Relationships A Dialectical Perspective:

Relationships Robert A. Hinde, 1997 This single author volume on close relationships in adulthood discusses the central issues in the field and points the way towards integrating our knowledge about human relationships The self interactions relationships and groups are treated as dynamic processes in dialectical relations with each other and with the socio cultural structure of norms values beliefs and institutions The focus is on current work and current controversy placed against a background of the knowledge that has been built up in recent decades The book is suitable for advanced undergraduates and graduate students and for research workers and clinicians Literature from diverse disciplines is covered in a list of about 1600 titles

The Contemporary American Family Teresa Chandler Sabourin, 2003-04-07 I find the book extremely attractive The dialectical perspective provides a consistent avenue from which to address the diversity structural cultural developmental and functional in Contemporary American Families Whereas this perspective does not claim to solve the tensions in families it offers marvelous insights into the nature and changing diversities in families I believe this text is particularly well suited for reasonable discussion of serious issues and provides valuable insights into the nature of families and their functioning Vince Bloom California State University Fresno Teresa Chandler Sabourin invites students to appreciate the mystery complexity and diversity of the contemporary American family Resisting simplistic descriptions and normative descriptions Sabourin challenges us to open our minds and hearts to the rich humane variety of family connections as we search for ways to accommodate the competing demands and conflicting pressures experienced in our most cherished relationships Starting from the source of her own experience Sabourin addresses both the darker abusive side of family relationships as well as the lighter spiritual side of intimacy and love The Contemporary American Family successfully addresses the need for an accessible and teachable treatment of the dialectical perspective on close relationships This is a book that will encourage students of family communication to respect diversity question taken for granted assumptions and share the pain and joy and of their own family experiences Art Bochner University of South Florida Increasingly diverse in structure and culture contemporary families defy explanation by many traditional linear methods In order to understand the enormous impact that diversity has on the behaviors and relationships within the family scholars and students need a means to embrace rather than solve relational contradictions The Contemporary American Family A Dialectical Perspective on Communication and Relationships recognizes that families are both close and distant stable and changing amenable and uncontrollable Teresa Chandler Sabourin employs a dialectical approach acknowledging that a family's contradictions and relational tensions may be the determining factor in its interaction Writing in a direct and simple style Sabourin uses this innovative theoretical position to address four types of family diversity structural cultural developmental and functional Sure to stimulate discussion and further research this provocative volume examines The dialectic process in the context of family communication and relationships The redefined more inclusive American family Contemporary family structures Cultural

diversity in the family Issues such as alcoholism domestic violence and divorce Spirituality within the family Designed as a supplemental text for upper level undergraduate and graduate courses in Family Communication The Contemporary American Family is also an invaluable resource for students in Family Studies and Women s Studies courses *Dialectical Approaches to Studying Personal Relationships* Barbara M. Montgomery, Leslie A. Baxter, 2013-09-13 This book describes many different and useful ways of understanding personal relationships from a dialectical perspective It is written for scholars in higher education both faculty and students across many fields within the social sciences and the humanities who seek answers to questions about how people relate to one another The book is valuable for all scholars who pursue new ideas because it models a form of scholarly communication in which multiple voices can be acknowledged as valid the worth of one perspective is not measured by the denigration of another and difference is celebrated as conducive to learning rather than threatening to it The contributors emphasize the characteristics of their dialectical view that set them apart from other dialectical authors and describe their methods of studying relationships from a dialectical perspective Following the Bakhtinian perspective they honor the values of dialogism by respecting different and sometimes contradictory views assuming that these views can be valid and joining in a discussion with the editors and other contributors about their emerging work They also acknowledge that the chapters in this text are part of an ongoing process to frame and reframe emerging ideas and allow the dialogue that occurs within this frame the freedom to express creative unique ideas **Close Encounters** Laura K. Guerrero, Peter A. Andersen, Walid A. Kierkegaard's Incarnational Mission Michio Ogino, 2025-06-30 One lacuna in Søren Kierkegaard scholarship is in analyzing his works with his self-described identity as a missionary to Christendom in mind. Challenging the international connotation of the term missionary, Dr. Michio Ogino examines Kierkegaard's works in which he identified himself as a missionary writer to reveal how he considered being a missionary an integral part of being a Christian. By chronologically and empirically examining the writings of Søren Kierkegaard, Dr. Ogino argues that Kierkegaard not only proclaimed Jesus Christ in his homeland but did so in a manner similar to how Christ had done on earth, incarnating the Christian message for his contemporaries. Through this provocative exploration, Ogino lays out how the application of Kierkegaardian mission can help to overcome five recognized barriers in Japanese evangelization. Kierkegaard scholars and readers will find a new understanding of the motivations and reasoning behind his works, and missionaries not only to Japan but all nations will be encouraged in how his approach can be applied in their context.
