

Narrative research: An alternative approach to study language teaching and learning

Investigación Narrativa: Un enfoque alternativo para estudiar la enseñanza y el aprendizaje de idiomas

Jenny Alexandra Mendieta¹

Abstract

The use of stories in research help us better understand the world of teaching and learning since teachers and learners, like any other human being, are storytellers who engage in narrative acts to make sense of their and others' knowledge and experiences. Yet, narrative research is a path not widely walked in the Colombian language teaching and learning field. This article is therefore an attempt to review some of the epistemological and methodological underpinnings underlying this approach to qualitative research so as to add to the local knowledge of our ELT community. It discusses the role of the researcher, the different orientations narrative studies can take, and the processes involved in narrative analysis. Some of the challenges narrative researchers face in their work as well as the contributions that this method of inquiry has made to both the educational and the TESOL fields are also considered.

Keywords:

Narratives, narrative research, TESOL, education.

Resumen

El uso de historias en procesos de investigación nos ayuda a entender mejor el mundo de la enseñanza y el aprendizaje dado que nuestros maestros y estudiantes, al igual que cualquier otro ser humano, construyen narraciones a fin de dar sentido a sus experiencias. Sin embargo, la investigación narrativa es un camino que no ha sido ampliamente recorrido en el campo de la enseñanza de idiomas en Colombia. Este artículo, por tanto, intenta revisar algunos de los fundamentos epistemológicos y metodológicos que subyacen a este enfoque de investigación cualitativa a fin de contribuir al conocimiento local de nuestra comunidad. Aspectos tales como el papel del investigador, las diferentes orientaciones que los estudios de tipo narrativo pueden tomar y los procesos involucrados en el análisis narrativo serán examinados. Algunos de los retos que los investigadores enfrentan en sus trabajos, así como las contribuciones de este método de investigación tanto al campo de la educación como al campo de la enseñanza de idiomas serán igualmente considerados.

Palabras clave:

Narrativa, investigación narrativa, TESOL, educación.
