**The Poems of François Villon** François Villon, 1982 This new bilingual edition of the 15th century poet's work incorporates recent scholarship **Poems** François Villon, 2013 One of the most original and influential European poets of the Middle Ages François Villon took his inspiration from the streets taverns and jails of Paris Villon was a subversive voice speaking from the margins of society He wrote about love and sex money trouble the thieving rich and the consolations of good food and wine His work is striking in its directness wit and gritty urban realism Villon's writing spurred the development of the psychologically complex first person voice in lyric poetry He has influenced generations of avant garde poets and artists Arthur Rimbaud and Paul Verlaine have emulated Villon's poetry Claude Debussy set it to music and Bertolt Brecht adapted it for the stage Ezra Pound championed Villon's poetry and became largely responsible for its impact on modern verse With David Georgi's ingenious translation English speaking audiences finally have a text that captures the riotous energy and wordplay of the original With a newly revised French text that reflects the latest scholarship this bilingual edition also features inviting and informative notes that illuminate the nuances of Villon's poems and the world of medieval Paris **The Lyrical Poems of François Villon** François Villon, Algernon Charles Swinburne, Dante Gabriel

**The Legacy, the Testament, and Other Poems** François Villon, Peter Dale, 1973 Oeuvres complètes de François Villon François Villon, Auguste Longnon, 1892 **Complete Poems** François Villon, 1994 François Villon was the last of the great medieval poets as important in his own more limited sphere as Chaucer or Dante His fame surpasses that of any other medieval French lyricist in spite of the modest quantity uneven quality and often repellent subject matter of his work His poems are largely autobiographical and are rich in their descriptions of thefts fights nocturnal prowling imprisonment and exile However as Barbara Sargent Baur points out when Villon's work is good it is very good indeed unforgettable His two major works are the *Lais* a series of bequests in anticipation of his prudent departure from Paris and *Testament* which is about his primary topic himself There have been many translations of Villon's work into many languages including English but this is the first edition of the whole of the corpus utilizing a re-reading of all the manuscript sources and presenting for each poem a single source text with all emendations accounted for It is also the first annotated English version based on the best text principle and respecting both Villon's meaning and his metrics A modern edition of the French texts is presented

**Francois Villon in English Poetry** Claire Pascolini-Campbell, 2018 Responses from the nineteenth century onwards to the medieval French poet Medieval Paris paradigmatic poet Francois Villon has long captured the imaginations of creative writers Attracted by his beguilingly pseudo autobiographical literary persona and a body of work that moves seamlessly between bawdy humour bitterness devotion and regret Villon's heirs have been many and varied A veritable poet's poet his oeuvre has appealed to fellow versifiers in particular providing a rich source for translation and imitation This book explores

creative responses to Villon by British and North American poets focusing on translations and imitations of his work by Algernon Swinburne Dante Gabriel Rossetti Ezra Pound Basil Bunting and Robert Lowell They are presented as exemplary of the greater trend of rendering Villon into English transporting the reader from the first verse translations of his work in the nineteenth century to post modern adaptations and parodies of Villon in the twentieth By concentrating on the manner in which individual poets have reacted to Villon and to one another the study unravels multiple layers of poetic relations It argues that the relationships that exist between the translated or imitated texts are collaborative as much as they are competitive establishing a canon of Villon in English poetry whose allusions are not only to the French source but to the parallel corpus of English translations and imitations CLAIRE PASCOLINI CAMPBELL holds degrees in medieval and comparative literatures from the University of St Andrews and University College London     The Poems of Master François Villon of Paris François Villon, 1892
