*Contemporary Travel Writing of Latin America* Claire Lindsay, 2010-02-15 This book takes a new approach to travel writing about Latin America by examining domestic journey narratives that have been produced by travellers from the continent itself and largely in Spanish. Historically, travel writing about Latin America has been written primarily from the perspective of the foreign, often European, traveller. As such, and following the large influx of military, scientific and leisure travellers in the region since its colonisation, much of this foreign travel writing has depicted the continent in predominantly exoticist and/or imperialist terms. Lindsay explores how Latin American travellers have conceived and constructed narratives about travel at home and considers how such texts, many of them available in English translation or with subtitles, function to counter or corroborate long-standing myths about the continent. Through a series of regionally and thematically oriented case studies that engage with key issues, themes and debates in both Latin American and travel studies, Lindsay provides the first sustained interdisciplinary study of contemporary domestic travel narratives about the region and will also comprise an important intervention into methodological debates about travel and travel writing.

**Landmarks in Modern Latin American Fiction (Routledge Revivals)** Philip Swanson, 2015-08-11 In the 1960s there occurred amongst Latin American writers a sudden explosion of literary activity known as the Boom. It marked an increase in the production and availability of innovative and experimental novels. But the Boom of the 1960s should not be taken as the only flowering of Latin American fiction, for such novels, dubbed 'new novels', were being written in the 1940s and 1950s as well as in the 1970s and 1980s. In this edited collection, first published in 1990, Philip Swanson charts the development of Latin American fiction throughout the twentieth century. He assesses the impact of the 'new novel' on Latin American literature and follows its growth. Nine key texts are analysed by contributors, including works by the 'big four' of the Boom: Fuentes, Cortázar, García Márquez and Vargas Llosa. This book will be of interest to critics and teachers of Latin American literature and will be useful too as supplementary reading for students of Spanish and Hispanic Studies. It will also serve as a helpful introduction to those new to Latin

American fiction      **A Companion to Latin American Literature** Stephen M. Hart, 2007 The evolution of Latin American literature A Companion to Latin American Literature offers a lively and informative introduction to the most significant literary works produced in Latin America from the fifteenth century until the present day It shows how the press and its product the printed word functioned as the common denominator binding together in different ways over time the complex and variable relationship between the writer the reader and the state The meandering story of the evolution of Latin American literature from the letters of discovery written by Christopher Columbus and Vaz de Caminha via the Republican era at the end of the nineteenth century when writers in Rio de Janeiro as much as in Buenos Aires were beginning to live off their pens as journalists and serial novelists until the 1960s when writers of the quality of Clarice Lispector in Brazil and Garc a M rquez in Colombia suddenly burst onto the world stage is traced chronologically in six chapters which introduce the main writers in the main genres of poetry prose the novel drama and the essay A final chapter evaluates the post boom novel testimonio Latino and Bazuca literature gay Afro Hispanic and Afro Brazilian literature along with the Novel of the New Millennium This study also offers suggestions for further reading STEPHEN M HART is Professor of Hispanic Studies University College London and Profesor Honorario Universidad de San Marcos Lima      Ecological Crisis and Cultural Representation in Latin America Mark Anderson, Zélia M. Bora, 2016-10-04 Worldwide environmental crisis has become increasingly visible over the last few decades as the full scope of anthropogenic climate change manifests itself and large scale natural resource extraction has expanded into formerly remote areas that seemed beyond the reach of industrialization Scientists and popular culture alike have turned to the term Anthropocene to capture the global scale of environmental and even geological transformations that humans have carried out over the last two centuries The chapters in Ecological Crisis and Cultural Representation in Latin America examine the dynamics and interplay between local cultures and the expansion of global capitalism in Latin America emphasizing the role of art in bearing witness to and generating awareness of environmental and social crises but also its possibilities for formulating solutions They take particular care to draw out the ways in which local environmental crises in Latin American nations are witnessed and imagined as part of a global system focusing on the problems of time scale and complexity as key terms in conceiving the dimensions of crisis At the same time they question the notion of the Anthropocene as a species wide human historical project making visible the coloniality of natural resource extraction in Latin America and its dire effects for local people cultures and environments Taking an ecocritical approach to Latin American cultural production including literature film performance and digital artwork the chapters in this volume develop a notion of ecological crisis that captures not only its documentary sense in the representation of environmental destruction the degradation of the oikos but also the crisis in the modern worldview logos that the acknowledgment of crisis provokes In this sense crisis is also the promise of a turning point of the possibilities for change Latin American representations of ecological crisis thus create the conditions for projects that decolonize

Rivero, 2017-12-20 Although fictional and often fantastic representations of nature have been a distinguishing feature of Latin American literature for centuries ecocriticism understood as the study of literature as it relates to depictions of the natural world environmental issues and the ways in which human beings interact and identify with their natural surroundings did not emerge as a field of scholarly interest in the region until the end of the twentieth century This volume employs an ecocritical lens in order to explore and question the use of the river imagery in Latino and Latin American literature from the colonial period to our modern world creating a space in which to examine both its literal and figurative meanings associated as much with processes of a personal nature as with those of the collective experience in the region The slow meandering streams of nostalgia the raging currents of conflict or the stagnant waters of social decay are just a few of the ways in which the river has become an important symbol and inspiration to many of the region's writers This book offers a diverse collection of writings that through a trans historical and trans geographical perspective allows us from the vantage point of the twenty first century to reflect on the rich and dynamic image of the river and by extension on the vital context of Latin o America its people and societies      **Destape** Natalia Milanese, 2019-10-01 Under dictatorship in Argentina sex and sexuality were regulated to the point where sex education explicit images and even suggestive material were prohibited With the return to democracy in 1983 Argentines experienced new freedoms including sexual freedoms The explosion of the availability and ubiquity of sexual material became known as the destape and it uncovered sexuality in provocative ways This was a mass media phenomenon but it went beyond this It was in effect a deeper process of change in sexual ideologies and practices By exploring the boom of sex therapy and sexology the fight for the implementation of sex education in schools the expansion of family planning services and of organizations dedicated to sexual health care and the centrality of discussions on sexuality in feminist and gay organizations Milanese shows that the destape was a profound transformation of the way Argentines talked understood and experienced sexuality a change in manners morals and personal freedoms      *Historical Dictionary of the Dirty Wars* David Kohut, Olga Vilella, 2010-02-18 This second edition of Historical Dictionary of The Dirty Wars focuses on the period 1954 1990 in South America when authoritarian regimes waged war on subversion both real and imagined This is done through a chronology an introductory essay a bibliography and over 400 cross referenced dictionary entries on the countries guerrilla and political movements prominent guerrilla human rights military and political figures local regional and international human rights organizations and artistic figures filmmakers novelists and playwrights whose works attempt to represent or resist the period of repression      Soaked Lov and Selected Poems 1998-2001 Severiano B.
