From Revelation to Revolution Chukwudi Chuck Eke, 2022-01-12 The book *From Revelation to Revolution: iClouds of Witnesses for Developing and Driving Your Mind to Success in Career and Business* shows how entrepreneurs, career professionals, freelancers, and the faithful can develop and drive their minds to get revelations and simultaneously turn them into revolutionary products and services benefitting the producer and consumers. It's a faith-driven book propelled with the mindset of reason and science, precisely psychology, economics, sociology, anthropology, etc. Beginning with his own successful life-transforming experiences driven by his grit mindset and the resilient spirit of God at work in him, the author draws from similar experiences of icons of success such as Barack Obama, Oprah Winfrey, Jeff Bezos, Tony Elumelu, Mark Zuckerberg, Serena Williams, Anderson Cooper, Arianna Huffington, etc. to show that in this COVID-19 propelled global economy and even beyond, you can still turn your revolutionary revelations and ideas into trailblazing products and services for the good of humanity by practicing the time-tested principles detailed in this book. The principles are God-ordained for humans to succeed in their chosen fields or endeavors. No matter the field of your career, from technology to theology or from architecture to agriculture, these principles will enable you to revolutionize your ideas and visions into products, thereby earning you huge success while benefiting the public. The author asserts that if the success icons he refers to as Clouds of Witnesses succeeded with these principles in spite of the storms and uncertainties of the global marketplace, you can also win with these principles. This book is for career professionals, freelancers, entrepreneurs, and everyone desiring mind transformation from all walks of life. It's specially made for Christians and faith-propelled people who need moral, rational, and psychological boosts to get up and running with their revolutionary ideas and visions to pacesetting attainments in the COVID-19 driven economy and beyond.

The Darkening Spirit David Tacey, 2013-06-26 The twenty-first century could well be Jung's century just as the twentieth century was Freud's. Jung predicted the demise of secular humanism and claimed we would search for alternatives to science, atheism, and reason. We would experience a new and even unfashionable appetite for the sacred. Educated people, however, would not return to unreconstructed religions because these do not express the life of the spirit as discerned by modern consciousness. The sacred has developed a darker hue and worshipping symbols of light and goodness no longer satisfies the longings of the soul. The new sacred cannot be contained by the formulas of the past but nor can we live without a sense of the sacred. We stand in a difficult place between traditional religions we have outgrown and a pervasive materialism we can no longer embrace. These changes in our culture have come sooner than Jung might have imagined. In his time, Jung struck many as eccentric or unscientific. But his works speak to our time since we have experienced the full gamut of Jungian transformations: the unsettling of Judeo-Christian culture, the rise of the feminine, the onslaught of the dark side, the critique of modernism and positivism, and the recognition that the Western ego is neither the pinnacle of evolution nor the lord of creation. A new life is needed beyond the ego, but we do not yet know what it will look like. The

outbreak of strong religion and terrorism are signs of the times but these are expressions of a distorted and repressed spirit and not one hopes genuine pointers to the future What the future holds is uncertain but Jung s prophetic vision helps to prepare us for what is to come and this will be of great interest to analytical psychologists and psychoanalysts as well as to theologians futurists sociologists and the general reader Life Sciences, Information Sciences Thierry Gaudin,Dominique Lacroix,Marie-Christine Maurel,Jean-Charles Pomerol,2018-03-15 Developed from presentations given at the Cerisy SVSI Sciences de la vie sciences de l information conference held in 2016 this book presents a broad overview of thought and research at the intersection of life sciences and information sciences The contributors to this edited volume explore life and information on an equal footing with each considered as crucial to the other In the first part of the book the relation of life and information in the functioning of genes at both the phylogenetic and ontogenetic levels is articulated and the common understanding of DNA as code is problematized from a range of perspectives The second part of the book homes in on the algorithmic nature of information questioning the fit between life and automaton and the accompanying division between individualization and invariance Consisting of both philosophical speculation and ethological research the explorations in this book are a timely intervention into prevailing understandings of the relation between information and life *Meditation and Tarot* Chanda Parkinson,2025-08-05 Release Mental Clutter and Elevate Your Readings With kindness and deep insight Chanda Parkinson presents a fresh perspective on learning and working with tarot cards She teaches you how to combine the power of tarot with the art of meditation to deepen mindfulness cultivate intuition and unlock your inner wisdom Chanda explores the major arcana in depth showing you each card s correspondences overall theme related meditation and more She then guides you through the minor arcana suit by suit sharing meditations and number meanings according to wands swords pentacles and cups Chanda also supplies meditations for the court cards so you can easily connect them to people in your life Based on the classic Rider Waite Smith system this beginner friendly book features card art from various decks as well as exercises and journal prompts designed to help you improve relationships solve problems and understand yourself on a deeper level Now you can develop a rich powerful relationship with the tarot through meditation Chanda Parkinson offers a truly fresh perspective on working with and learning the cards With kindness and insight she guides us through experiences that combine the power of tarot and of meditation to deepen mindfulness cultivate intuition and unlock our inner wisdom From the foreword by Barbara Moore author of *The Steampunk Tarot* **Understanding and Applying Medical Anthropology** Peter J. encounters to cultural analysis of new biomedical technologies and the implementation of programs in global health settings The new edition features a major revision that eliminates many older readings in favor of more fresh relevant selections a new section on structural violence that looks at the impact of poverty and other forms of social marginalization on health an updated and expanded section on Conceptual Tools including new research and ideas that are currently driving the field of medical anthropology forward such as epigenetics and syndemics new chapters on climate change Ebola PTSD among Iraq Afghanistan veterans eating disorders and autism among others recent articles from Margaret Mead Award winners Sera Young Seth Holmes and Erin Finley along with new articles by such established medical anthropologists as Paul Farmer and Merrill Singer *The World Conspires* David W. Theory and Practice Ian Jarvie, 2012-12-06 I C Jarvie was trained as a social anthropologist in the center of British social anthropology the London School of Economics where Bronislaw Malinowski was the object of ancestor worship Jarvie's doctorate was in philosophy however under the guidance of Karl Popper and John Watkins He changed his department not as a defector but as a rebel attempting to exorcize the ancestral spirit He criticized the method of participant observation not as useless but as not comprehensive it is neither necessary nor sufficient for the making of certain contributions to anthropology rather it all depends on the problem situation And so Jarvie remained an anthropologist at heart who in addition to some studies in rather conventional anthropological or sociological molds also studied the tribe of social scientists but also critically examining their problems especially their overall rather philosophical problems but not always so a few of the studies included in this volume exemplify his work on specific issues whether of technology or architecture or nationalism in the academy or moviemaking or even movies exhibiting excessive sex and violence These studies attract his attention both on account of their own merit and on account of their need for new and powerful research tools such as those which he has forged in his own intellectual workshop over the last two decades
