Longing For My Child Reflections For Parents And Siblings After A Childs Death:

Longing for My Child Christine O'Keeffe Lafser,2010-06 *Brothers and Sisters* Henry Abramovitch,2014-11-18

Growing up we typically spend more time with our brothers and sisters than we do with our parents In an age of divorce mobility and alienation the sibling bond is often the only one that really lasts Given that brothers and sisters are such a fundamental aspect of human existence it is remarkable that they have received so little in depth attention in the field of psychology Henry Abramovitch's *Brothers and Sisters* explores the tension between the myth and reality of brothers and sisters in a variety of cultures and through the poignant brother sister stories in the Bible Abramovitch looks at the developmental sequence in the sibling relationship as brothers or sisters struggle to find their place with each other concluding with a very personal account of his own relationship with his brother and sister **Recovering from the Loss**

[Psychological Insights for Understanding COVID-19 and Families, Parents, and Children](#) Marc H. Bornstein, 2020-12-13. With specially commissioned introductions from international experts, the Psychological Insights for Understanding COVID 19 series draws together previously published chapters on key themes in psychological science that engage with people's unprecedented experience of the pandemic. This volume collects chapters that address prominent issues and challenges presented by the SARS CoV 2 pandemic to families, parents and children. A new introduction from Marc H Bornstein reviews how disasters are known to impact families, parents and children and explores traditional and novel responsibilities of parents and their effects on child growth and development. It examines parenting at this time, detailing consequences for home life and economies that the pandemic has triggered, considers child discipline and abuse during the pandemic and makes recommendations that will support families in terms of multilevel interventions at family, community and national and international levels. The selected chapters elucidate key themes including children's worry, stress and parenting, positive parenting programs, barriers which constrain population level impact of prevention programs and the importance of culturally adapting evidence based family intervention programs. Featuring theory and research on key topics germane to the global pandemic, the Psychological Insights for Understanding COVID 19 series offers thought provoking reading for professionals, students, academics, policy makers and parents concerned with the psychological consequences of COVID 19 for individuals, families and society. **Nelson Textbook of Pediatrics E-Book** Robert Kliegman, Bonita F.
