## **Macau In Transition From Colony To Autonomous Region:**

Macau in Transition H. Yee, 2001-09-12 The book analyzes various aspects of the process of Macau's transition from a Portuguese autonomous territory to a Chinese special administrative region. It analyzes the role of those involved in the process: Beijing, Lisbon, the local Portuguese Macau administration, the Macau branch of the New China News Agency, the Luso-Chinese Joint Liaison Group, and the local political and social groups. It stresses the dynamics of interactions between actors as well as the political, economic, and social changes in the enclave that have direct or indirect impact on the transition.

**Macau 20 Years after the Handover** Meng U. Leong, 2020-05-25 This book outlines the major social and political changes in the city of Macau during its first 20 years under the One Country Two Systems arrangement with Mainland China. Despite the long-standing image of Macau as Asia's Las Vegas, it is a city that has changed a great deal since its return to China. Equally, despite this return, it retains a unique social, economic, and political character distinct both from the Mainland of China and from its larger neighbour Hong Kong. The chapters in this book examine the detail of this uniqueness from a range of perspectives, including the gambling industry, police-society relations, media usage patterns, and protest movements. Analysing the state of affairs 20 years after the city's return to China, they also attempt to anticipate its future trajectory. This is a valuable guide for scholars of Asian and particularly Chinese urban politics that will be of interest to academics and students looking to better understand the particularities of Macau.

**China's Macao Transformed** Eilo W.Y. YU, Ming K. CHAN, 2014-10-01 The return of Macao from the Portuguese administration to the People's Republic of China (PRC) in 1999 marks the beginning of its transformation in the 21st century. Macao was confronted with various issues concerning the then-existing political system, economic downturn, and gangland violence during the transition period. Beijing put Macao under the One Country Two Systems and implemented a wide variety of measures in order to restore its law and order as well as to recover its tourism-dependent economy. Gradually, Macao transformed itself to Las Vegas of the East. This volume of 18 essays highlights the key dimensions of Macao's remarkable One Country Two Systems actualisation experience in its first 15 years and discusses how Macao transformed and what challenges it encountered during its post-handover transformation. The volume has several focuses. It first investigates the political and electoral issues in a critical manner post-handover. Macao suffered from maladministration and limited democratization, and the chief executives selected lacked representativeness due to restricted public participation in the electoral process. Overall speaking, the government lacked legitimacy and popular support. From a socio-economic point of view, this book looks into the business model in running Macao's casinos and the emerging culture of mass participation and youth participation in political affairs. The education reformation and changes in civic identity of local Macao Chinese are also addressed. Finally, the volume looks into how post-handover Macao relates itself in the international politics affair.

Hybrid Constitutionalism Eric C. Ip, 2019-04-25 This is the first book that focuses on the entrenched fundamental divergence between the Hong Kong Court of Final Appeal and

Macau's Tribunal de Última Instância over their constitutional jurisprudence with the former repeatedly invalidating unconstitutional legislation with finality and the latter having never challenged the constitutionality of legislation at all. This divergence is all the more remarkable when considered in the light of the fact that the two Regions commonly subject to oversight by China's authoritarian Party-state possess constitutional frameworks that are nearly identical, feature similar hybrid regimes and share a lot in history, ethnicity, culture and language. Informed by political science and economics, this book breaks new ground by locating the cause of this anomaly studied within the universe of authoritarian constitutionalism, not in the common law/civil law differences between these two former European dependencies but the disparate levels of political transaction costs therein. *Public Administration in Southeast Asia* Evan M. Berman, 2017-09-25. While public administration practice and education in general has become considerably professionalized in the last decade, existing knowledge on public administration in Southeast Asia is fragmented at best and often devoid of a useful reference. While journal articles and government reports provide decentralized information, *Public Administration in Southeast Asia: Thailand, Philippines, Malaysia, Hong Kong and Macao* takes a comprehensive and comparative look at the major components of administration systems. The selection of countries and regions included reflects the diversity of Southeast Asia. Organized by Country, the handbook fills a critical need by bringing together leading scholars who provide an insider perspective and viewpoint on essential and advanced issues. Divided into five sections, each dedicated to a particular country, the text outlines topics relevant to modern public administration, including: History and Political Context of Public Administration; Decentralization and Local Governance; Public Ethics and Corruption; Performance Management Reforms; Civil Service System. Focusing on recent developments in public administration in these countries, which are among the fastest growing economies in the world, the book explores their practices and innovative approaches in public administration. For many years, people have been fascinated by the cultures, peoples and governments of Southeast Asia, and now they have a book that discusses the apparatus of government in Southeast Asia: their agencies, contexts, processes and values. *The Far East and Australasia 2003* Europa Publications, 2002. A unique survey of each country in the region. It includes an extensive collection of facts, statistics, analysis and directory information in one accessible volume. *Gaming, Governance and Public Policy in Macao* Newman M. K. Lam, Ian Scott, 2011-08-01. The small city of Macao, formerly a Portuguese colony, now a Special Administrative Region of China, liberalized its gaming industry in 2002. Since then, a score of new casinos have been built and millions of gamblers have flooded in from mainland China. Per capita income has more than doubled in five years, and the gaming operators have outstripped their Las Vegas counterparts in revenue and profits. But rapid economic growth has also brought social and political problems. In this structured survey of modern Macao, 15 experts examine the effects of massive foreign investment, the problems of governance and increasing public policy challenges in a time of rapid change and potential social instability. Newman M. K. Lam is professor of public administration at the University of Macau. Ian Scott is

emeritus professor and fellow of the Asia Research Centre at Murdoch University and adjunct professor of public and social administration at the City University of Hong Kong      Transnational Migration and Work in Asia Kevin Hewison, Ken Young, 2006-04-07 Focusing on the issues associated with migrating for work both in and from the Asian region this book sheds light on the debate over migration and trafficking With contributions from an international team of well known scholars the book sets labour migration firmly within the context of globalization providing a focused contemporary discussion of what is undoubtedly a major twenty first century concern Transnational Migration and Work in Asia analyzes workers motivations and rationalities highlighting the similarities of migration experiences throughout Asia Presenting in depth case studies of the real life experiences and problems faced by migrant workers the book discusses migrants relations with the state and their vulnerability to exploitation as well as the major policy issues now facing governments employers NGOs and international agencies      **Reading China Against the Grain** Carlos Rojas, Mei-hwa Sung, 2020-10-28 Through an analysis of a wide array of contemporary Chinese literature from inside and outside of China this volume considers some of the ways in which China and Chineseness are understood and imagined Using the central theme of the way in which literature has the potential to both reinforce and to undermine a national imaginary the volume contains chapters offering new perspectives on well known authors from Jin Yucheng to Nobel Prize winning Mo Yan as well as chapters focusing on authors rarely included in discussions of contemporary Chinese literature such as the expatriate authors Larissa Lai and Xiaolu Guo The volume is complemented by chapters covering more marginalized literary figures throughout history such as Macau born poet Yiling the Malaysian born novelist Zhang Guixing and the ethnically Korean author Kim Hak ch l Invested in issues ranging from identity and representation to translation and grammar it is one of the few publications of its kind devoting comparable attention to authors from Mainland China authors from Manchuria Macau and Taiwan and throughout the global Chinese diaspora Reading China Against the Grain Imagining Communities is a rich resource of literary criticism for students and scholars of Chinese studies sinophone studies and comparative literature      The Emerging Asian City Vinayak Bhanu, 2013 Asian cities create concomitant imagery polarizations of poverty and wealth blurry lines between formality and informality and stark juxtapositions of ancient historic places with shimmering new skylines With Asia s re emergence on the global stage there is an acute focus on its multifarious urban issues and identities What are Asian cities going to become Will they surpass the economic and environmental debacles of the West This collection of twenty four essays surveys the most dominant issues shaping the Asian urban landscape today It offers scholarly reflections and positions on the forces shaping Asian cities and the forces that they in turn are shaping      **Sovereignty at the Edge** Cathryn H. Clayton, 2020-03-17 How have conceptions and practices of sovereignty shaped how Chineseness is imagined This ethnography addresses this question through the example of Macau a southern Chinese city that was a Portuguese colony from the 1550s until 1999 As the Portuguese administration prepared to transfer Macau to Chinese control it mounted a

campaign to convince the city's residents 95 percent of whom identified as Chinese that they possessed a unique cultural identity that made them different from other Chinese and that resulted from the existence of a Portuguese state on Chinese soil. This attempt sparked reflections on the meaning of Portuguese governance that challenged not only conventional definitions of sovereignty but also conventional notions of Chineseness as a subjectivity common to all Chinese people around the world. Various stories about sovereignty and Chineseness and their interrelationship were told in Macau in the 1990s. This book is about those stories and how they informed the lives of Macau residents in ways that allowed different relationships among sovereignty, subjectivity, and culture to become thinkable while also providing a sense of why at times it may not be desirable to think them.

**China's Policies On Its Borderlands And The International Implications** Yufan Hao, Bill K P Chou, 2010-11-25. This book examines the interplay of two sets of policies: the Chinese government's policies to its borderlands and international relations. It proposes a conceptual framework and argues that China's policymakers fail to make complete use of the opportunities in the borderlands for accomplishing foreign policymakers' agenda to strengthen China's relations with other countries, neighboring ones in particular. As a result, these foreign policies reflect the political elites' inadequate consideration of the negative impact of these policies on the borderlands and underscore their worry for territorial disintegration. Therefore, these policies center on the pursuit of central control through exercising administrative, military coercion, making the borderlands economically dependent, standardizing the cultural identity, and indoctrinating CCP-defined ideology. The challenges of the borderlands to the national integration are exaggerated so much that political elites pursued control and standardization at the expense of the identification of many people in borderlands with the regime. China's international image and the relations with its neighbouring countries.

**Entangled Histories** Dan Ben-Canaan, Frank Grüner, Ines Prodöhl, 2013-10-29. The

authors of this book focus on transcultural entanglements in Manchuria during the first half of the twentieth century. Manchuria, as Western historiography commonly designates the three northeastern provinces of China, was a politically, culturally, and economically contested region. In the late nineteenth century, the region became the centre of competing Russian, Chinese, and Japanese interests, thereby also attracting global attention. The coexistence of people with different nationalities, ethnicities, and cultures in Manchuria was rarely, if ever, harmoniously balanced or static. On the contrary, interactions were both dynamic and complex. Semi-colonial experiences affected the people's living conditions, status, and power relations. The transcultural negotiations between all population groups across borders of all kinds are the subject of this book. The chapters of this volume shed light on various entangled histories in areas such as administration, the economy, ideas, ideologies, culture, media, and daily life.

**Routledge Handbook of Constitutional Law in Greater China** Ngoc Son Bui, Stuart Hargreaves, Ryan Mitchell, 2022-12-29. The Handbook of Constitutional Law in Greater China surveys important issues of constitutional law in Mainland China, Hong Kong, Macau, and Taiwan. It synthesizes existing scholarship, debates, and views on important constitutional issues in the four jurisdictions. Written by a range of scholars, it contributes to both national and comparative scholarship on constitutional law in these jurisdictions. The book includes four parts: Part I: History. This part explores the constitutional movement of the Qing dynasty, constitutional projects in modern China, and aspects of the drafting and implementation history of the Hong Kong and Macau Basic Laws. Part II: Structure. This part discusses the relationship between the party-state and the Chinese constitutional order, Chinese constitutionalism, constitutional aspects of city development under the SAR concept, constitutional review in Mainland China, a history of Taiwan's Council of Grand Justices and judicial review in both Hong Kong and Macau. Part III: Rights, Society, and Economy. This part deals with Hong Kong's National Security Law and its impact on the one-country-two-systems model, social movements and constitutionalism, LGBT rights advocacy, the integration of capitalist regions within socialist China, the constitutional relevance of labour reforms in Mainland China, healthcare rights in both the Mainland and the SARs, and foreign investment under Art 18 of the PRC Constitution. Part IV: Transnational Engagement. This part surveys comparative writings on China's constitution, the influence of international human rights treaties on China's constitutional order, the international dimension of Hong Kong's constitutional order, and the changing role of the overseas judges in Hong Kong. Exploring both historical and cutting-edge constitutional issues, this reference book is important reading for law researchers, lawyers, graduate students, undergraduates, and practitioners in the field of constitutional law and politics in Mainland China, Taiwan, Hong Kong, and Macau.

**Asian Journal of Women's Studies**, 2006. **Gambling Dynamism** Victor Zheng, Po-san Wan, 2013-11-29. Four years after the actual implementation of its casino deregulation policy, Macao has surpassed Las Vegas as the world's top gambling destination in terms of annual turnover. Also, various recent surveys have put Macao at the very top of the list in terms of per capita GDP, as its economy grew shortly after the resumption of Chinese sovereignty. How could a tiny city, without any

natural resources on the southern coast of China have managed to achieve such a miraculous level of development This book presents an unparalleled study of Macao s economic dynamism and its gambling industry not only by merging historical and current developments but also by presenting solid subjective and objective indicators and evidence It offers an indispensable resource for students researchers and general readers looking to understand Macao s gambling miracle

**China Threat: Perceptions Myths** Herbert Yee, Ian Storey, 2013-04-03 Since the end of the Cold War one of the most significant debates in international relations has been the question of whether the rise of China as a major economic political and military power will be a force for stability or instability in the international system and the East Asian region Forceful arguments have been put forward on both sides This book examines perceptions of the China Threat and governments policies in response to the perceived threat in a wide range of countries including the United States Russia Europe Japan South Asia South East Asia and the Middle East as well as the perceptions of the Chinese themselves For each country current security concerns and policies especially the policy of engagement are examined in detail and future prospects for relations with China are assessed As the Bush administration in Washington increasingly focuses on China as a strategic competitor and Sino US relations becomes increasingly tense the China Threat issue has come to dominate the security agenda in the Asia Pacific region and now poses the biggest foreign policy challenge of the 21st century

*China's Rise - Threat or Opportunity?* Herbert S. Yee, 2010-10-15 The phenomenal growth of Chinese economic and military power in the first decade of the 21st century has drawn world wide attention Perceptions of China s rise have shifted from seeing China as a threat to a more mixed view where China is seen as playing a key role in economic recovery taking an increasingly responsible role in world affairs and contributing significantly to scientific and technological advances This book argues that China will only become a truly global power when its rising power status is accepted or at least tolerated by other major powers and China s neighbours Filling a major gap in the existing literature it presents a comprehensive overview of how China s rise is perceived in a wide range of countries and regions these include China s neighbours other world powers the parts of China not part of mainland China Taiwan Hong Kong and Macau and regions of the world where China is having an unexpected impact such as the Middle East It also examines changing perceptions of China in the western media Overall the book demonstrates that whilst many

countries and regions are much more positive about China's rise than they were before considerable nervousness and concern persists
