**The Spanish Presence in Sixteenth-Century Italy** Piers Baker-Bates,Miles Pattenden,2016-02-17 The sixteenth century was a critical period both for Spain's formation and for the imperial dominance of her Crown Spanish monarchs ruled far and wide spreading agents and culture across Europe and the wider world Yet in Italy they encountered another culture whose achievements were even prouder and whose aspirations often even grander than their own Italians the nominally subaltern group did not readily accept Spanish dominance and exercised considerable agency over how imperial Spanish identity developed within their borders In the end Italians views sometimes even shaped how their Spanish colonizers eventually came to see themselves The essays collected here evaluate the broad range of contexts in which Spaniards were present in early modern Italy They consider diplomacy sanctity art politics and even popular verse Each essay excavates how Italians who came into contact with the Spanish crown's power perceived and interacted with the wider range of identities brought amongst them by its servants and subjects Together they demonstrate what influenced and what determined Italians responses to Spain they show Spanish Italy in its full transcultural glory and how its inhabitants projected its culture throughout the sixteenth century and beyond      Painting and Devotion in Golden Age Iberia Jean Andrews,2020-06-01 It is the first monograph in English on Luis de Morales since the 1960s which is essential for those who do not read Spanish because most of the literature on Morales is in Spanish It provides an extended consideration of the relationship between Morales paintings and the devotional practices of his times using devotional writing aimed at a lay readership and sermons It highlights the importance of Portuguese cultural influences on his work and notes the significance of his work in Portugal as an influence on Portuguese painters and style      **Luis de Morales and Leonardesque**

Kilroy-Ewbank,2021-08-24 *Emotions Art and Christianity in the Transatlantic World 1450 1800* is a collection of studies variously exploring the role of visual and material culture in shaping early modern emotional experiences The volume's transatlantic framework moves from The Netherlands Spain and Italy to Mexico Peru Ecuador and the Philippines and centers on visual culture as a means to explore how emotions differ in their local and global contexts amidst the many shifts occurring c 1450 1800 These themes are examined through the lens of art informed by religious ideas especially Catholicism with each essay probing how religiously inflected art stimulated molded and encoded emotions Contributors Elena FitzPatrick Sifford Alison C Fleming Natalia Keller Walter S Melion Olaya Sanfuentes Patricia Simons Dario Velandia Onofre and Charles M Rosenberg      Art and Reform in the Late Renaissance Jesse M. Locker,2018-08-14 Drawing on recent research by established and emerging scholars of sixteenth and seventeenth

century art this volume reconsiders the art and architecture produced after 1563 across the conventional geographic borders Rather than considering this period a degraded afterword to Renaissance classicism or an inchoate proto Baroque the book seeks to understand the art on its own terms By considering artists such as Federico Barocci and Stefano Maderno in Italy Hendrick Goltzius in the Netherlands Antoine Caron in France Francisco Ribalta in Spain and Bartolomeo Bitti in Peru the contributors highlight lesser known reforms of art from outside the conventional centers As the first text to cover this formative period from an international perspective this volume casts new light on the aftermath of the Renaissance and the beginnings of Baroque

*Humanism and Christian Letters in Early Modern Iberia (1480-1630)* Alejandro Coroleu, 2010-05-11 Even though humanism derived its literary moral and educational predilections from ancient Greek and Roman models it was never an inherently secular movement and it soon turned to religious questions Humanists were of course brought up with Christian beliefs regarded the Bible as a fundamental text and many of them were members of the clergy either regular or secular While their importance as religious sources was undiminished biblical and patristic texts came also to be read for their literary value Renaissance authors who aspired to be poetae christianissimi naturally looked to the Latin Fathers who reconciled classical and Christian views of life and presented them in an elegant manner The essays offered in this volume examine the influence of Christian Latin literature whether biblical patristic scholastic or humanistic

upon the Latin and vernacular letters of the Iberian Peninsula in the period 1480 to 1630 The contributions have been organized into three thematically coherent groups dealing with transmission adaptation and visual representation Contrary to most studies on the Iberian literature of the period in which practically no essays are devoted to texts other than in Spanish this volume successfully accommodates authors writing in Portuguese and Catalan Likewise a significant part of the pieces presented here is concerned with literary texts written in Latin Moreover it shows how the interests and preoccupations of the better known authors of the Iberian Renaissance were also shared by contemporary figures whose choice of language may have resulted in their exclusion from the canon     *Art and Civilization* Bernard S.
