Integers, Polynomials, and Rings Ronald S. Irving, 2004-01-08 This book began life as a set of notes that I developed for a course at the University of Washington entitled Introduction to Modern Algebra for Teachers Originally conceived as a text for future secondary school mathematics teachers it has developed into a book that could serve well as a text in an undergraduate course in abstract algebra or a course designed as an introduction to higher mathematics This book differs from many undergraduate algebra texts in fundamental ways the reasons lie in the book's origin and the goals I set for the course The course is a two quarter sequence required of students intending to fulfill the requirements of the teacher preparation option for our B A degree in mathematics or of the teacher preparation minor It is required as well of those intending to matriculate in our university's Master's in Teaching program for secondary mathematics teachers This is the principal course they take involving abstraction and proof and they come to it with perhaps as little background as a year of calculus and a quarter of linear algebra The mathematical ability of the students varies widely as does their level of mathematical interest
