Regional Problems And Policies In Japan:

Regional Problems and Policies in Japan Organisation for Economic Co-operation and Development. Working Party on Regional Development Policies, 1996 *The Politics of Regional Policy in Japan* Richard J. Samuels, 2014-07-14 This is the first major study of politics and public administration in Japan to balance the prevailing view of the regional policy process from above with a view from below Developing a comparative framework for understanding the place of localities in policy making he demonstrates that relations among localities in Japan are much more important than previously supposed Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Issues and Options for U.S.-Japan Trade Policies** Robert Mitchell Stern, 2002 Addresses the central negotiating issues involving the trade policies and relations between the United States and Japan *Domestic Tourism in Asia* Shalini Singh, 2009-06-30 Many countries have a rich tradition of domestic travel and holidaying which not only predates but exceeds mass international travel This is particularly the case in Asia where recent economic prosperity and trends in globalization have not merely spurred but continue to shape traditions in domestic tourism This book is the first to address specifically the continuities and changes in domestic tourism in Asia It explores the ethos of domestic travel and holiday making in order to understand the distinctive common strands that underlie conventional and contemporary tourism practices against the local and global backdrop A considerable range of countries is covered in the case studies including those with patrimonial histories namely China and India the economically developed nation state of Japan and the microstates of Taiwan Singapore Macao and Hong Kong besides the coastal countries of Malaysia Philippines Laos and Vietnam as well as the land locked countries of Kyrgyzstan and Mongolia The book presents some of the many interfaces of Asian cultural and natural heritages with tourism while giving due considerations to today's political and economic realities **Dynamics Of Regional Innovation, The: Policy Challenges In Europe And Japan** Yveline Lecler, Tetsuo Yoshimoto, Takahiro Fujimoto, 2011-12-20 All over the world open innovation is emerging and requires much more interactions between different actors with different organizational cultures large firms and SMEs i.e. industry universities and research institutions i.e. academia as well as national and regional authorities for building the legal or incentive framework of innovation i.e. government Certainly flows of knowledge between these three spheres which are also known as the triple helix have always existed but what appears to be new in an open innovation environment is the overlapping of their missions In many areas such multi actor interactions with overlapping roles did not emerge spontaneously as was the case with the United States Based on robust cases studied by researchers and practical

experiences of personnel involved in innovation at public or private institutions this book successively discusses the policy framework in Europe and Japan the new role for universities due to intellectual property reform or technology transfer promotion the new challenges for firms in terms of licensing patents corporate venturing including entrepreneurship incubation venture capital or cross industry knowledge sharing All issues addressed in this book are clearly those toward regional innovation policies and practices that are open in nature It contains descriptions and analysis of the various approaches taken by industrial governmental and academic players in various regions of Japan Tohoku Tokyo and Europe France Belgium The mix of theoretical and empirical material collected in this book was first presented at an international symposium in Tokyo The dynamics of regional innovation is an on going issue and we are still standing at the threshold of this field of research It is exactly why such a book is needed now Regional Problems and Policies in OECD Countries Organisation for Economic Co-operation and Development,1976 **The Future of U.S. Foreign Policy: Regional issues** United States. Congress. House. Committee on Foreign Affairs,1993 Post-Cold War Security Issues in the Asia-Pacific Region Colin McInnes,Mark Rolls,2013-07-23 The Asia Pacific region presents a challenge to international security in the post Cold War era Doubts as to the US military commitment concern with Japan s security aspirations build up of military capabilities and the nuclear ambitions of North Korea have further heightened tension The Challenges of the U.S.-Japan Military Arrangement Anthony DiFilippo,2002 This is an in depth analysis of the U S Japan security alliance and its implications for Japan and the Asia Pacific region It moves away from the official line that the alliance is a vital aspect of Japan s security policy and introduces issues and arguments that are often overlooked American security policy has failed to achieve its goals Japan s interests are not fully served by the alliance the alliance itself is a source of instability in the region and the arrangement has placed constraints on Japan s own political development The author measures current developments in U S foreign policy against Japan s role in the region and Japan s own political development He assesses the consequences of the alliance for the current regional situation in Northeast Asia looks at future policy options for Japan and makes the case for a neutralist security policy Problems of Communism ,1984 **The Foreign Policy of Modern Japan** Robert A. Global Issues Kristen Boon, Aziz Huq, 2009 Terrorism Commentary on Security Documents Volume 103 Global Issues continues the recent changes to this series that have justified a new publisher brand a new title and a re designed cover That new title emphasizes the expert commentary now provided by three leading scholars in the field Doug Lovelace Director of the Army War College s Strategic Studies Institute Kristen Boon of Seton Hall Law School and Aziz Huq of the University of Chicago School of Law In this particular volume Lovelace updates researchers on new developments in various regions of the world He devotes many pages to the debacle along the Afghanistan Pakistan border where Pakistan

harbors extremists conducting the insurgency in Afghanistan Both the documents selected by Lovelace and his insightful commentary describe how the U S under advice from Special Envoy Dick Holbrooke has changed its approach to the problem by treating Afghanistan and Pakistan as one party instead of two Volume 103 Global Issues also examines the complex issue of China s possible assistance to terrorists overseas For example some weapons used against coalition forces in Afghanistan originate from China despite China s promise to help the U S in its war against terror Lovelace and the documents he presents also assess India s measured thoughtful reaction to allegations that Pakistan facilitated the November terrorist attacks in Mumbai The volume also alerts readers to disturbing developments in South America where such groups as FARC in Colombia and The Shining Path in Peru have persisted in their profit seeking campaigns of violence despite those countries general success in diminishing their power
