outcompete the unbeatable rival in your own industry When you come to a fork in the road take it Only a fraction of companies survive when industries experience technological or strategic transitions To be a survivor learn the secret that enabled Microsoft to weather the advent of the Internet the art of the double bet Stuck in a business box Find the bigger box and then the biggest When growth stagnates capture more of your customer's dollars through demand innovation and big box thinking as companies from Continental AG and Ikea to Procter Gamble have done Your competitors can also be your greatest enablers of profit Stop competing yourself to death The key is knowing when to compete and when to collaborate as Apple has shown with its revolutionary approach to the music business In the 1980s conventional wisdom was that you could have high quality or low cost but not both until Japanese makers of cars and electronics showed otherwise Now high quality and low cost are required just to enter the marketplace Today we face a similar paradox when it comes to risk and reward Rather than shrink from the high risk so integral to the tumultuous global economy Adrian Slywotzky shows how it can be your greatest source of growth and future reward
