Letter-writing Manuals and Instruction from Antiquity to the Present Carol Poster, Linda C. Mitchell, 2007 Once nearly as ubiquitous as dictionaries and cookbooks are today letter writing manuals and their predecessors served to instruct individuals not only on the art of letter composition but also in effect on personal conduct Poster and Mitchell contend that the study of letter writing theory which bridges rhetorical theory and grammatical studies represents an emerging discipline in need of definition In this volume they gather the contributions of eleven experts to sketch the contours of epistolary theory and collect the historic and bibliographic materials from Isocrates to email that form the basis for its study

Hofkritik im Licht humanistischer Lebens- und Bildungsideale Klaus Schreiner, Ernst Wenzel, 2011-10-14 Royal and princely courts in the late Middle Ages and Early Modern period did not only fill the roles of centers of government The striving for a synthesis between power and the mind made courts into sites of art and literature of instruction and education Sons of nobles learned at court not only the use of weapons but also reading writing and arithmetic Jousting gave young knights the opportunity to test their weapons skills and horsemanship Moreover festivities were a part of court life and feasts were celebrated extravagantly

Those nobles who lived as knights as well as the academically educated bourgeois used royal and princely courts as opportunities for assuring their professional careers and for social advancement. The reality of the social and ruling fabric of the court included in the late Middle Ages and Early Modern period some rough criticism from those eloquent contemporaries who branded the court as a morally corrupt place of vices. Church reformers brought the courtly lifestyle and the Christian ethic into irreconcilable contrast. How Enea Silvio Piccolomini, the humanist occupying the seat of St Peter in Rome, and Ulrich von Hutten, the knightly poet, perceived, criticized, and justified courtly life is the subject of this book.

Ancient Letters and the New Testament Hans-Josef Klauck, Daniel P. Bailey, 2006. This volume places the New Testament letters squarely in the middle of all the important letter corpora of antiquity. Chapters cover the basic letter formula, papyrus and postal delivery, non-literary and diplomatic correspondence, Greek and Latin literary letters, epistolary theory, letters in early Judaism, and all the letters of the New Testament. Part I of each chapter surveys each corpus followed by detailed exegetical examples in Part II. Comprehensive bibliographies and 54 exercises with answers suit this guide to student and scholar alike. Publisher's website: <http://www.baylor.edu/~clauck/>
