Each theorist chapter is written by a scholar specializing in that particular theorist's work, often an individual who has worked closely with the theorist. Most

chapters have been reviewed and edited by the theorist for currency and accuracy further validating the accounts set forth in the text Theorist birth and if applicable death dates help you place each individual into a time context A new chapter introduces the theorist Afaf Meleis and covers her Transition Theory that has helped shape the theoretical development of nursing Points for further study at the end of each chapter direct you to assets available for additional information Need to know information is highlighted in at a glance summary boxes throughout to help you quickly review key concepts Personal quotes from the theorists help you gain insight and make each complex theory more memorable Updated references include only published works to ensure accuracy and credibility     Teaching Nursing Lynne E.
