## Mac Party:

*The Book of Mac* Donna-Claire Chesman, 2021-10-26 An album by album celebration of the life and music of Mac Miller through oral histories intimate reflections and critical examinations of his enduring work One of my most vivid memories of him is the way he would look at you while he was playing you a song He tried to look you right in the eyes to see how you were feeling about it Will Kalson friend and first manager Following Mac Miller's tragic passing in 2018 Donna Claire Chesman dedicated a year to chronicling his work through the unique lens of her relationship to the music and Mac's singular relationship to his fans Like many who'd been following him since he'd started releasing mixtapes at eighteen years old she felt as if she'd come of age alongside the rapidly evolving artist with his music being crucial to her personal development I want people to remember his humanity as they're listening to the music to realize how much bravery and courage it takes to be that honest be that self-aware and be that real about things going on internally He let us witness that entire journey He never hid that Kehlani friend and musician The project evolved to include intimate interviews with many of Mac's closest friends and collaborators from his Most Dope Family in Pittsburgh to the producers and musicians who assisted him in making his everlasting music including Big Jerm Rex Arrow Wiz Khalifa Benjy Grinberg Just Blaze Josh Berg Syd Thundercat and more These voices along with the author's commentary provide a vivid and poignant portrait of this astonishing artist one who had just released a series of increasingly complex albums demonstrating what a musical force he was and how heartbreaking it was to lose him As I'm reading the lyrics it's crazy It's him telling us that he hopes we can always respect him I feel like this is a message from him spiritually A lot of the time his music was like little letters and messages to his friends family and people he loved to remind them of who he really was Quentin Cuff best friend and tour manager

all we assume that you have used a computer in that past that you know how to use a mouse and you know the proper place to stick a DVD to get it to play in your computer We won't be showing you these things We will however demonstrate to our Mac converts how to right click on a trackpad with only one button Second we assume you know what you want to do with your computer We won't waste your time showing you specifically step by step how to order a pizza from Pizza Galaxy in Milwaukee Wisconsin with Safari though when you're done with this book we think you'll be able to do this just fine if such a place exists anyway Finally we assume that you are a reasonably intelligent person who realizes the value of such phrases as Give a man a fish you have fed him for today Teach a man to fish and you have fed him for a lifetime and can imagine how that might apply to a computer book If this sounds like you then we think you'll find this book rewarding Inside you will find everything you need to get up to speed with Mac OS X Leopard including Using the standard included Leopard applications including Mail Safari Preview and more Taking advantage of the Darwin subsystem in Leopard Learning all the ins and outs of the Finder and Leopards improved interface Administering your computer for yourself and for others Working with other computers and operating systems from you Mac Configuring the network to take full advantage of the powerful networking capabilities in Leopard Working with add on devices via USB Firewire and Bluetooth Effectively implementing data backup recovery and security Getting started with OS X development in Leopard
