**Professional Journal of the United States Army** ,1982     **Rcaf War Prize Flights, German and Japanese Warbird Survivors** Harold A. Skaarup,2006-05-23 This handbook concerns the collection of Air Technical Intelligence and the test flying of war prizes carried out by two RCAF bomber pilots who were posted to the Royal Aircraft Establishment s Foreign Aircraft Flight Farnborough in the United Kingdom in May 1945 Their primary task was to visit former Luftwaffe airfields and to find and fly back any aircraft they deemed worthy of evaluation The list of aircraft found here does not include every German combat aircraft of the Second World War as it focuses on those warbirds captured and flown by members of the RCAF or sent to Canada as war prizes Very few of these rare aircraft exist today and therefore information on known locations where German Japanese and Italian warbird survivors may be found is included As a member of the Canadian Aviation Preservation Association and the Canadian Aviation Artists Association the author strongly supports the preservation of Canada s aviation heritage The primary intent of this handbook is to provide information for aviation artists and enthusiasts looking for that unusual never before painted military aviation subject and to support the efforts of those engaged in the search for those missing warbirds for which no examples currently exist     **Air Pictorial** ,2002     *The Publishers Weekly* ,1981     **Military Review** ,1982     *Quarterly Review of Military Literature* ,1982     *Library Journal* ,1981     **Wimpy** Steve Bond,2014-11-19 To date there has been a paucity of books on this remarkable aircraft Among its claims to fame are the following the only RAF bomber to serve in its original role from first day of war to last and in every theater the first type to bomb Germany the first type to bomb Berlin the first type to drop the 4 000lb Cookie bomb and so on A serious study is well overdue drawing not just on official documentation but relying greatly on personal accounts and anecdotes from the veterans who were there both air and ground crew And here it is Through his diligent research over many years author Steve Bond has produced an outstanding work His coverage of operations will include inter alia the early bombing campaigns the switch to main force activity the use of OTU aircraft and crews on operations the protection of Atlantic and Mediterranean convoys service with the FAA and the French and the Wellington s continued use as bomber and
