Rise Of Russia In Asia:

The Rise Of Russia In Asia David J. Dallin, 2013-05-31 An in depth history of Russia's involvement in Asia. Dallin escaped from Russia at an early age and studied its global policies for the rest of his life. A book that is a must read for any keen amateur historian or student of modern history. The Rise of Russia in Asia David LEWIN (afterwards DALLIN (David Julievich)), 1950 **Rediscovering Russia in Asia** Stephen Kotkin, David Wolff, 2015-03-04 This work presents a trans-Siberian expedition to rediscover the peoples' cultures and riches of Russia's eastern frontiers. It addresses such questions as who are the people of the region, have they a distinct culture, and does the area have a future as part of the Pacific Rim.

The Rise of Russia in Asia David Ůl'evič Dalin, 1949 *The Rise of Russia in Asia* David J. Dallin (Politiker, Schriftsteller), 1949 **Asia's Rise in the 21st Century** Scott B. MacDonald, Jonathan Lemco, 2011-10-20 This expert analysis looks at what the increasing economic and political prominence of China and other Asian nations means to the West and the rest of the world. Asia's Rise in the 21st Century is a wake up call to the West offering a sophisticated assessment of a group of nations that are becoming essential markets for U.S. trade, industry and finance even as they increasingly represent fierce competition for global markets. The work traces changes that launched the region down the path to potential economic and political ascendancy and it looks at various factors from politics to economics to demographics that affect Asia now and will continue to do so in the future. China's prominence is explored in the context of how it complements and competes with the rest of Asia, especially Japan and India, and how it interacts with other major emerging market countries such as Brazil, Russia and Turkey. The book also looks at the challenge China's ascendancy poses to the assertion that a successful capitalist system must be accompanied by political democracy. Finally, the authors suggest ways in which Asia's rise can be accommodated in the West and elsewhere and offer thoughts on where Asia and especially China will be in 2030.

Regional Economic Outlook, October 2014, Middle East and Central Asia, International Monetary Fund. Middle East and Central Asia Dept., 2014-10-27 This issue discusses economic developments in the Middle East, North Africa, Afghanistan and Pakistan (MENAP) which continue to reflect the diversity of conditions prevailing across the region. Most high-income oil exporters, primarily in the GCC, continue to record steady growth and solid economic and financial fundamentals, albeit with medium-term challenges that need to be addressed. In contrast, other countries (Iraq, Libya and Syria) are mired in conflicts with not only humanitarian but also economic consequences. And yet other countries (mostly oil importers) are making continued but uneven progress in advancing their economic agendas, often in tandem with political transitions and amidst difficult social conditions. In most of these countries, without extensive economic and structural reforms, economic prospects for the medium term remain insufficient to reduce high unemployment and improve living standards.

China's Rise, Russia's Fall Peter Nolan, 1995-10-30 A lively and well written comparison of economic transformation in China and the USSR Russia combining a good knowledge of the Chinese economy with a radical critique of Western transition orthodoxy this very topical and very controversial book will be useful reading for students administrators in many countries and international agencies and business people Michael Ellman University of Amsterdam Peter Nolan makes a pungent challenge to conventional wisdom by arguing that the Chinese approach to system reform has been vastly more successful than the shock therapy applied to Russia His book is based on extensive comparison and deep insight into the political economy of both countries John Tye Institute of Development Studies Sussex This book is the first attempt to analyse systematically the dramatic contrast in the results of post Stalinist reform in China and Russia It argues that there emerged a transition orthodoxy about how to reform the communist systems of political economy However it was deeply flawed The advice which flowed from this orthodoxy was the primary cause of the Soviet disaster The decision not to follow it was the main reason for China's enormous success in its reform programme **the emergence of china**
