The Victorians and Sport Mike Huggins,2004-12-17 Many of the sports that have spread across the world from athletics and boxing to golf and tennis had their origins in nineteenth century Britain They were exported around the world

by the British Empire and Britain's influence in the world led to many of its sports being adopted in other countries. Americans however liked to show their independence by rejecting cricket for baseball. The Victorians and Sport is a highly readable account of the role sport played in both Victorian Britain and its empire. Major sports attracted mass followings and were widely reported in the press. Great sporting celebrities such as the cricketer Dr W G Grace were the best known people in the country and sporting rivalries provoked strong loyalties and passionate emotions. Mike Huggins provides fascinating details of individual sports and sportsmen. He also shows how sport was an important part of society and of many people's lives.

The Ancient Egyptians For Dummies Charlotte Booth, 2011-02-16 Unravel the history behind one of the most fascinating ancient civilisations with this engaging entertaining and educational guide to the ancient Egyptians. With a complete rundown of ancient Egyptian history and culture alongside insights into the everyday lives of the Egyptians you'll discover how they kept themselves entertained, the gory details of mummification, the amazing creation of the pyramids, the deciphering of hieroglyphs and much more.

A Digest of the Law Relating to Public Libraries and Museums, and Literary and Scientific Institutions George Frederick Chambers, 1879 *The Tapestry of the Law* E. Attwooll, 2013-11-11 Although its concern is jurisprudence, *The Tapestry of the Law* is intended to offer neither an original theory of or about law nor an account of other people's theories in textbook form. It is rather an attempt to approach the subject without following either of these conventions. The reasons are as follows. Those engaged in legal theory are prone to assert that one cannot properly understand the law unless one takes a jurisprudential approach; preferably their own to it. Equally those engaged in exposition of the law may counter that legal theory fails to pay adequate attention to actual law. There is at least some truth in these claims. Analyses, courses and textbooks on both sides do often seem to be produced without reference to the other. Yet such isolation is probably more apparent than real. Most if not all so-called black letter lawyers do operate on the basis of certain jurisprudential understandings, even if these are not articulated ones. In the frequently quoted words of F C S

Northrop: 'There are lawyers, judges and even law professors who tell us they have no legal philosophy.'

Modern Legal Drafting Peter Butt, 2013-03-28 This book provides a comprehensive guide to drafting legal documents in plain English with a dual practical and academic approach.

Fortnightly Review, 1910 *The law relating to public libraries & museums and literary and scientific institutions* G.F. Chambers, 1899 with much practical information useful to managers, committees and officers of all classes of associations and clubs connected with literature, science and art including precedents of by-laws and regulations, the statutes in full and brief of leading cases.

The Fortnightly Review, 1910 **Diabetes Cookbook For Dummies, UK Edition** Alan L. Rubin, Sarah Brewer, 2011-03-31 Many of us at the best of times struggle for inspiration when it comes to cooking and that's without a medical condition that may affect our eating habits and require careful management. The right diet is the foundation of a healthy lifestyle and all the more important for the successful management of diabetes. Fully updated for a UK audience.
