Figart, 2004-02-19 Living wage activism has spanned time and space reaching across decades and national boundaries Conditions generating living wage movements early in the twentieth century have resurfaced in the twenty first century only on a global scale sweated labour macroeconomic instability and job insecurity Upon reviewing the empirical evidence the book's contributors make strong cases both for and against living wage activism The effective blend of historical contemporary and global perspectives provides opportunities for teachers scholars and activists to evaluate how we can address low pay at the organizational and macroeconomic levels Decisions and Orders of the National Labor Relations Board National Labor Relations Board, 2012-04-05 Each volume of this series contains all the important Decisions and Orders issued by the National Labor Relations Board during a specified time period The entries for each case list the decision order statement of the case findings of fact conclusions of law and remedy **Low Pay and how to End it** Alan Wainwright Fisher, 1974 **Justice of the Peace and County, Borough, Poor Law Union and**

Parish Law Recorder ,1837 Decisions and Orders of the National Labor Relations Board United States. National Labor Relations Board,2013 **Art-Union** ,1861 *Union Contributions to Labor Welfare Policy and Practice* Paul A. Kurzman,R.Paul Maiden,2013-12-16 This book focuses on the contributions of organized labor in the development and evolution of workplace human services in America and eight countries around the world Beginning with an overview of labor sponsored social service programs it showcases the achievements by major trade unions in the arena of human services from inception to present The textbook concludes with a summary chapter which conceptualizes and summarizes current achievements and forecasts the future role of the labor movement in the delivery of workplace human services in the United States and abroad It will be of use to those involved in the labor movement as well as practitioners in the fields of social work human services and labor and industrial relations This book was published as a special issue of the Journal of Workplace Behavioral Health **China Learns from the Soviet Union, 1949-Present** Hua-Yu Li,2010-01-05 It is well known that the Soviet Union strongly influenced China in the early 1950s since China committed itself both to the Sino Soviet alliance and to the Soviet model of building socialism What is less well known is that Chinese proved receptive not only to the Soviet economic model but also to the emulation of the Soviet Union in realms such as those of ideology education science and culture In this book an international group of scholars examines China s acceptance and ultimate rejection of Soviet models and practices in economic cultural social and other realms The chapters vividly illustrate the wide ranging and multi dimensional nature of Soviet influence which to this day continues to manifest itself in one critical aspect namely in China s rejection of liberal political reform *Race and Labor Matters in the New U.S. Economy* Manning Marable,Immanuel Ness,Joseph Wilson,2006-05-25 In this powerful new work Marable Ness and Wilson maintain that contrary to the popular hubris about equality race is entrenched and more divisive than any time since the Civil Rights Movement Race and Labor in the United States asserts that all advances in American race relations have only evolved through conflict and collective struggle The foundation of the class divide in the United States remains while racial and ethnic segregation privilege and domination and the institution of neoliberalism have become a detriment to all workers **Justice of the Peace and County, Borough, Poor Law Union and Parish Law Records** ,1838 **Country Reports on Human Rights Practices** ,2001 *The Agricultural Labourer ...* Great Britain. Royal Commission on Labour,1893 **Modernising European Union labour law** Great Britain: Parliament: House of Lords: European Union Committee,2007-06-27 In its Green Paper about the need for labour market reform the European Commission argued that the increasing diversity of 21st century working relationships means that existing labour law is no longer adequate This report brings together the evidence from a wide range of experts and representative bodies about these issues as they affect the UK labour market It finds that the evidence does not support the Commission The consensus is that the relatively light regulation of the UK labour market is advantageous and that problems of social disadvantage and structural unemployment are better addressed by measures

aimed at tackling poor skills and social inequality rather than changing labour law The report therefore recommends that efforts at EU level should focus on the promotion and sharing of good practice rather than the introduction of new legislation
