Rules Of Integration The Institutional Approach To European Studies:

The Rules of Integration Mark Aspinwall, Gerald Schneider, 2001 This volume assesses the merits of institutionalist research on the European Union It offers a comprehensive review of the field and detailed analytical studies of diverse decision making processes and policies It engages the different strands in institutionalism in serious dialogue Prop onenets of rationalist historical and sociological tendencies present original research and criticise each other s contributions in constructive ways Interdisciplinary Research Methods in EU Law Rossana Deplano, Giulia Gentile, Luigi Lonardo, Tobias Nowak, 2024-06-05 This comprehensive Handbook provides a critical and analytical guide to the application of interdisciplinary research methods in EU law and explores the advancement of the EU legal landscape from an interdisciplinary research perspective Venturing beyond doctrinal legal scholarship it reflects on the cognitive synergies between EU law and other disciplines and advances the debate on contemporary trends in EU law research This title contains one or more Open Access chapters European Research Reloaded: Cooperation and Integration among Europeanized States Ronald Holzhaacker, Markus Haverland, 2006-09-01 The Three Waves of European Research European cooperation and integration has continued to progress forward over the past five decades with an ever deepening impact on the member states The first wave of research into these processes concerned European integration the process of institution building and policy developments at the European Union EU level The second wave on Europeanization used integration as an explanatory factor in understanding domestic political change and continuity related to the EU What is now necessary is to link our understanding of these bottom up and top down processes of integration and Europeanization in the EU This book argues that a third wave of research on the EU is needed to adequately understand the increased interconnectedness between the European and national political levels We posit that this third wave should be sensitive to the temporal dimension of European integration and Europeanization In particular we seek to link the processes of European integration and Europeanization in a new way by asking the question how has Europeanization affected current modes of integration and cooperation in the EU Part I Europeanization of the Member States Preparing the ground for the third wave the first part of the book concerns Europeanization In order to fully understand the feedback of Europeanization on cooperation and integration it is important to analyze how European integration has had an impact on member states in the first place in particular indirectly beyond the direct mechanism of compliance with European policies Research Methods in European Union Studies K. Lynggaard, I. Manners, K. Löfgren, 2016-01-08 This collection sets a new agenda for conducting research on the EU and learns from past mistakes In doing so it provides a state of the art examination of social science research designs in EU studies while providing innovative guidelines for the advancement of more inclusive and empirically sensitive research designs in EU studies Handbook on European Union Public Administration Gijs J. Brandsma, 2024-05-02 This Handbook introduces the institutions organisations and policy processes that make up EU public administration including those that

typically operate beneath the surface and critically reviews the state of the art in research. Paying close attention to the multi-level nature of EU governance, it is a vital resource for graduate and postgraduate students in the disciplines of European studies, political science, and EU law. Germany, Europe, and the Politics of Constraint Klaus Goetz, Kenneth Dyson, 2003-10-16. These essays examine the Europeanization of the political system of the Federal Republic of Germany across the polity, politics, and public policy dimensions. The book's 17 chapters focus on three key themes: the challenge to the power of Germany to determine the course of the integrationist project and to shape European public policies; the increasing constraints in the domestic political arena associated with Europeanization and domestic contestation over both the constitutive politics of the EU and specific policy choices. This volume is essential reading for students of comparative European politics and German studies.

Business Lobbying in the European Union David Coen, Alexander Katsaitis, Matia Vannoni, 2021-02-16. At a time when Europe and business stand at crossroads, this study provides a perspective into how business representation in the EU has evolved and valuable insights into how to organize lobbying strategies and influence policy making. Uniquely, the authors analyze business lobbying in Brussels by drawing on insights from political science, public management, and business studies. At the macro level, we explore over 30 years of increasing business lobbying and explore the emergence of a distinct European business-government relations style. At the meso level, we assess how the role of EU institution policy types and the policy cycle shape the density and diversity of business lobbying activity. Finally, at the micro level, we seek to explore how firms organize their political affairs, functions, and mobilized strategic political responses. The study uses a variety of methods to analyze the business-government relations, drawing on unique business and policy maker surveys in depth, case studies, and elite interviews, large statistical analysis of lobbying registers to assess density and diversity across policy areas and EU institutions, and managerial career path and organizational analysis to assess corporate political capabilities. In contributing to discussions on corporate political strategy and interest groups activity, this monograph should be of interest to public policy scholars, policy makers, and businesses managers seeking to understand EU government affairs and political representation.

Conflict and Change in EU Budgetary Politics Johannes Lindner, 2006-02-27. Why did the European Union experience a stark variation in the levels of conflict between the late 1970s when budgetary disputes dominated European politics and the 1990s when political actors were able to settle upon budgetary agreements without major conflicts? This book responds to this key question with a two-step argument. Its first part shows that decision-making rules can be regarded as a key determinant of the level of conflict in EU budgetary politics. It details far-reaching reform in 1988 reduced conflict because it introduced an institutional setting for multiannual budget planning that corrected

the deficiencies of the original budget treaty Having identified institutional change as the trigger for the reduction of conflict the second part of this study focuses on the 1988 reform It shows how a number of reproduction mechanisms prevented major institutional change in the 1970s and early 1980s When these reproduction mechanisms lost force a reform became possible and a new institutional setting emerged in 1988 These findings deliver a sharp insight into the interplay between rules and conflict in the still evolving political system of the EU Moreover by identifying precise conditions for the occurrence of institutional change and by linking political performance of institutions to their stability this is a significant contribution to institutionalist research in social science This book is an excellent resource for students and scholars of the European Union Political Science International Relations Public Policy and Public Finance

The European Union and International Development Maurizio Carbone, 2007-12-12 The European Union is a leading actor in international development providing more than half of the world's foreign aid but also a unique case combining the characteristics of a bilateral and a multilateral donor Despite the general acknowledgment that policy

coordination substantially improves both the effectiveness of foreign aid and the visibility of the EU in the international arena Member States have consistently resisted any intrusion into what they consider a key area of their national sovereignty The increases in volume of aid the ambitious agenda on aid effectiveness and the adoption of the European Consensus on Development indicate a change of direction Using development policy as a starting point this book provides a systematic analysis of the interaction between the European Commission and Member States It explores the conditions in which the European Commission influences outcomes in the EU decision making process It ultimately argues that the European Commission plays a leadership role but this leadership is contingent upon the presence of an institutional entrepreneur its internal cohesiveness and the astute use of a repertoire of tactics Demonstrating that development policy may provide fresh insights into EU integration theory this book will be of interest to students and scholars of European Politics and International Development

Securing Europe L. Watanabe, 2010-01-20 Securing Europe takes a novel approach to Europeanization among EU member states by employing a sociological institutionalist approach Watanabe argues that Europeanization as a process of change takes place not as a result of rationally calculating states but as a result of the reworking of perceptual and normative frameworks

Coping with Power Dispersion? Mads Jensen, Christel Koop, Michaël Tatham, 2017-10-02 The last decades have witnessed a significant shift in policy competencies away from central governments in Europe The reallocation of competencies spans over three dimensions upwards sideways and downwards This collection takes the dispersion of powers as a starting point and seeks to assess how the actors involved cope with the new configurations Chapters discuss the conceptualization of power dispersion and highlight the ways in which we add to this research agenda Some general conclusions are also outlined indicating future avenues of research Taken together the collection contributes answers to the challenge of defining and measuring in a comparative way the control and coordination mechanisms which power dispersion generates In sum the collection explores the tension between political actors quest for autonomy and the acknowledgement of their interdependence whilst revealing how as power dispersion deepens central governments have sought to both manage and limit it This book was originally published as a special issue of the Journal of European Public Policy

After National Democracy Lars Trägårdh, 2004-05-22 The imagined community of the nation which served as the affective basis for the post French Revolution social contract as well as its institutional counter part the welfare state are currently under great stress as states lose control over what once was referred to as the national economy In this book a number of authors historians legal scholars political theorists consider the fate of national democracy in the age of globalization In particular the authors ask whether the order of European nation states with its emphasis on substantive democracy is now in the guise of the European Union giving way to a more loosely constructed often federalized system of procedural republics partly constructed in the image of the United States Is national parliamentary democracy being replaced by a politico legal culture where citizen action increasingly takes place in a transnational legal domain at the expense of traditional and national party politics Is the notion of a nationally bound citizen in the process of being superceded by a cosmopolitan legal subject
