NASA's Scientist-Astronauts Shayler David, Colin Burgess, 2007-09-19 Mounting pressure in the early 1960s from the National Academy of Sciences NAS to study ways of expanding the role of astronauts to conduct science on future space missions led to NASA's conclusion that flying scientifically trained crewmembers would generate greater returns from each mission NASA and industry studies continued investigating possibilities that could lead to the eventual creation of the first space stations using surplus Apollo hardware through the Apollo Applications Programme AAP There was also a growing interest within the military to create their own manned space station programme conducting on orbit experiments and research with strategic advantages for national security In October 1964 the Soviets launched Voskhod 1 whose 3 man crew were identified as the first scientific passengers in space A few days later NASA and the NAS had completed joint studies into the possibility of using scientists in the manned space programme and invited scientists to apply for astronaut training In selecting the first

group of scientist astronauts NASA had one firm requirement any person accepted into the programme would have to qualify as a military jet pilot While the second group of scientists were completing their academic survival and flight training programme the remaining members of the first scientist astronaut group were involved in supporting the developing Apollo Applications programme and the Apollo lunar programme

Awakening Righteousness Justin V LeBlanc,2024-09-24 Awakening Righteousness The Great Awakening of Truth Behind the Flat Earth is a journey into the hidden truths of our world challenging the conventional understanding of Earth s shape history and purpose Rooted in biblical scripture and scientific inquiry this book explores the long suppressed secrets that have been concealed from humanity urging readers to open their minds and hearts to a new perspective Drawing upon the wisdom of the King James Bible and ancient texts this thought provoking work unravels mysteries of our past including the existence of giants the manipulation of historical narratives and the power of frequency vibration and energy as foundational principles of creation The book begins with the core question What if everything we ve been taught about the world the universe and even the nature of Earth itself is not as it seems Through scripture scientific research and historical evidence the author unveils the reality behind the flat earth theory an ancient belief that has resurfaced in modern times as a radical challenge to the dominant heliocentric model In the chapter on giants the book dives into biblical and historical records revealing a race of colossal beings the Nephilim who once walked the Earth These giants born from the union of fallen angels and human women were mighty and powerful shaping ancient civilizations with their advanced knowledge Citing passages from Genesis the Book of Enoch and other scriptures the author explains how these beings were central to the moral corruption of humanity leading to the Great Flood and their eventual erasure from history by those in power The book also exposes how institutions secret societies and governments have actively suppressed the truth about giants and the flat earth manipulating knowledge to maintain control over the masses This larger conspiracy is to prevent the public from uncovering the true origins of humanity and Earth s design Furthermore the book explores the profound impact of frequency and vibration on our reality inspired by the works of Nikola Tesla and Masaru Emoto It examines how sound and energy influence matter at a molecular level as demonstrated by Emoto s experiments on water and how the universe operates through these invisible forces By understanding the fundamental role that frequency and vibration play in creation the book

ties these concepts to biblical accounts of God speaking the world into existence such as in Genesis 1:3 And God said Let there be light and there was light Through this lens Awakening Righteousness challenges readers to rethink the nature of our universe encouraging them to reject the globe model and embrace a deeper divinely inspired understanding of Earth Justin V LeBlanc addresses questions about the sun moon stars and celestial bodies in the flat earth framework providing explanations for phenomena like seasons day and night cycles and the movement of the heavens All of this is intricately tied to God's divine plan and the biblical truth about the creation of the world This book is not merely about scientific debate it is a spiritual awakening calling for a return to righteousness and a deeper connection to God's word As the author weaves together scripture scientific inquiry and historical evidence readers are invited to awaken to the reality that has been hidden from them for centuries Awakening Righteousness offers a clarion call to those who seek truth freedom and spiritual enlightenment It stands as a beacon for those willing to challenge the status quo urging them to embrace the wisdom of the Bible question mainstream narratives and discover the divine design behind our world With each revelation readers are empowered to break free from deception embrace the truth and walk in righteousness toward a greater understanding of God's plan for humanity
