Relativism Interpretation And Confrontation:

Relativism Michael Krausz, 1989 Recent years have seen a vigorous revival of interest in relativism both in support and in opposition This collection of 21 essays 16 of which appear in print here for the first time advances the discussion found in an earlier volume *Relativism Cognitive and Moral* These present selections focus on philosophical and methodological issues of relativism by exhibiting its varieties and by rehearsing its virtues and vices The contributions concern relativism in a wide range of practices in the human studies

Practical Identity and Narrative Agency Kim Atkins, Catriona Mackenzie, 2010-06-07 The essays collected in this volume address a range of issues that arise when the focus of philosophical reflection on identity is shifted from metaphysical to practical and evaluative concerns They also explore the usefulness of the notion of narrative for articulating and responding to these issues The chapters written by an outstanding roster of international scholars address a range of complex philosophical issues concerning the relationship between practical and metaphysical identity the embodied dimensions of the first personal perspective the kind of reflexive agency involved in the self constitution of one's practical identity the relationship between practical identity and normativity and the temporal dimensions of identity and selfhood In addressing these issues contributors engage with debates in the literatures on personal identity phenomenology moral psychology action theory normative ethical theory and feminist philosophy

Intention Interpretation Gary Iseminger, 2010-08-12 an excellent and comprehensive discussion of a debate that was initiated in this century in William Wimsatt's and Monroe C Beardsley's influential article *The Intentional Fallacy* this is a splendidly conceived and very useful collection of essays Readers will want to take issue with the arguments of individual authors but this is to be expected in a volume at the cutting edge of a fertile philosophical controversy David Novitz *The Philosophical Quarterly* What is the connection if any between the author's intentions in while writing a work of literature and the truth acceptability validity of interpretive statements about it With this question Gary Iseminger introduces a literary debate that has been waged for the past four decades and is addressed by philosophers and literary theorists in *Intention and Interpretation* Thirteen essays discuss the role of appeals to the author's intention in interpreting works of literature A well known argument by E D Hirsch serves as the basic text in which he defends the appeal to the author's intention against Wimsatt and Beardsley's claim that such an appeal involved the intentional fallacy The essays mostly commissioned by the editor explore the presuppositions and consequences of arguing for the importance of the author's intentions in the way Hirsch does Connections emerge between this issue and many fundamental issues in metaphysics and the philosophy of mind as well as in aesthetics The old New Criticism and current Post Structuralism tend to agree in disenfranchising the author and many people now are disinclined even to consider the alternative Hirsch demurs and arguments like his deserve the careful attention both from critics and sympathizers that they receive here Literary scholars and philosophers who are sympathetic to Continental as well as to Anglo American styles of philosophy are among the contributors This is a timely book

appearing as it does when postmodernist views of the death of the author are disappearing quickly from the scene As a collection it exemplifies the best work that is being done on this problem at the moment and it will no doubt inspire further debate The Journal of Aesthetics and Art Criticism This volume contains important articles illuminating the central debate over the role and relevance of authorial intentions in literary interoperation British Journal of Aesthetics

Facing Relativism Alyssa Luboff, 2020-05-19 This book tackles the difficult task of defending relativism in the age of science It succeeds where others have failed by combining the rigor of analytic philosophy with the first hand insights of anthropological experience Typically an anthropologist's work on relativism offers rich examples of cultural diversity but lacks philosophical rigor while a philosopher's work on relativism offers rigorous argumentation but lacks rich anthropological examples Facing Relativism written by a North American philosopher who lived in the Ecuadorian rainforest does both Relativism at a global scale is a view that our claims about the world both theoretical and practical are evaluable only relative to a context shaped by factors such as culture history language and environment or a way of life It can be at once intuitive and disturbing While we might expect a way of life to exert some influence on our claims relativism seems to move to the overly strong conclusion that all of our claims about what is true or good must merely be expressions of cultural bias It easily opens itself to a host of charges including paradox and self contradiction Facing Relativism argues that such problems arise largely from a failure to situate the view within the context that has throughout its long history been its inspiration the experience whether through literature the imagination or direct anthropological contact of deeply engaging with a very different way of life By starting with a careful analysis of the experience of deep engagement this book shows that relativism is neither as incoherent nor as alarming as we tend to think In fact it might just offer the tools we need to face these times of global crisis and change Alyssa Luboff has produced an exceptional defense of a cultural relativism that recognizes how the epistemic and the ethical intertwine in a way of life Drawing from her deep engagement over many years with the Chachi and traditional Afro Ecuadorian people she provides vivid and compelling examples of how one can come to understand another way of life as well reasoned coherent and integrated as challenging to one's own commitments at the same time that one challenges it Luboff combines her deep engagement with command of the relevant philosophical and anthropological literature She presents the major arguments against relativism in a sympathetic and generous way and carefully responds with a sophisticated relativism that acknowledges how the world resists and responds to different conceptual shapings of it This book is beautifully written and will engage both the academic specialist and the intelligent general reader David Wong Duke University By the time her brilliant faceoff is over philosophical relativism will never again be seen as a straw man Richard A Shweder University of Chicago This book will interest readers who seek an astute account of how the pursuit of truth whether relative or absolute enters into practices of power Luboff's treatment is impressive Michael Krausz Bryn Mawr

College and Linacre College Oxford University **Love and Power** Michael J. Perry, 1991-10-17 In this sequel to his *Morality Politics and Law* Michael Perry addresses the proper relation of moral convictions to the politics of a morally pluralistic society While his analysis focuses on religious morality Perry's argument applies to morality generally Contending that no justification of a contested political choice can be neutral among competing conceptions of human good the author develops an ideal of ecumenical politics in which moral convictions about human good can be brought to bear in a productive way in political argument Hegel's Idea of a Phenomenology of Spirit Michael N. Forster, 1998-05-13 Forster's reading reveals the *Phenomenology of Spirit* as in fact an impressively coherent text containing a rich array of ideas of extraordinary philosophical originality and depth **A Companion to Epistemology** Jonathan Dancy, Ernest Sosa, Matthias Steup, 2010-02-15 With nearly 300 entries on key concepts review essays on central issues and self profiles by leading scholars this companion is the most comprehensive and up to date single volume reference guide to epistemology *Epistemology from A Z* is comprised of 296 articles on important epistemological concepts that have been extensively revised to bring the volume up to date with many new and re-written entries reflecting developments in the field Includes 20 new self profiles by leading epistemologists Contains 10 new review essays on central issues of epistemology Sexuality and Equality Law Suzanne B. Goldberg, 2017-07-05 Sexual rules and regulations are among society's oldest yet it is only in recent decades that this once stigmatized field has become the focus of scholarly attention This volume which includes some of the most thought provoking and hard to find essays in the field covers a diverse range of topics from sexual orientation and gender identity to intersexuality and commercial sex and from HIV AIDS and trafficking to polygamy Through historical political and critical theoretical lenses and through a global focus the selections ask how we conceptualize the groups and acts subjected to sexual regulation and how regulations in the field implicate and produce understandings of sexuality and identity By placing this variety of works together *Sexuality and Equality Law* invites fresh insights into commonalities and synergies across regulatory arenas that are often isolated from one another The volume's introduction situates all of these works in the broader field and offers readers an extensive bibliography **Protection of Sexual Minorities since Stonewall** Phil C.W. Chan, 2013-09-13 The Stonewall Riot in New York in 1969 marked the birth of the sexual minority rights movement worldwide In the subsequent four decades equality and related rights on grounds of sexual orientation and gender identity have been enshrined in many African Asian Australasian European and North American countries thanks to better informed discourses of the natures of sexual orientation gender identity equality and rights that systematic scientific and socio legal research has generated Discrimination harassment and persecution on grounds of a person's sexual orientation or gender identity however continue to pervade the laws and social norms in all developed and developing countries In tribute to the courage of those who participated in the Stonewall Riot this book examines the progress and stalemate in various countries on five continents as well as in the development of international law concerning the rights of persons belonging to

sexual minorities This book covers issues including homophobic bullying and gay straight alliances in schools the merits and problems that legislation prohibiting hate speech on grounds of sexual orientation presents criminal justice systems in relation to male rape victims and to criminalisation of HIV exposure and transmission the development of sexual minority rights from historical and socio legal perspectives in Hong Kong Japan Singapore and Zimbabwe the lives of transgender persons in Asian countries the evolution operation and impact of international and domestic refugee laws on sexual orientation and gender identity as grounds for refugee status and asylum and the conflicts between law religion and sexual minority equality rights that inhere in the same sex marriage debate in Ireland This book was previously published as a special double issue of The International Journal of Human Rights [Making Comparisons Count](#) Ruth Chang, 2014-01-21 This book attempts to answer two questions Are alternatives for choice ever incomparable and In what ways can items be compared The arguments offered suggest that alternatives for choice no matter how different are never incomparable and that the ways in which items can be compared are richer and more varied than commonly supposed **Making the Law Explicit** Matthias Klatt, 2008-09-08 Legal argumentation consists in the interpretation of texts Therefore it has a natural connection to the philosophy of language Central issues of this connection however lack a clear answer For instance how much freedom do judges have in applying the law How are the literal and the purposive approaches related to one another How can we distinguish between applying the law and making the law This book provides answers by means of a complex and detailed theory of literal meaning A new legal method is introduced namely the further development of the law It is so far unknown in Anglo American jurisprudence but it is shown that this new method helps in solving some of the most crucial puzzles in jurisprudence At its centre the book addresses legal indeterminism and refutes linguistic philosophical reasons for indeterminacy It spells out the normative character of interpretation as emphasized by Raz and with the help of Robert Brandom s normative pragmatics it is shown that the relativism of interpretation from a normative perspective does not at all justify scepticism On the contrary it supports the claim that legal argumentation can be objective and maintains that statements on the meaning of a statute can be right or wrong and take on intersubjective validity accordingly This book breaks new ground in transferring Brandom s philosophy to legal theoretical problems and presents an original and exciting analysis of the semantic argument in legal argumentation It was the recipient of the European Award for Legal Theory in 2002 This book represents on the one hand a reception of Robert Brandom s important theory including applications of this theory in the field of legal philosophy and on the other an exploration of the limits of an appeal in legal interpretation to the text The enquiry thereby impinges upon the central juridico philosophical themes of meaning objectivity and normativity The author s work counts as a significant contribution to analytical jurisprudence and is deserving of a wide readership Robert Alexy Professor for Public Law and Legal Philosophy Kiel Klatt focuses on a very profound theory of concept formation and uses this theory in a creative way to solve classical problems of legal argumentation Aleksander Peczenik **Interpreting**

Neville J. Harley Chapman, Nancy Frankenberry, 1999-01-01 Interpreting Neville provides the first book length treatment of the thought of Robert Cummings Neville one of the most important and wide ranging scholars working across the fields of philosophy theology and comparative studies today Contributors assess the systematic structure and methodological unity of Neville s trilogy Axiology of Thinking provide a postmodern contextualization Neville s philosophy and evaluate the critical relation of Neville history of Western philosophy Metaphysical questions crucial to Neville s project are critiqued from different vantage points theological problems are examined and the comparative issues outstanding in Neville s understanding of Chinese philosophy are assessed Enhancing the book is a rich concluding essay written by Neville himself in response to each author

Roots in the Air Michael Krausz, 2018-11-12 By way of dialogues Michael Krausz offers philosophical reflections about his life as philosopher artist and musician He also rehearses his views about relativism interpretation creativity and self realization Much of Krausz s work has been inspired by conversations with thinkers such as Karl Popper Thomas Kuhn Isaiah Berlin the Dalai Lama and musicians such as Josef Gingold Frederik Prausnitz and Luis Biava While the death of his grandparents in Auschwitz continues to disquiet his consciousness Krausz s critiques of versions of Advaitic Hinduism and Tibetan Buddhism led him to a distinctive humanism This thought provoking book includes personal and professional accounts about particular philosophers artists and musicians It will edify anyone who like Krausz has confronted issues of self identity and human existence

Classroom Issues Mal Leicester, Sohan Modgil, 2005-10-05 Volume III provides a focus on the classroom pedagogy curriculum and pupil experience It covers relatively neglected areas of curriculum development such as mathematics and technology as well as the more familiar terrain of literature and drama A particularly useful section deals with aesthetic education

Beyond Cultures Kwame Gyekye, 2004

Hegel and the Other Philip J. Kain, 2012-02-01 This volume by Philip J Kain is one of the most accessibly written books on Hegel s Phenomenology of Spirit available Avoiding technical jargon without diluting Hegel s thought Kain shows the Phenomenology responding to Kant in far more places than are usually recognized This perspective makes Hegel s text easier to understand Kain also argues against the traditional understanding of the absolute and touches on Hegel s relation to contemporary feminist and postmodern themes

Tokens of Exchange Lydia H. Liu, 2000-01-19 The problem of translation has become increasingly central to critical reflections on modernity and its universalizing processes Approaching translation as a symbolic and material exchange among peoples and civilizations and not as a purely linguistic or literary matter the essays in Tokens of Exchange focus on China and its interactions with the West to historicize an economy of translation Rejecting the familiar regional approach to non Western societies contributors contend that national histories and world history must be read with absolute attention to the types of epistemological translatability that have been constructed among the various languages and cultures in modern times By studying the production and circulation of meaning as value in areas including history religion language law visual art music and pedagogy essays consider exchanges between Jesuit and Protestant

missionaries and the Chinese between the seventeenth and nineteenth centuries and focus on the interchanges occasioned by the spread of capitalism and imperialism Concentrating on ideological reciprocity and nonreciprocity in science medicine and cultural pathologies contributors also posit that such exchanges often lead to racialized and essentialized ideas about culture sexuality and nation The collection turns to the role of language itself as a site of the universalization of knowledge in its contemplation of such processes as the invention of Basic English and the global teaching of the English language By focusing on the moments wherein meaning value is exchanged in the translation from one language to another the essays highlight the circulation of the global in the local as they address the role played by historical translation in the universalizing processes of modernity and globalization The collection will engage students and scholars of global cultural processes Chinese studies world history literary studies history of science and anthropology as well as cultural and postcolonial studies Contributors Jianhua Chen Nancy Chen Alexis Dudden Eastwood Roger Hart Larissa Heinrich James Hevia Andrew F Jones Wan Shun Eva Lam Lydia H Liu Deborah T L Sang Haun Saussy Q S Tong Qiong Zhang *Rhetoric and Philosophy* Richard A. Cherwitz, Henry W. Johnstone Jr., 2014-06-03 This important volume explores alternative ways in which those involved in the field of speech communication have attempted to find a philosophical grounding for rhetoric Recognizing that rhetoric can be supported in a wide variety of ways this text examines eight different philosophies of rhetoric realism relativism rationalism idealism materialism existentialism deconstructionism and pragmatism The value of this book lies in its pluralistic and comparative approach to rhetorical theory Although rhetoric may be the more difficult road to philosophy the fact that it is being traversed by a group of authors largely from speech communication demonstrates important growth in this field Ultimately there is recognition that if different thinkers can have solid reasons to adhere to disparate philosophies serious communication problems can be eliminated Rhetoric and Philosophy will assist scholars in choosing from among the many philosophical starting places for rhetoric
