Science of Last Rites Dr. Mita Shah Ph.D., 2018-05-15 This book Science of Last Rites An insightful journey into the World of Spirit is a unique book in itself It deals with the science of last rites performed for the departed loved one The traditions customs and methods of these rites may differ from religion to religion and culture to culture according to time place and circumstances However the belief remains the same The soul after leaving the physical body has to move forward which is possible only when the soul is at peace The author has very insightfully used the regression in life between life states to find out what happens when rituals prayers food or donation are offered in the name of the departed soul In case it has any effect how will the spirit receive this You will find out how small things like reading the scriptures lighting a light bathing the dead body the rites themselves help the departed souls and the survivors This is an unusually interesting and an extensively well researched book

Spiritual Energy Forces Nessa Phoenix, AI, 2025-02-14 Spiritual Energy Forces explores the profound concepts of Chi Prana and Kundalini examining their role in spiritual growth and holistic well being These energies fundamental to diverse spiritual traditions represent the life force influencing physical health mental clarity and spiritual connection The book emphasizes that cultivating and harmonizing these energies offers a tangible means to enhance overall well being and connect more deeply with oneself and the universe It challenges superficial understandings of spiritual energy advocating for a more informed and integrated approach drawing from ancient Chinese Indian and Tibetan philosophies The book progresses by introducing Chi Prana and Kundalini then delves into each energy individually detailing their characteristics and cultivation methods It explores energy pathways like meridians and chakras explaining how imbalances manifest as ailments It also examines practical techniques like breathing exercises and meditation for harnessing these energies By drawing upon historical texts cross cultural analyses and contemporary research in mind body medicine and energy psychology Spiritual Energy Forces provides a holistic understanding of these systems

Looking In, Seeing Out Minas C. Kafatos, 1991-10-01 Most books on science and mysticism attempt to link modern physics to philosophic views of consciousness This book

explores the two as parallel processes one outer one inner Our outward search is for objective reality out there in the world But what we experience as outer is linked to what we can know in ourselves subjectively The inward search is for that level of consciousness that underlies all subjective experience spoken of by the mystics Like other recent others Drs Kafatos and Karatou find parallels between Eastern thought and recent scientific developments in quantum theory and cosmology But they go farther and hold that the realms of consciousness and the objective world are complementary aspect of the same reality Their approach is fresh and unique and shows how we are involved in the cosmic process
