Regions And Powers The Structure Of International Security:

Regions and Powers Barry Buzan,Ole Wæver,2003-12-04 This book develops the idea that since decolonisation regional patterns of security have become more prominent in international politics The authors combine an operational theory of regional security with an empirical application across the whole of the international system Individual chapters cover Africa the Balkans CIS Europe East Asia EU Europe the Middle East North America South America and South Asia The main focus is on the post Cold War period but the history of each regional security complex is traced back to its beginnings By relating the regional dynamics of security to current debates about the global power structure the authors unfold a distinctive interpretation of post Cold War international security avoiding both the extreme oversimplifications of the unipolar view and the extreme deterritorialisations of many globalist visions of a new world disorder Their framework brings out the radical diversity of security dynamics in different parts of the world

The Geopolitics of Region Building in the Black Sea Yannis Tsantoulis,2020-12-17 Offering theoretical insights on region building this book explores the attempts to formulate a political and institutional vision for the Black Sea region in the post 9 11 era and in the context of the enlargements of the EU and NATO It investigates in depth these attempts viewed as a failure by the key actors involved in order to understand how regions emerge in international politics as well as how and why they may fail to come into being To this end the book explores a range of factors that impacted region building in the Black Sea considering the role of region builders involved their practices and the context of their actions and the spatial representations and security discourses that were integral to the region building process Hence attention is paid to how these factors both enabled and constrained the discursive construction of the Black Sea region thus identifying the elements that distinguish the Black Sea from other successful cases of region building Based on critical approaches towards

international relations and political geography this book both expands and deepens the scope and understanding of regions and will thus appeal to academics and students in the fields of International Relations Security Studies Political Geography and Regional Integration *The Palgrave Encyclopedia of Global Security Studies*, 2023-02-15 This encyclopedia provides an authoritative guide intended for students of all levels of studies offering multidisciplinary insight and analysis of over 500 headwords covering the main concepts of Security and Non traditional Security and their relation to other scholarly fields and aspects of real world issues in the contemporary geopolitical world South Asian Security Sagarika Dutt, Alok Bansal, 2013-06-17 The South Asian security complex refers to security interdependencies between the states in the region and also includes the effect that powerful external actors such as China the US and Russia and geopolitical interests have on regional dynamics This book focuses on the national securities of a number of South Asian countries in order to discuss a range of issues related to South Asian security The book makes a distinction between traditional and non traditional security While state centric approaches such as bilateral relations between India and Pakistan are considered to be traditional realist approaches to security the promotion of economic environmental and human security reflect global concerns liberal theories and cosmopolitan values The book goes beyond traditional security issues to reflect the changing security agenda in South Asia in the twenty first century and is a useful contribution to studies on South Asian Politics and Security Studies

Security Strategies, Power Disparity and Identity Olav F. Knudsen, 2017-11-30 What is power and how is it effective This volume responds to these questions in terms of regional international relations with a particular focus on the Baltic Sea region an area still charged with a residue of Cold War conflict and power disparity in a setting of new cooperative ventures Each contributor examines the region from a different angle and discusses how its actors coped with the new situation facing them after 1991 The volume looks at how governments have defined their new circumstances how they have dealt with the opportunity to shift to a new mode of coexistence and collaboration and how they have tackled the challenge of peacefully converting their region to a security community The book breaks with tradition by adopting a new thematic approach based on regional issues and functions rather than a country by country discourse It will be of critical value to readers interested in security studies and European politics **Maritime Security Complexes of the Indo-Pacific Region** Dr Vijay

U.S. Security Cooperation with Africa Robert J. Griffiths, 2016-04-14 As Africa s strategic importance has increased over the past decade and a half United States security cooperation with the continent has expanded The most visible dimension of this increased engagement was the establishment of the U S Military Command for Africa AFRICOM Some critics are skeptical of AFRICOM s purpose and see the militarization of U S Africa policy while others question its effectiveness Recognizing the link between development and security AFRICOM represents a departure from the traditional organization of military commands because of its holistic approach and the involvement of the Department of State as well as other U S government stakeholders Nevertheless AFRICOM s effort to combine security and development faces formidable conceptual and operational challenges in trying to ensure both American and African security interests The human security perspective s emphasis on issues that go beyond traditional state centered security to include protecting individuals from threats of hunger disease crime environmental degradation and political repression as well as focusing on social and economic justice is an important component of security policy At the same time the threat of violent extremism heavily influences U S security cooperation with Africa In this examination of the context of U S African security relations Robert J Griffiths outlines the nature of the African state traces the contours of African conflict surveys the post independence history of U S involvement on the continent and discusses policy organization and implementation and the impact of U S experiences in Iraq and Afghanistan on the U S Africa security relationship Africa s continuing geostrategic significance the influence of China and other emerging markets in the region and America s other global engagements especially in light of U S fiscal realities demonstrate the complexity of U S African security cooperation

Tow, 2009-10-15 Asia is experiencing major changes in its security relations This book brings together respected experts to assess both the theoretical and empirical dimensions of the Asian security debate Building on the latest research on Asia s regional security politics it focuses on the regional global nexus as a way to understand the dynamics of Asian security politics and its intersection with global security Contributors to the volume offer diverse but complementary perspectives on which issues and factors are most important in explaining how

security politics in Asia can be interpreted at both the regional and global levels of analysis Issues addressed include power balancing and alliances governance and democracy maritime and energy security the relationship between economics and security human security terrorism nuclear non proliferation climate change and pandemics This work will serve as a standard reference on the evolution of key issues in Asian security *Policing Northeast Asia* Se Hyun Ahn, 2020-06-02 This book explores the progress in and the obstacles surrounding developing comprehensive security cooperation between Russia and South Korea since diplomatic relations were established in 1991 within the framework of economic security The book focuses on oil and natural gas projects linking the Trans Siberian and Trans Korean Railroads industrial development in the Nakhodka Free Economic Zone fishery cooperation and the arms trade and examines whether these five aspects of cooperation serve to contribute to building Russian South Korean bilateral and regional economic security The author argues that these five aspects of cooperation all have the potential to enhance comprehensive bilateral security and further regional economic security in Northeast Asia However Russian South Korean economic cooperation has been hampered by a number of obstacles including domestic factors as well as external factors and prevented Russia and South Korea from fulfilling their potential for creating a cooperative comprehensive security relationship The author concludes with an assessment on the utility of the concept of multi dimensional security cooperation as a framework for studying and improving the prospects for Russian South Korean bilateral relations Multilateral Asian Security Architecture See Seng Tan, 2015-07-16 This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia s multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN s significance to the successes and failures of Asia s multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia s regional architecture the fact remains that the countries considered here notwithstanding their present discontent over the state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics international organisations security studies and IR more generally *Maritime Security Cooperation in the Gulf of Guinea* Kamal-Deen Ali, 2015-07-28 In *Maritime Security Cooperation in the Guinea Prospects and Challenges* Kamal Deen Ali provides ground breaking analyses of the maritime security situation in the Gulf of Guinea and its implications for shipping energy security sustainable fisheries as well as national and regional security The book juxtaposes the growing strategic importance of the Gulf of Guinea against the rising insecurity in the maritime domain especially from

piracy Ali points out key gaps in prevailing regional and international approaches to maritime security cooperation in the Gulf of Guinea and sets out several suggestions for combating piracy as well as other maritime security threats while effectively enhancing maritime security cooperation in the region **Foreign Policy** Steve|Dunne Smith (Tim|Hadfield, Amelia|Kitchen, Nicholas|Smith, Steve),2024 **Rethinking Power, Institutions and Ideas in World Politics** Amitav Acharya,2014-01-10 The study of international relations has traditionally been dominated by Western ideas and practices and marginalized the voice and experiences of the non Western states and societies As the world moves to a post Western era it is imperative that the field of IR acquires a more global meaning and relevance Drawing together the work of renowned scholar Amitav Acharya and framed by a new introduction and conclusion written for the volume this book exposes the narrow meaning currently attached to some of the key concepts and ideas in IR and calls for alternative and broader understandings of them The need for recasting the discipline has motivated and undergirded Acharya s own scholarship since his entry into the field over three decades ago This book reflects his own engagement quarrels and compromise and concludes with suggestions for new pathways to a Global IR a forward looking and inclusive enterprise that is reflective of the multiple and global heritage of IR in an changing and interconnected world It is essential reading for anyone who is concerned about the history development and future of international relations and international relations theory The EU and the European Security Order Rikard Bengtsson,2009-09-10 This book attempts to conceptualise EU action in the field of regional security Drawing on constructivist theory the framework of the book focuses on the meeting or interface of actors a situation reflecting the mutual construction of self other and situation The analytical framework applied here to European security politics is potentially open ended as the theoretical logic that informs the framework is general and abstract in character and not limited to state actors in an international setting The empirical aim of this book is to further our understanding of the EU as a security actor in a regional perspective The book thus links International Relations scholarship with that of EU studies By analyzing a number of different interfaces such as with Russia the US and other states we can learn more about the circumstances and preconditions and with what resources and power the EU acts in a regional security setting This book will be of great interest to students of European security EU policy IR theory and security studies in general Rikard Bengtsson is Assistant Professor of Political Science at Lund University Sweden He has a PhD in Political Science from Lund University Sweden
