Coalition Politics and Cabinet Decision Making Juliet Kaarbo, 2012-04-17 Every day coalition cabinets make policy decisions critical to international politics Juliet Kaarbo examines the dynamics of these multiparty cabinets in parliamentary democracies in order to assess both the quality of coalition decision making and the degree to which coalitions tend to favor peaceful or military solutions Are coalition cabinets so

riddled by conflict that they cannot make foreign policy effectively or do the multiple voices represented in the cabinet create more legitimate and imaginative responses to the international system Do political and institutional constraints inherent to coalition cabinets lead to nonaggressive policies Or do institutional and political forces precipitate more belligerent behavior Employing theory from security studies and political psychology as well as a combination of quantitative cross national analyses and twelve qualitative comparative case studies of foreign policy made by coalition cabinets in Japan the Netherlands and Turkey Kaarbo identifies the factors that generate highly aggressive policies inconsistency and other policy outcomes Her findings have implications not merely for foreign policy but for all types of decision making and policy making by coalition governments

*The United States and Northeast Asia* G. John Ikenberry,Chung-in Moon,2007-12-24 Since World War II the United States has played a crucial role in shaping Northeast Asian politics and economics However as this authoritative book shows the Cold War s demise September 11 and America s major strategic realignments have unleashed seismic changes in the region China s rise Japan s

quest for a normal state and the North Korean nuclear quagmire are also potential flashpoints Collective memories of past aggression as well as resurgent nationalism further complicate regional dynamics But hopeful signs abound as deepening economic interdependence expanding social and cultural exchanges and the proliferation of informal economic social and cultural networks have improved the chances for a peaceful evolution to a liberal and stable region Contributions by Vinod K Aggarwal Paul Bacon Avery Goldstein G John Ikenberry Takashi Inoguchi Ki Jung Kim Myongsob Kim Woosang Kim Yongho Kim Min Gyo Koo Michael Mastanduno Chung in Moon Katharine H S Moon Seung won Suh and William C Wohlforth

**Japan's Re-emergence as a 'Normal' Military Power** Christopher Hughes,2013-11-05 Is Japan re emerging as a normal or even a great military power in regional and global security affairs This Adelphi Paper assesses the overall trajectory of Japan s security policy over the last decade and the impact of a changing Japanese military posture on the stability of East Asia The paper examines Japan s evolving security debate set against the background of a shifting international environment and domestic policymaking system the status of Japan s national military capabilities and constitutional prohibitions post Cold War developments in the US Japan alliance and Japan s role in multilateral regional security dialogue UN PKO and US led coalitions of the willing It concludes that Japan is undoubtedly moving along the trajectory of becoming a more assertive military power and that this trend has been accelerated post 9 11 Japan is unlikely though to channel its military power through greatly different frameworks than at present Japan will opt for the enhanced and probably inextricable integration of its military capabilities into the US Japan alliance rather than pursuing options for greater autonomy or multilateralism Japan s strengthened role as the defensive shield for the offensive sword of US power projection will only serve to bolster US military hegemony in East Asia and globally *Overcoming Isolationism* Paul Midford,2020-07-14 This book asks why in the wake of the Cold War Japan suddenly reversed years of steadfast opposition to security cooperation with its neighbors Long isolated and opposed to multilateral agreements Japan proposed East Asia s first multilateral security forum in the early 1990s emerging as a regional leader Overcoming Isolationism explores what led to this surprising about face and offers a corrective to the misperception that Japan s security strategy is reactive to US pressure and unresponsive to its neighbors Paul Midford draws on newly released official documents and extensive interviews to reveal a quarter century of Japanese leadership in promoting regional security cooperation He demonstrates that Japan has a much more nuanced relationship with its neighbors and has played a more significant leadership role in shaping East Asian security than has previously been recognized **The Politics of Identity** Sheila Miyoshi Jager,2007 Both the Taiwan Strait and the Korean peninsula harbor real dangers for the Northeast Asian region The clash between an increasingly divergent nationalist identity in China and in Taiwan represent a new challenge for U S policy in this area Similarly the rise of pan Korean nationalism in South Korea and an unpredictable North Korean regime that has succeeded in driving a wedge between Seoul and Washington has created another highly combustible zone of potential conflict The author

explores how the United States might respond to the emerging new nationalism in the region in order to promote stability and peace Offering a constructivist approach which highlights the central role that memory history and identity play in international relations the monograph offers wide ranging implications for U S foreign policy
