the main parties from 1992 to 1997 is also given covering their aims and objectives organization factionalism leadership contests and their battle for the centre ground in politics Britain Votes is essential reading for anyone with a serious interest in British politics or elections

Affective Polarisation Ifor ap Glyn,Anisia Elisabeta Petcu,2023-09-25 Inequality is an ever present danger in our society This book addresses the nexus between the lived experience of inequality and how it shapes political responses It offers a powerful examination of how the politics of the UK and the lived experiences of its residents have been reframed in the first decades of the twentyfirst century

Ibss: Political Science: 1997 British Library of Political and Economic Science,1999-01-14 Provides an unrivalled overview of intellectual development in political science

Territorial Politics and Health Policy Scott L. Greer,2004 This study identifies the different combinations of market profession management and civil society that England Northern Ireland Scotland and Wales chose in their efforts to provide health services to all It explains why these four health systems despite facing similar pressures and opportunities have developed dramatically different health policy trajectories

Britain Votes 2005 Pippa Norris,Christopher Wlezien,2005 Britain Votes 2005 provides a balanced comprehensive and topical overview of the campaign leading up to the 2005 British General Election and an analysis of the results presented in a straightforward clear and lively style for students colleagues and practitioners This is the fourth volume in the Oxford series which started in the election of 1992 Part I provides insights into the strategies and tactics adopted by the major parties news coverage on the television in newspapers and on the internet and the dynamics of the opinion polls leading up to polling day Part II analyses the outcome including the results in Scotland Wales and Northern Ireland race and gender issues economic voting the working of the electoral system and the outcome for the new Parliament Produced by a well known team of experts on British elections and voting behaviour the book is written in a vivid and accessible style The book will be essential reading for all students scholars and practitioners of British elections and voting behaviour party politics public opinion political behaviour and political sociology

Putting Voters in their Place Ron Johnston,Charles Pattie,2006-10-12 Why do people living in different areas vote in different ways Why does this change over time How do people talk about politics with friends and neighbours and with what effect Does the geography of well being influence the geography of party support Do parties try to talk to all voters at election time or are

they interested only in the views of a small number of voters living in a small number of seats Is electoral participation in decline and how does the geography of the vote affect this How can a party win a majority of seats in Parliament without a majority of votes in the country Putting Voters in their Place explores these questions by placing the analysis of electoral behaviour into its geographical context Using information from the latest elections including the 2005 General Election the book shows how both voters and parties are affected by and seek to influence both national and local forces Trends are set in the context of the latest research and scholarship on electoral behaviour The book also reports on new research findings

Parties at War Andrew Thorpe, 2009-01-08 Political parties formed the cornerstone of the liberal democracy for which Britain claimed it was fighting in the Second World War However that conflict represented the most sustained challenge to the British party system during the twentieth century War forced the suspension of normal electoral politics and exerted considerable extra demands on the time and loyalties of party activists and organizers This all posed a serious challenge to the Conservative Labour and Liberal parties Parties at War uses an unusually broad and deep range of records of the main political parties to explore how they responded to the challenge of war Extensive use of the local as well as the national level papers of the major parties offers a fuller picture than ever previously attempted Andrew Thorpe focuses on what parties actually did at both local and national levels to sustain their organization during the war He assesses the varying impacts of war not just on each of the parties but also over time and between the different regions and areas of Britain Thorpe demonstrates how wartime struggles over organization had significance not just for the election of the first majority Labour government in 1945 but also for the longer term development of party in modern British politics

This is likewise one of the factors by obtaining the soft documents of this **Regional Dynamics The Basis Of Electoral Support In Britain** by online. You might not require more epoch to spend to go to the books inauguration as well as search for them. In some cases, you likewise accomplish not discover the statement Regional Dynamics The Basis Of Electoral Support In Britain that you are looking for. It will utterly squander the time.

However below, subsequently you visit this web page, it will be correspondingly completely easy to acquire as capably as download guide Regional Dynamics The Basis Of Electoral Support In Britain

It will not tolerate many period as we tell before. You can attain it even if appear in something else at home and even in your workplace. hence easy! So, are you question? Just exercise just what we give below as with ease as review **Regional Dynamics The Basis Of Electoral Support In Britain** what you in the same way as to read!
